How to Make the Most of This Lesson

This lesson serves as a roadmap for your journey through a rich and exciting collection of online content made available by Google Arts & Culture’s partners. You will explore photographs, slideshows, voice recordings, and more. The images in this lesson are just a sample of what’s available to you via the Google Arts & Culture website.

You can complete this lesson independently or with fellow students, a teacher, or another adult. The content is geared toward students 16–18. Note: Some of the linked content in this lesson is intended for more mature audiences.

Your journey in this lesson will take you through three major topics:

Chapter 1: The Birth of a Movement
Chapter 2: The Colors of the Rainbow
Chapter 3: Pride Around the World

You’ll see some helpful signs along the way:

- Estimated time for completing the chapter
- Audio recording or video

Welcome to *Beyond the Rainbow: Milestones in the Pride Movement*

For many people, the idea of government legislating what kind of clothes you can wear and who you can date may seem like a shocking relic from ancient history. Not so long ago, however, this was the case in many countries, including the United States. It continues to be true in many of the world’s nations. In this lesson, you’ll learn about the launch of Pride and how it is celebrated in many places across the globe.

**What Will You Do?**

1. Discover pivotal events in the development of the LGBTQIA+ rights movement.
2. Learn about the origins of the rainbow flag and how it spurred other Pride symbols.
3. See how early events in the LGBTQIA+ rights movement sparked demands for rights in other places.
What's in this lesson?

1. Learn about the significance of Stonewall.
2. Hear participants in early events of the LGBTQIA+ rights movement talk about their experiences.
3. Find out how one artist created a symbol of Pride that spread worldwide.
4. See how people in different places around the world celebrate Pride and continue to push for change.

By participating in this lesson, you will be able to:

1. Describe how New York City played a role in the early LGBTQIA+ rights movement.
2. Understand the significance of the colors of the rainbow flag.
3. See why the LGBTQIA+ community and its supporters continue to push for change.

   - What challenges are being faced?
   - What do people consider to be basic human rights?
Early Pioneers in the LGBTQIA+ Movement

Throughout history, members of the LGBTQIA+ community have faced persecution around the world. Laws discriminating against those who identify as LGBTQIA+ are commonplace. In the United States, these laws didn’t change until somewhat recently.

In New York City, for example, laws prior to the 1970s prohibited the wearing of “gendered” clothing by the opposite gender. Bars were banned from selling alcohol to homosexuals because homosexuals were said to be “disorderly.” In addition, in most major cities, including New York, it was against the law for homosexuals to approach one another romantically. They were often harassed or arrested by police for violating these discriminatory laws. During the 1950s and 1960s, several groups began to fight for their civil rights. Many participated in peaceful protests. Some rebelled in other ways.

The Mattachine Society organized around the fight for gay rights. The society published this journal from 1955 to 1967.

The Sip-In

One early protest was organized by Dick Leitsch, a leader of New York’s Mattachine Society. The Mattachine Society was formed in southern California in the 1950s as a gay social justice group. In April 1966, Leitsch and two friends visited a local bar, Julius’, in Greenwich Village, a New York City neighborhood. The men announced they were gay to the bartender, who then declined to serve them. The group filed a complaint with the New York Human Rights Commission, which forced the Liquor Authority to stop enforcing the regulation.

"Little did we know that the Sip-In would have such an impact on the civil rights for the LGBT community."

—Dick Leitsch

Queers often gathered at LGBTQIA+-friendly bars, where they were less likely to be publicly harassed. However, police targeted these establishments, looking for violations of any sort. Police often accepted bribes in exchange for not enforcing the discriminatory laws.

The Stonewall Riots

It was thus no surprise when New York City police raided the Stonewall Inn on June 28, 1969. The bar was located on Christopher Street in Greenwich Village. Several raids on other places had recently been carried out. At the Stonewall, police arrested workers for selling liquor without a license. They also arrested several of the bar’s patrons for violating the gendered-clothing law. According to some historians, arrests were made because bribes weren’t paid.

Usually when the raids happened, bystanders scattered. But not this time. The people outside the bar began to fight back, pushing the police and throwing bottles. The police shut themselves inside the bar and called for backup. Around 400 people outside the bar continued to riot.

New Groups Form to Fight for Change

The Stonewall protests continued for five days, uniting LGBTQIA+ communities into one movement for change. Stonewall became a symbol of resistance against constant discrimination. New groups such as the Gay Liberation Front and the Street Transvestite Action Revolutionaries (S.T.A.R.) formed to lobby publicly for LGBTQIA+ rights. S.T.A.R. was co-founded by Marsha P. Johnson, an American gay liberation activist and self-identified drag queen. Johnson played a prominent role in the Stonewall uprising and was a popular figure in New York’s LGBTQIA+ community.
The Pride March

In 1970, on the first anniversary of Stonewall, protesters organized the Christopher Street Liberation Day March. The western end of Christopher Street in the Village was a gathering place for the LGBTQIA+ community. What is now known simply as the Pride March became an annual tradition that continues today.

Documenting the Evolution of Pride in New York

Much of the history of the movement’s birth in New York City was documented by photographer Leonard Fink. His photographs—including this one and those on pages 10 and 13—captured the blossoming of gay liberation. Fink attended the annual Pride parade for years and built an enormous collection of images.

Before you explore, answer the questions in your notebook.

Consider

1. Think about the significance of flags around the world.
   • Why do people create flags?
   • What kinds of things do flags represent?

Discover

2. Why do you think the artist who created the original Pride flag used a rainbow as a symbol? Explain your answer.
The Original Rainbow Flag

You probably already know that the rainbow flag is an icon of the LGBTQIA+ community, but you may not be familiar with its history. The original Pride flag dates to 1978. It was created by San Francisco artist, activist, and drag queen Gilbert Baker. Baker had been tasked by San Francisco Board of Supervisors member Harvey Milk and others with creating a new, vivid symbol of the movement.

Baker and a group of friends dyed and hand-stitched the fabric of the first flags. The flags were raised at the San Francisco United Nations Plaza during the San Francisco Gay Freedom Day parade on June 25, 1978. Baker said about his creation:

“I thought of flags in a new light. I discovered the depth of their power, their transcendent, transformational quality. I thought of the emotional connection they hold.”

Harvey Milk was a vocal and powerful advocate for gay rights. He gave a rousing speech at the 1978 Gay Freedom Day parade, the day the flags were raised. Learn more about Milk in this story.
Baker’s original flag design had eight colors, each of which Baker had given a symbolic meaning. For the 1979 Gay Freedom Day parade, the pink stripe was dropped because of difficulty finding flag fabric in hot pink, and the turquoise stripe was eliminated at the same time so that there would be an even number of stripes. The resulting six-color flag is still a commonly used Pride flag.

Read more about the Pride flag here and here.
For New York City Pride in 1994, Baker created a mile-long rainbow flag that was carried down First Avenue in Manhattan.

About his choice of the rainbow as a symbol, Baker said:

“A Rainbow Flag was a conscious choice, natural and necessary. The rainbow came from earliest recorded history as a symbol of hope.”

Find out more about the art of Gilbert Baker here and here.
New Symbols of Pride

Over time, flags were developed for more specific demographics. In 2017, for example, the city of Philadelphia flew a Pride flag created to recognize the inclusion of people of color in the LGBTQIA+ community. This flag added black and brown stripes to the original six colors.

A frequently used flag today is the Inclusion flag, which added the Trans colors of white, baby blue, and pink.

Chapter 2: Wrapping Up

Now that you’ve read the chapter, reflect on what you’ve learned by answering the questions below in your notebook.

In this chapter, you’ve read Gilbert Baker’s words about his creation of the rainbow flag, and you’ve seen the image of the mile-long flag created for the New York City march.

• How does that flag reflect the progress made in the fight for LGBTQIA+ rights in the United States?
• What kind of work might still need to be done in this effort?

Chapter 3: Warming Up

**Consider**

1. What types of events might cause a nation’s citizens to launch a movement for change?

**Discover**

2. Why might some places still limit the rights of the LGBTQIA+ community?
New York City’s Pride Parade Tradition

Around the globe, Pride parades are the main gathering for—and for many, the first contact with—the LGBTQIA+ community. Born to celebrate the riots in Stonewall, the New York City parade plays an important role in promoting the values and defending the rights of the LGBTQIA+ community. As you read earlier, the New York Pride March has been going strong since Stonewall.

Check out the first 15 years of the Pride parade in New York in this exhibit.
Pride in Brazil

The world’s largest Pride parade is in Brazil. This parade began in São Paulo in 1997 with only a few hundred attendees. Today, millions participate to support the rights and safety of the LGBTQIA+ community in Brazil.

Learn more about this parade and its participants in this story.
In 1978, members of the LGBTQIA+ community in Sydney decided to protest discriminatory laws. They planned a Mardi Gras street festival. Participants in the festival were arrested and jailed. Some lost their jobs after being “outed.” However, this only spurred the community to take further action—“out of the closet and into the streets” became a guiding motto. Sydney’s Mardi Gras tradition has continued for more than 40 years.

Check out this timeline of the history of Sydney’s Mardi Gras.
Marching in Solidarity for Those Who Can’t

Around the world, the desire for change continues to burn brightly for people in the LGBTQIA+ community. Homosexuality remains illegal in many countries today. While marches are joyous celebrations, they are also a call for justice for those who still face bigotry and persecution. Activists continue to speak out, even when they face punishment.
Chapter 3: Wrapping Up

Now that you’ve read the chapter, reflect on what you’ve learned by answering the question below.

• What worldwide milestones in the LBTGQIA+ movement did you learn about in this chapter?
Digital Learning in Action

So, what did you learn? Read the questions and complete the learning activities below to extend your learning based on what you just experienced.

**Reflect** Answer these questions:

- What impact did Stonewall have on the LGBTQIA+ rights movement in the United States?
- How did the rainbow flag become a Pride symbol?
- How is Pride celebrated in Sydney, Australia?

**Summarize**: Describe the importance of the Pride March and the rainbow flag to the LGBTQIA+ rights movement. Why do you think these symbols are significant to the community?

**Create**: What rights issues do you support, LGBTQIA+ related or otherwise? How do you show your support? Make a list of the significant details regarding these issues. Then, create a symbol for justice related to your cause. What kind of symbol will you use? How will it grab people’s attention and inspire them to support your cause?
