Dear Joe:

I want to let you know what kind of a wonderful impression your report to the Torah Umesorah Annual Dinner on Sunday night made upon me and all others who were sitting in my area, both from The Jewish Center and from without.

Your report was filled with fascinating material, and you held the interest of your audience every moment - no mean feat at all. I particularly admired your exemplary self-restraint in avoiding "stories" or homiletics, which is a professional danger with us.

Many more years of health and strength in your fabulous work for Torah.

Cordially yours,

RABBI NORMAN LAMM
