

2019 Global LEAP Awards for Solar Water Pumps: Nominations Form Fields

Field #	Field Category	Field Subcategory	Field / Question		
1	Nominator Information		Name		
2			Company/Organization		
3			Title		
4			Email		
5			Phone Number (w/ Country Code)		
6			Company Website		
7			Postal Address		
8			Size of Company		
9			How did you learn about the solar water pump competition?		
10			Do you want to receive further information related to the program and/or the program's partners?		
11	Eligibility Requirements		Please indicate the number of products you would like to nominate?		
12			Do all of the nominated Product(s) meet the following eligibility criteria:		
13	Manufacturer & Warehouse Information		For all of the products being nominated, is your company the manufacturer, distributor, both, or mixed (depending on product)?		
14			Is the manufacturer the same for all the products you are nominating?		
15			Manufacturer name:		
16			Manufacturer website:		
17			Manufacturer postal address:		
18			For each product being nominated, please provide the model name/number and corresponding manufacturer 1) name, 2) website, and 3) postal address:		
19			Product Warehouse Information		Is the physical warehouse address the same for all the products you are nominating?
20					Physical Address of Product Warehouse
21	For each product being nominated, please provide the model name/number and corresponding physical warehouse address:				
22	Installation, Training & Service		Are the answers to the following installation, training, and service questions the same for all products being nominated?		
23			Length of warranty (months):		
24			If the Products are sold with spare or interchangeable parts:		
25			Any Product installation guides, resources, or recommendations provided by the supplier to the distributor/retailer/installer:		
26			Any Product training and user manuals, resources, or recommendations provided to the end consumer:		
27			If the Products are sold with, marketed, or compatible with a water storage tank, drip or other irrigation systems:		
28			Any after-sales maintenance and service offered (see note on what to include in italics below):		
29			For business to business sales, are there any other services provided to the distributor:		
30			For business to consumer sales, are there any other services provided to the end-customer:		
31			Product Information #1		Product Name
32	Brand Name				
33	Product Model Name and Number (if applicable)				
34	SWP type:				
35	List the components the system is sold with (by your company):				
36	If "others" please list additional components below:				
37	Select the competition category* for this Product to be entered into (you MAY select multiple categories). We recommend selecting the category in which your Product will perform most efficiently and cost-effectively:				
38	Pump Details				Pump brand:
39					Pump model name and number (if applicable):
40					Type of pump:
41	Motor Details				Motor brand:
42					Motor model name and number (if applicable):
43					Motor type:
44					Fixed or variable speed:
45					If "fixed speed," number of speeds:
46	Does the motor have a permanent magnet:				
47	Horse power or nominal power rating:				
48	Piping Details				Recommended piping diameter for use by end consumer [cm]:
49					Material of pipe sold with system:
50					Length of pipe sold with system [cm]:
51	Diameter of pipe sold with system [cm]:				
52	Compatibility with other piping diameters [cm]:				
53	Power Supply Details				Power supply type:
54					Capacity of PV panels (sold with or recommended for Product) [Wp]:

55		Supply voltage range [V-V]:
56		If the Product is compatible for use with mini-grids or alternate power sources, please indicate and describe any design modifications necessary to enable compatibility:
57	Battery Details	Rate capacity of the battery:
58		Battery chemistry (e.g. cathode type):
59		Describe the purpose of the battery:
60	Price Details	FOB price of a single SWP (whole system, with PV if applicable) from an order of one hundred (100) units [USD\$]:
61		FOB price of a single PV pump aggregate* (pump, motor, controls) from an order of one hundred (100) units [USD\$]:
62	Declared Performance #1	Total volume of water moved per day (as marketed) [m3/day]:
63	Assumptions for Declared Performance	Insolation pattern/value (describe or attach a document on page 11 and input "n/a" here):
64		PV system capacity [Wp]:
65		Static head [m]:
66		Pipe length [m]:
67		Pipe material:
68		Pipe diameter [cm]:
69		Type of liquid (level of sediment/salinity, if applicable):
70		Other assumptions/conditions (if applicable):
71	Durability, Quality and Safety	If the product requires or has an automatic dry run operating stoppage mechanism:
72		Any overvoltage and undervoltage protection:
73		Any overload protection mechanisms:
74		Any overtemperature protection mechanisms:
75		Any water content protections or performance limits (such as maximum salinity, sand content ppm, or pH ranges):
76		Other automatic operating stoppage or protection mechanisms (if applicable):
77		Please describe any other pump sensors or indicators (if applicable):
78		What else is innovative or valuable about the design of your Product that should be considered?
79	Installation, Training and Service #1 (IF unique to each product and multiple products nominated)	Length of warranty (months):
80		If the Product is sold with spare or interchangeable parts:
81		Any Product installation guides, resources, or recommendations provided by the supplier to the distributor/retailer/installer:
82		Any Product training and user manuals, resources, or recommendations provided to the end consumer:
83		If the Product is sold with, marketed, or compatible with a water storage tank, drip or other irrigation systems:
84		Any after-sales maintenance and service offered (see note on what to include in italics below):
85		For business to business sales, are there any other services provided to the distributor:
86		For business to consumer sales, are there any other services provided to the end-customer:
87	Supporting Documents File Upload #1	Pump specification sheet(s):
88		Motor specification sheet(s):
89		IV curve(s):
90		Warranty (in English):
91		Relevant training and user manuals or resources:
92		Photograph(s) of Product:
93		Relevant installation guides or resources (if applicable):
94		Marketing materials:
95		Others (as needed):
96		Would you like to nominate another product?
97	Opportunity to Nominate Up To Four Additional Products (for each product, repeat Product Information; Declared Performance; Installation, Training and Service; Supporting Documents File Upload)	
98	Information for Investors (optional)	Please indicate if you will like to participate in the Efficiency for Access Coalition Investor Network
99		Date of company founding:
100		Please provide the annual revenue of your company (in USD): (\$)
101		Total number of products sold to date, by product type (including all products nominated for Global LEAP Awards):
102		Countries in which company operates:
103		Number of distributors:
104		Countries in which distributors operate:
105		Total amount of third party investment received to date: (\$)
106		Capital/investment needs:
107		Describe any aspects of the company's product design or business model that are intended to increase accessibility for BoP customers:
