Get ahead – learn to embed

What we will cover

- What can be embedded in Canvas
- Where can media be embedded in Canvas
- How many ways are there to embed in Canvas

- By the end of the session you will be able to Identify the two main ways of embedding in Canvas and demonstrate that you are able to embed a video or, as a challenge, other media into Canvas using one of the methods utilized in this session.
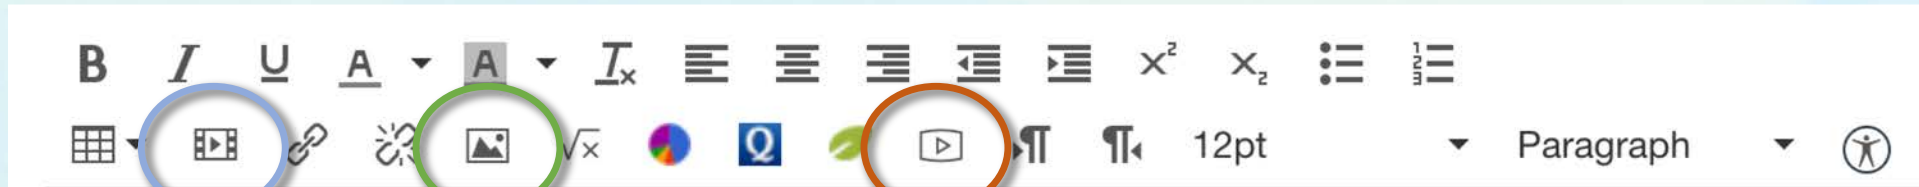

LC CANVASCON

Who here:

- Knows what it means to embed?
- Knows how to embed?
- Has embedded at least 10 media (e.g. video) objects?

UC CANVASCON

How can I embed media into Canvas?

- Rich Content Editor

Insert/embed media

Embed image

Record/upload media

LC CANVASCON

How can I embed media into Canvas?

- HTML editor
  - Not everything can be embedded through the rich content editor and if that is the case you can use the HTML editor but it does increase the difficulty.

What can be embedded into Canvas?

- Videos!

- YouTube
  - Two ways to do it with YouTube
    - Copy the embed code (allows more control over the video but will take a few extra seconds). Paste into the "insert/embed media"
    - Copy the URL (fast and easy)

- Vimeo
  - Copy the embed code and use

UC CANVASCON

What can be embedded into Canvas?

- PowerPoint:

What can be embedded into Canvas?

- Google Slides

Use the insert/embed media tool

It opens right in the browser without any clicks so if you don't want to add click for the end user you could export your PPT to Google slides and then embed the Google product.

What can be embedded into Canvas?
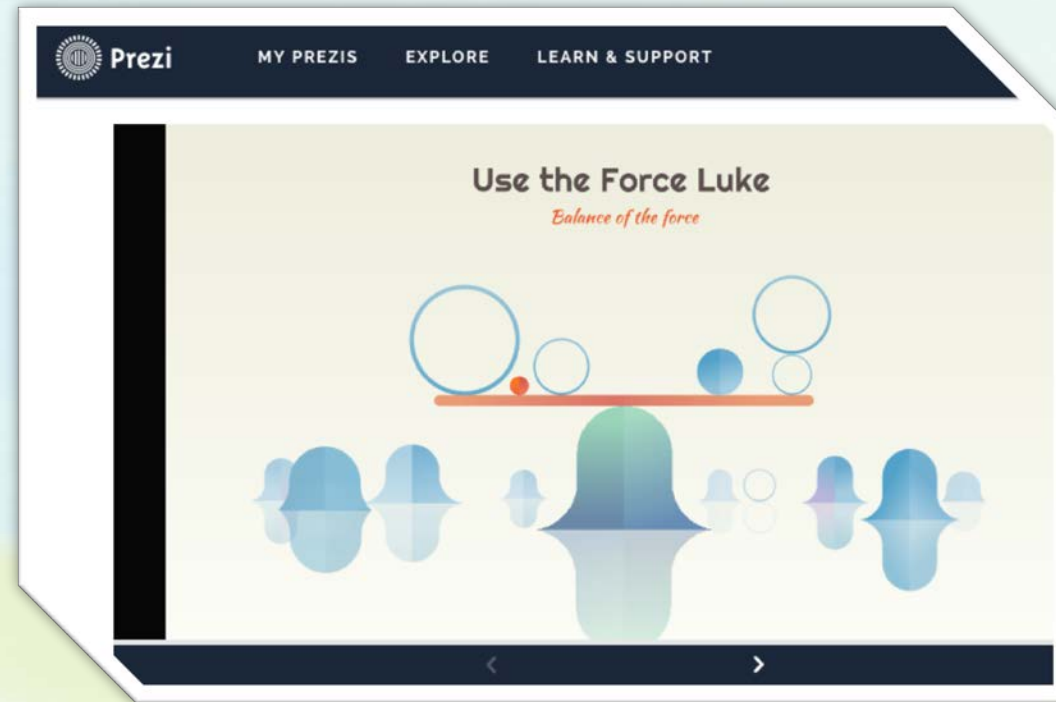

- Pictures

What can be embedded into Canvas?

- 3D objects through Sketchfab

What can be embedded into Canvas?

- Prezi

Where can I embed into Canvas?

- Content Pages
- Discussion pages
- Discussion posts
- Assignments/quizzes
- Announcements
- Home page...

Basically anywhere there is a content editor.
