

## Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

### 1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

### 2) Tiled

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

**DOODLE PAGE OF THE MONTH**

T. Joey Smith, this month's carver, brings to the craft many new and interesting floral designs. He also ably depicts, in step by step method, by omitting part of the decorative cuts, the proper sequence of the basic tools starting at "A" and going in anti clockwise direction.

- A. The entire outline of the flower was cut.
- B. Camouflage tool No. 831 was used on all petals.
- C. Pear Shader No. 219 was blended into the camouflage impressions.
- D. The large check beveler No. 196 was used to bevel all cuts.
- E. Veiner No. 708 was used to add veins to the petals.
- F. Large coarse camouflage tool No. 455 used to form flower center.
- G. The seeds and decorative cuts were then added ready for the backgrounding.

NOTE: The arrows point out what happens if the camouflage tool is used **after** beveling.

Study the various tool impressions and learn to distinguish them. Note the effect of using the proper size pear shader, camouflage tool and veiner.
