

Hello Coaches

With the increase in Covid numbers in our local area and schools, we will be following the guidelines of our local schools, and moving forward we will be increasing our mask protocols as follows:

Masks for outdoor baseball activities:

- All coaches and support adults in all divisions are to be masked at all times.
- All players 18u-11u divisions to be masked at all times
- all players 9u-7u divisions do not need to be masked as they are not required to be masked at school. We can encourage their use if the players want to wear one. Coaches still need to wear a mask at all times.

Socially Distanced practices:

- 6 feet social distancing amongst the players at all times
- please use the cones provided as visual cues for the kids to use to help them space out naturally, while doing things like warm up stretches, playing catch, doing drills...
- Please have players space their gear bags out from each other on the sidelines.

The current PHO Orders in regards to youth baseball:

Currently Phase 2 Stage 1

NO game play, including scrimmages, game simulations, etc. (so nothing that includes baserunners because they would be too close to the infielders and NO live hitting WITH a catcher because of catchers closeness to the hitters). Reminder that all practice situations need to maintain a 3 Metre distance and no shared equipment. Full team practices allowed, no spectators.
