Dear 777, 16 Fe

This brief note has a double purpose, both of which are expressions of gratitude. First for your warm and gracious reception and the interest shown in my daughter Shira. Second for the inspiration gained from reading your sermons. I refer specifically to "Be Not Overwise" and "The Fourth Son" which I have been reading most recently. I have yet to read one of your sermons that left me unmoved or unrewarded. You are certainly a rabbi's rabbi, as well as an inspiration to your P'K'P '62. What is even more important is that you are more than a B'IB 7/11/1.

Your evaluation of the P't leaves me with some hope, that my faith will ever remain Child-like rather than childish! Thanks for the p/34 you have given me and to you in turn I say p/37 p/34

With every good wish for a most joyous and
meaningful הודו ה' I remain
