

In order to prevent the spread of COVID-19, the following has been implemented:

Parent Responsibilities:

- Parents/siblings are prohibited from being inside the gym. Car drop off of players is the preferred over walking the player up to the gym assigned entry point. Social distancing will be required if a player is walked up the entry point of the gym.
- If a child has a temperature of 99.5 degrees or greater, they will not be able to practice and must be taken home immediately.
- Entry points of the gym shall be on the side roundabout that only has access to GYM 1 and we will have one way in and out of the building. The main entrance and lobby will be a restricted area and shall not be a means to enter the assigned gym.
- Parents must be ON TIME for pick up after practice. You can wait in the parking lot until your child goes out. This is especially important as other teams need to get ready for their practice on time.

Player Responsibilities:

- Hand washing/disinfecting is required upon arrival and prior to leaving.
- Players are required to bring their own alcohol-based hand sanitizers or wipes containing at least 60% alcohol.
- Players are required to frequently disinfect their hands regularly during practice.
- Players must bring their own water/drink as no use of water fountains is allowed.
- Player must bring their own mask for bathroom use. Players are required to wear their masks prior to entering the bathroom. Players must disinfect after use.

Coach/Team Parent Responsibilities:

- All surfaces must be disinfected before and after each practice by the practicing team.
- Allow 20-30 minutes between practices for AC circulation if negative and positive fresh air is not possible.
- Temperature check will be taken for each player attending at the start of each practice.
- If a child has a temperature of 99.5 degrees or greater, they will not be able to practice and must be taken home immediately.
- Coaches have the option to have social distancing practices to avoid face to face transmissions if there are possible community cases within the facility or the Wolves Organization or any other reason to minimize community spreading.
- Practice will be cancelled if the AC system is not working.
- The 1 team per court rule shall apply. Scrimmages with other teams are prohibited.
- Only the teams that have practice are allowed in the gym. Coaches MUST make sure that practice ends on time to allow time for their team to sanitize for the next team and exit safely and the other team to enter.
