Maxime Lamothe-Brassard

FOUNDER & CEO OF LIMACHARLIE: SECURITY INFRASTRUCTURE AS A SERVICE

After graduating from the University of Victoria with a degree in Computer Science, Maxime began his career in cybersecurity working for the Canadian Government as part of the Canadian Security Establishment (CSE). CSE is Canada's national cryptologic agency, Providing the Government of Canada with information technology security and foreign signals intelligence. As part of the Canadian Intelligence apparatus, Maxime worked in positions ranging from the development of cyber defense technologies, Counter Computer Network Exploitation, and Counter Intelligence.

After leaving the government, Maxime provided direct help to private and public organizations in matters of cyber defense.

He was an early employee at CrowdStrike, then worked for Google where he eventually landed in Google X. Maxime left Google X - where he was a founding member of Chronicle Security - in 2018 to found LimaCharlie.

[LimaCharlie](#) provides cybersecurity primitives on-demand. It is a fundamentally different approach to the way that cybersecurity tooling is delivered. In the same way that AWS delivers components of IT infrastructure LimaCharlie delivers cybersecurity tools and supporting infrastructure. It is a scalable DevOps approach to cybersecurity.
