

## Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

### 1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

### 2) Tiled

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

## "I D BILLFOLDS" by DENNIS NOLAND

These I.D. Billfold designs are to be used to show your Identification or drivers license or a school picture. I have watched a lot of Police programs on TV and I've heard one of the most used phrases, "let me see your Identification." Then they make you take it out of your wallet. In this way your Identification is already outside of your wallet. It will also help someone to find you if you lose your billfold.

This is not a very difficult billfold to do if you follow the Photo Carve pattern and use the tools indicated. Other tools used were the bevelers. The only different thing in making this billfold is to cut out the picture area on the billfold back (#3). Then glue a sheet of plastic (#2) over the picture area as shown. After you have done this, then glue the billfold liner (#1) to the billfold back on the inside. Be sure to cut a slot to slide the picture or license in the liner first. Caution, do not put glue on the area of the billfold liner where your picture or card is to slide in.

After this is done you may go on and lace the billfold together as you would any other time you are making a billfold.

You may also put initials in the panel as shown if you wish. I hope you like this idea and will try to make it, I will try to think of other ideas as time goes by.

As Dad says "Good Luck in Leather Carving."

See other side for Assembly Instructions.
