

- with 90 liter bowl of stainless steel
- almost completely made of solid stainless steel
- operation via cross lever switches and knee lever switches
- hydraulic ejector on the right hand side of the machine
- hydraulic main cover
- digital display in a stainless housing
- noise absorbing cover of transparent special plastic
- central point of lubrication for knife shaft
- balanceable, changeable knife head
- many other options

AC-8

6 programmable knife speeds, forward, stepless
 2 reverse mixing speeds
 2 separate bowl speeds
 - Frequency-controlled 3-phase motor of the main motor, max. power 60 kW
 - separate 2-speed bowl drive
 - frequency-controlled drive system with smart control of output

Command 1000:
 Digital display and control for gear, knife speeds, running time, temperature, bowl speeds, time
 According to the motor type variant all knife speeds are steplessly programmable, from mixing speed up to maximum speed
 Switch-off automatic system for temperature and running time
 Up to 9 switch-offs possible
 Separate panel box of stainless steel with built-in main-switch
 Display of maintenance intervals and service intervals

Ultra

4 knife speeds
 2 mixing speeds
 2 separate bowl speeds
 - 3-phase motor with 21, 26 or 32 kW power
 - separate 2-speed bowl drive motor
 respectively mixing speed motor

Command 1000:
 Digital display and control for gear, knife speeds, running time, temperature, bowl speeds, time
 According to the motor type variant all knife speeds are steplessly programmable, from mixing speed up to maximum speed
 Switch-off automatic system for temperature and running time
 Up to 9 switch-offs possible
 Separate panel box of stainless steel with built-in main-switch
 Display of maintenance intervals and service intervals

Rasant

2 knife speeds
 2 bowl speeds
 3-phase motor with 21, 26 or 32 kW power

Command 500:
 Microprocessor-controlled digital display and digital control for gear, knife speeds, running time, temperature, bowl speeds, time.
 According to the motor type variant all knife speeds are steplessly programmable, from mixing speed up to maximum speed
 Switch-off automatic system for temperature and running time
 Up to 9 switch-offs possible
 Separate panel box of stainless steel with built-in main-switch
 Display of maintenance intervals and service intervals
 Different service and error displays
