Determining a winner:

- Regular season games may end in a tie.
- Championship and playoff games must have a winner. If the score is tied at the end of regulation time, the following procedure will be applied.
 1. Two 5 minute golden goal overtime periods. At the start of the first overtime period each team will reduce their players on the field by one male and one female. At the start of the second overtime period both teams will reduce their players on the field by one additional male. There will be a coin flip to determine ends of field and play will start with a drop ball at midfield. If there is no winner at the end of the first overtime

period then teams will switch ends of the field and play will start with a drop ball. Normal substitution is allowed during the overtime periods.

2. Penalty kicks. Only the players on the field at the end of the second overtime period may participate in the penalty kicks. Three members of each team (one must be a female) will take turns kicking from the mark. If the score is still tied then one player from each team will alternate taking kicks from the mark until there is a winner. No player may kick a second time until all members of their team on the field have kicked. If one team has less players on the field at the end of the second overtime period due to a red card the FIFA rules will apply. Any player on the field may act as keeper for their team.

- Games may be made up on a Monday, Tuesday, Wednesday, or Thursday nights. There may be times when some teams may need to play two games in one evening. If games are cancelled due to rain, then the games will be played on a future evening determined by the league Lead Team. In the event that games are unable to be rescheduled each team will receive 1 point for the game for league standings.
- If weather turns bad once players are at the fields the officials and commissioner will make the call on games.
- The Lightning Rule is 30 minutes after the last flash/crash to resume play. Officials and league Commissioner will monitor the lightning rule.
 1. If at least half of a game has been played when the game is suspended for weather the game will be considered official. The game will not restart. If the officials lift the restriction the next set of games will start.
 2. If part of the division has completed a game that night but other games are cancelled the teams that do not play will have their games rescheduled by the assigner.
 3. If games are called by officials due to weather it is for the players' safety. All players are to leave the fields immediately.
