

IBLA Covid-19 Game Management Protocol

Self Police by Parent

- Symptoms and temperature checks are required prior to departing for any IBLA event.
- All athletes should follow best practices to clean and sanitize before entering home or visiting facility.

Entrance of Fields

- All members of the team must be wearing a mask when arriving general home or visiting fields.

Pre-Game/Game/Post-Game Protocols

- Social distancing should be observed within warmup and cool down periods (stretch periods).
- Essential personnel only (players, coaches, officials, trainers, scorekeepers, statisticians, game management staff and film crew) will be given access to fields and to team benches.
- Social distancing guidelines should be practiced whenever possible within guidelines of the sport.
- All travel members of the visiting team and home team must wear a mask to leave the competition field.
- The visiting team and home team are discouraged from unnecessary physical contact, including celebratory contact (high fives, fist bumps, etc).
- Visiting and home team athletes can bring an individual water bottle for use. There will be no sharing of water bottles.
- There will be no post-game hand shake. Athletes and coaches are encouraged to conduct post game cheer to the opposing bench as a sign of sportsmanship.
- Athletes are encouraged to exit the fields as quickly as possible. There should be no congregating on the fields.
- Masks: Face coverings are required for all players, coaches, and team personnel. In lieu of a traditional face covering, a mask or masking device approved by NFHS/NOCSAE/US LACROSSE can be affixed to the inside of the helmet's facemask for all boys players and girls goal keepers. Any mask modification requests, due to a documented medical condition, must come through an Accommodation Request through the IBLA (see examples of the three options on the following pages of this document).
- Spectators are required to wear a mask or face covering that covers the nose and mouth at all times, regardless of the facility.
- Guests are expected to observe social distancing at all events and remain out of restricted areas, which includes a distance of at least 12 feet from bench areas, and warm-up areas.

Option #1
Half Shield Helmet Covering

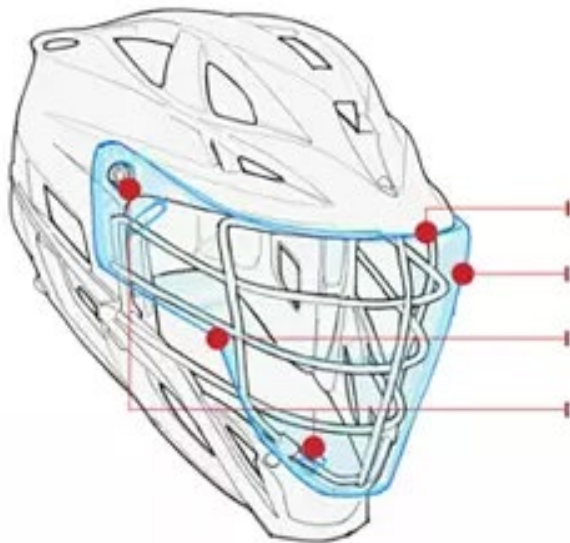

Option #2
Medical Cloth Mask

Option #3

Full Shield Helmet Covering

TECH & SPEC

HEAT RELEASE VENTILATION

ANTI-FOG CONSTRUCTION

CUSTOM DIECUT FIT FOR ALL CASCADE HELMETS

4-POINT FASTENING SYSTEM

Easily attach & detach with dual chinstrap snap integration and two-point zip design. Intended for limited use and quick interchange.
