the study

Dear Maun,

This is a miniaturized note for your great assistance in editing the book. I know how much work you put into it and there is really no adequate, gracious way in which we can thank its brother. You did more than cared, obviously. <sup>up</sup> You shared and prodded — and that was just as valuable.

Thus the miniaturized paper — since you've been listening to GXR on that makeshift transistor in your office. / Moshe
