Dear Rabbi Lamm,

I have enjoyed your lecture series very much - both last year's and this year's. Your ending of the last lecture was so meaningful to me. You told us of the two great legacies which we have inherited (Rabbi Mendlowitz's of Torah U'dath expressed our inheriting all the great philosophies and approaches of previous generations by comparing us to 13 G-d who was 13 G-d (13 G-d) and that we should look forward towards 13 G-d.

This is the winter of discontent in the life of the American Jewish community. Personally, I find myself caught in the "tug of

war" between the right and the left. Your words, however, echoed the coming of the springtime of our hope and promise.

I would appreciate your sending me a few tapes of your lectures. As soon as possible, I will retape them and return them to you. Thank you very much. חסד ורחמים

Yours truly,
Asker Moskovitz
