Project Focus

The Global LEAP Awards Solar E-Waste Challenge

Application Form

Will the project focus on hardware, software or both? *

| Hardware |
| Software |
| Both |

Solution Type

What will the project focus on?

☐ Extend product and/or component lifespan

☐ Enhance product repairability and recyclability

☐ Facilitate more efficient refurbishment, reuse or repurposing

☐ Reduce rare metal and hazardous material composition

Project Proposal

Please describe your proposed project. Your response should include a description of the overall project plan, key milestones, timeline, and budget. *

500 word limit

What are the specific outcomes do expect your project to achieve over the 18 months? *

250 word limit

Application Form

What relevant metrics/key performance indicators (KPIs) will you use to track your performance? *

250 word limit

Please provide an overview of your company. *

The overview should include information relevant to 1) your capacity to deliver the proposed project and 2) comply with the Challenge's M&E requirements as listed in the RFP. (500 word limit)

If your project include sub-grantees, provide an overview of these organizations and a list of key personnel.

500 word limit.

Please explain the alignment of your proposed project with one or more of the Challenge's objectives as listed in the RFP. How will the project lead to a reduction of e-waste or more sustainable e-waste management? *

500 word limit.

Please describe any potential risks to the successful implementation of your project, and your plan to mitigate them. *

500 word limit

The Global LEAP Awards Solar E-Waste Challenge

Application Form

Please describe the potential for your project to lead to long-term positive environmental, commercial, and/or consumer benefits beyond the life of the grant. *

500 word limit

Please describe the industry-wide benefits to the sector, beyond the benefits to the applicant itself. *

250 word limit

Please indicate that you understand and adhere to the regulatory environment in which you will be operating. For example this should include permissions to handle hazardous waste if your project calls for such activity.

📄 sample.pdf

Please identify all potential environmental and health risks to the project, and how they will be mitigated throughout the duration of the proposed work period *

250 word limit

Please upload a proposed budget breakdown (e.g. staff costs, facility/equipment rental, supplies, etc.).

📄 sample.pdf

Please describe the proposed cost share by the applicant (in USD), and source of funding (self-funded through company or third party investor). *
