Dear Professor Low:

I am sending you this letter air mail special delivery, and also a separate copy by special messenger who should be arriving in Israel on January 7 י"ז . It should be obvious that I do not place excessive faith in either the Israeli or American postal systems...

The first cable that you sent out to me on about December 26 or 27 (and about which you told me when we talked over the phone on December 28) never arrived. I am grateful to you for your second telegram which I received on January 1.
