Teacher Advisory Committee

1st – 3rd Grade
Lita Blanc, George R. Moscone Elementary School
Becky Paulson, Daniel Webster Elementary School
Alison Gray, Lawton Alternative School
Kim Walker, Yick Wo Elementary School
May Lee, Alamo Elementary School
Nancy Yin, Lafayette Elementary School
Sabrina Ly, John Yehall Chin Elementary School
Seth Mulvey, Garfield Elementary School
Susan Glecker, Ponderosa School
Karen Tom, Treasure Island School
Beth Slater, Yick Wo Elementary School

4th Grade
Geraldine Frye, Ulloa Elementary School
Joelene Nation, Francis Scott Key Elementary School
Mitra Safa, Sutro Elementary School
Julia King, John Muir Elementary School
Maria Woodworth, Alvarado Elementary School

5th Grade
Annie Wong, George Peabody Elementary School
Judith Rubinson, Sherman Elementary School
Libbie Schock, R.L. Stevenson Elementary School
Mildred Hale, Golden Gate

6th Grade
Kay Corcoran, White Hill Middle School
Donna Kasprowicz, Portola Valley School
Patrick Galleguillos, Roosevelt Middle School
Steven Kirk, Francisco Middle School

7th Grade
Pamela Mooney, Claire Lilienthal Alternative School

8th Grade
Barbara Bonardi, Marina Middle School
William V. Coegh, Claire Lilienthal Alternative School
Elizabeth Medrano, A.P. Giannini Middle School
Susan Gold, Presidio Middle School

Steering Committee

Sally Ann Ryan, SFUSD Visual and Performing Arts Supervisor
Julia Marshall, Assistant Professor, Art Education, San Francisco State University
Donna Leary, University of California, Berkeley History-Social Science Project

Intern Support

Ashlie Gaos
Andrea Martin
Chloe Portugeis
Amanda Reiterman
Kelly Williams
Get Smart with Art @ the de Young

Get Smart with Art is an interdisciplinary curriculum package that uses art objects as primary documents, sparking investigations into the diverse cultures represented by the collections at the Fine Arts Museums of San Francisco. Using works of art as the foundation of every lesson, each guide is designed to increase visual literacy, historical knowledge, and expository writing skills. In an effort to reduce the burden of teacher preparation time, historical texts are written at the reading level of the intended student audience.

The enclosed materials may be used in preparation for a museum visit or over the course of the school year. Get Smart with Art differs from previous curriculum series in that it is a “living” curriculum which the Education Department seeks to revise through teacher and student feedback. As part of the preliminary assessment of this project, we are conducting pre and post student interviews. If you would like to participate in this process or have any questions regarding the curriculum, please do not hesitate to contact the Education Department.

Get Smart with Art curricula is available in the following subject areas:

1st–3rd Learning to Look at Art
4th California History: Native American Culture and Westward Expansion
5th American History: Colonial – Revolution
6th Ancient Western Civilizations
7th The Art of Africa and Mesoamerica
8th American History: Revolution – Reconstruction
9th–12th Site in Sight

To order these materials, please call 415. 750. 3522 or email ejennings@famsf.org
OBJECTIVES
The curriculum for the Third Grade has a threefold purpose:

• To introduce young students to the de Young Museum and its collection
• To develop Visual Thinking Strategies and critical thinking skills
• To thematically complement and enhance classroom work with the California Common Core State Standards.

IMAGES
Images chosen for Third Grade focus on “How and why people build communities”. The emphasis is on hopes and dreams for oneself, one’s school, one’s community, and the nation. Students also focus on elements necessary for creating community, such as work, geography, leisure activities, transportation, and family life.

Selected images for third grade are:

• Diagonal Freeway by Wayne Thiebaud
• Standing Dancing Figure from the Mesoamerican collection
• Aspiration by Aaron Douglas

GETTING STARTED
Third Grade lessons are organized in four successive lessons to be completed prior to the students’ visit to the de Young. These lessons are structured to be taught over a three-week period prior to the museum visit. Additionally, there is a post-visit project that completes and compliments your museum experience. Lessons may be combined or adjusted or extended as necessary for success in your classroom. Lessons include Visual Thinking Strategies (VTS), class discussion, writing, reading, artwork, and oral presentations.

LESSON ONE: Developing Visual Thinking Strategies

MATERIALS:
Image Posters
Chart paper for recording vocabulary/word lists
Pencils
Pens
Crayons
*Mind Jog Journal* cover page (appendix A)
Primary writing paper
Blank Drawing paper

**TIME:** Approximately 45-60 minutes

**Part 1: Image Discussion**

- Conduct a facilitated group discussion about the first image, *Diagonal Freeway*, using the Visual Thinking Strategies or VTS method (appendix B). Let your students know that they are going to sharpen their looking and thinking skills.

  - **VTS focus questions are:**
    What is going on in this picture?
    What do you see that makes you say that?
    What more can we find?

    Remember to point, paraphrase, link and expand vocabulary, while remaining neutral.

- **Vocabulary Development:**
  During or after the lesson, make sure to record the vocabulary that the students are using to describe the images and the supplementary vocabulary that the teacher uses in paraphrasing the students’ comments. (Some teachers have found it useful to audiotape the VTS sessions so the vocabulary can be transcribed after the lesson.)
  This vocabulary will be used in later lessons. If you need some suggestions for grade level vocabulary development, please refer to your Social Studies textbook.
For each lesson, as your students notice details in the images, they may begin to discover key social science concepts such as natural resources, geography, elements of community, diversity of culture, etc.

Part 2: Connecting Visual Literacy with sketching and written expression

● Journal Assembly
  1. After the lesson, distribute copies of the Mind Jog Journal cover page and six sheets of lined paper and six sheets of drawing paper.
  2. Have students create their Mind Jog Journals by alternating the twelve pieces of paper, placing a piece of drawing paper over a piece of lined paper. The first page of the journal should be a piece of drawing paper and the last piece is lined.
  3. Form a binding by stapling the top, middle, and bottom of the journal.

● Sketching & Writing
  Following the VTS discussion and journal assembly time, ask students to compose a quick sketch and quick write paragraph based on the discussion of Diagonal Freeway and their interpretation of the image. The writing prompt for this lesson is to describe what is happening both in the painting and what might be happening just outside of the frame. What could be beyond just what we see? You may find it helpful to model some ideas with the class prior to individual writing time. Share these descriptive paragraphs aloud with the class.

LESSON TWO:
Repeat the format of LESSON ONE using Standing Dancing Figure for this lesson. The prompt for Lesson Two is to illustrate this image and then write a monologue or dialogue inspired by the image. What might these figures say if they could speak? Share these pieces of writing aloud with the class.

LESSON THREE:
Repeat the format of the first two lessons, using Aspiration for this lesson. The prompt for this lesson is to illustrate and write what the student thinks is the story behind the painting. What story might the artist want to tell his audience? What might be the
artist’s motives and intentions here? Again, model ideas prior to writing and share the writing aloud at the conclusion of the work time.

LESSON FOUR:
The focus of this lesson is to note how and why we have aspirations and dreams for others and ourselves. In a class discussion, pose questions such as why people build community and what are students’ wishes are for their community, be it at school, at home, or in our nation? Using the template in Appendix C, have students create a chart that illustrates and lists their hopes, dreams, and aspirations for themselves, their school, their community, and the nation. Let students know that their final project will be the creation of an “Aspiration” Gallery with images hanging in the classroom and a published guide to the images.

Discuss plans for the museum visit, including expectations and goals for the trip.

PACK UP MIND JOG JOURNALS AND BRING THEM TO THE MUSEUM

LESSON FIVE: POST MUSEUM VISIT
Upon returning to your classroom, have students create a symbol or an object that best represents an aspiration that they have for themselves or their community. Ask students to create a working sketch and explanatory paragraph about their image. Just as the de Young has site-specific works commissioned for the museum, students may now consider how they want to create and display their banner or image of aspiration. These works may be installed in the classroom or school hallway or library in unusual ways, either across the ceiling or vertically.

- Using drawing, painting, or collage materials, allow students to create a banner that represents their “aspiration.”
- Have students compose a piece of narrative writing that discusses their image. Number these narrative pieces and collate them into a Gallery Guide for this “Aspiration” Gallery.
- Hang or string together these pieces for display
- Invite another class, school personnel, or parents into your classroom and ask students to present their narrative pieces and images.
