called shabbotones .I thought these were a great way to meet boys from other towns what fun! I was amazed that there were family's that sat down and had a jewish meal every week not just holy days .Little by little this shabbos thing seemed nice and little by little I became frum seminar was a huge part in it .I remember looking at you and thinking this man believes .It took me 4 years to become a associate member of the yolada benson honer society.A huge day and then I went to Israel and the following year became a full member .I worked so hard to become a frum jew.I'm now the mother of three Jewish frum children the only Jews left in my family to carry on our wonderful lifestyle.I thank you and give you a bracha for joy and peace and most of all health .I hope to hear from you as there are some things I could use you advise on .It is time to light the shabbos candles for myself and all that cant or dont .There should always be men like you that can give the joy of being jewish to someone who had no idea that it is a joy.I try thank you and g-d bless [REDACTED]
