My Dear and Esteemed Rabbi Lamm:

I am enclosing herewith a photo copy of a front page story which appeared in the Maariv on February 5. I am sure that you are aware of the Lilhammer story, Miss Rafael, one of those who was condemned to five years hard labor in Norway for her alleged part in the killing of the leader of El Fatah.

A similar letter also appears in the Yediot Achronot. I feel that this is going to snowball into another Langer Sister and Brother case and somebody must answer her, lovingly and with understanding, and at the same time put the situation straight.

I always turn to you in such a matter. This time I am asking a few men-of-letters to answer, but of course no one can match you.

Best Regards

David Weingarten  
President
