

Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

2) Tiled

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

WESTERN SCENE by KEN GRIFFIN

Last month Al Stohlman answered the requests for 1" belt designs received from our Eastern and Canadian friends. This month Ken Griffin comes through with a desert scene in answer to requests from our Western doodlers. What next? Please let us know.

Ken Griffin is recognized as one of the best carvers in the West. His easy flowing type of floral designs has highlighted the Doodle Pages for over three years and for this month's page Ken offers something unusual in the small figure carving and the Cacti so familiar to the Southwest. Of interest to the craft are the holes in the scull and Cactus in which Ken used the undercut beveler. (The holes in Cactus are made by desert birds who tap the water supply stored in cactus.)

TIP—Remember not to cut too deeply when doing small figures. Added depth can be gained by using the small bevelers.

TIP #2. Craft teachers are using Lucky 7 Instruction Book as a hand book in their classes.

TIP #3. We now have filigree blades that fit your Craftool swivel knives. They are thin and pointed to get in tight places. Order one today.

Believing that the craft would like to know what some of the professional craftsmen, who have originated the Doodle Pages, look like, Craftool Co. obtained this shot of Ken Griffin at work at the marble. Note the carved tool kit shown in the picture. Patterns for this appear in Ken Griffin's Scrap Book now at all Craftool Dealers.
