

## **Testimonials:**

Coach Dave,

*"I think you do a tremendous job with these kids. This is my second child through your program and I intend to get my 3rd going next session. The mini-games and stations that you play each week are a great introduction to many of the skills. The kids seem to really enjoy them and you have a tremendous knack for getting a rambunctious group of youngsters to sit quietly and receive directions. That is no small task.*

*Keep up the great work. You are doing some great things for these kids and offer a great product."*

- Andrew Thompson, parent of former player

Dave,

*"My 4 year old son Brayden just started with you. This is his first exposure to any organized sport and he is really enjoying it. I truly believe you have reached my son. This evening while I was making dinner, he told me when he grows up, he wants to be Coach Dave, and we were not even talking about soccer. Since his other aspirations are a fireman or police officer, I think that gives you hero status! Everything you have done with these little guys is awesome. Thank you so much for your patience and passion."*

- Michelle Drevicki, parent of former player

Coach Dave,

*"My son Ian has loved every minute of the soccer experience you provided. He was always motivated and excited to go to soccer practices/games, and on off days he would want to practice soccer. I attribute his positive experiences to your coaching tactics. You are amazing to watch with the kiddos. How you can successfully coral 20 + 5 year olds and keep their attention is not an easy feat. Seems to come effortlessly to you and I want to thank you for your passionate coaching spirit. You are appreciated!"*
