Is Your Business Claimed or Unclaimed?

If you don't claim your GBP listing, somebody else might (or might have already!)

Once a listing is claimed and verified, double-check that the contact information, physical address and photos accurately represent the business's brick-and-mortar location.

Claimed

Congratulations! Your business is claimed and verified on Google. It's time to optimize it for ranking higher in search engines.

Your Website Responsive Analysis :

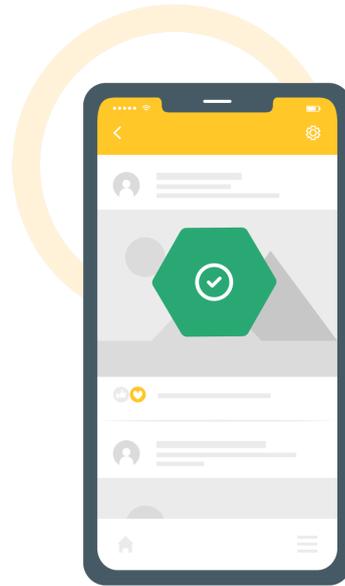

Scanned Website:

blacklabelautostyles.com

Is your website optimized and responsive on mobile devices?

The Importance of having a Mobile-Friendly Website :

You can reach more customers, faster. Making your website mobile-friendly automatically opens up your customer base to anyone performing a mobile search. If that was not enough, you should be aware that Google is prioritising mobile-friendly websites in their search engine results page, making this a crucial ranking factor.

Social Media Analysis

Your Social Online Presence

Why having an ACTIVE Social Media Profile is so important?

Social media is important because it allows you to reach people locally, regionally, nationally, and even internationally. If you understand the characteristics of your target audience, you will be able to personalise your messages to resonate with that audience more appropriately..

Webmaster Tools

Google Search Console is MISSING.

Google Search Console
Extension Installation

Google Search Console is a really valuable instrument for SEO. It gives you at a glance data about all the important SEO aspects of a site, such as keywords, links, crawl errors, etc. Spending a few minutes using it can result in higher rankings.

Google Markup Schema

Installed

Google Markup SEO
Business Schema

Installed

Congratulations! Your Google Markup Schema is identified and installed. It allows you on an advanced level of SEO to help search engine crawlers provide rich information

Schema markup is an advanced level SEO technique. It helps search engine crawlers to provide rich information to the users even before they visit your website by helping to improve the CTR (Click Through Rate) and conversion rate.

Contact

Congratulations! Your Contact Call To Action Button has been found on your website homepage. You're one step closer to turning your visitors into paying customers.

Contact Call To Action

Call To Action is VALID.

Contact Call To Action Button is a must have

Having a Phone Number or Email Address present on the first page of your website is one of the most efficient ways to transform simple visitors into long term paying customers.

Yelp Business Listing

Advertising & Reviews

Learn about the different metrics in your business

Yelp Listing Found.

Congratulations! Your business has been found listed on Yelp - This means you've claimed your business on Yelp, the place where people actually search and find local businesses

The easiest way to claim your business page is to search for it at biz.yelp.com (this is our Yelp for Business website) or by using the Yelp for Business app.

If you start there, we'll walk you through all the steps to claim your page and set up your business account.

Account Found

Congratulations! Your Google Tag Manager is identified and installed. With GTM, you're able to add, edit, and disable tags without having to touch the source code

Google Tag Manager

Advertising & ROI Tracking

Track and measure your advertising ROI

Google Tag Manager is a free tool that allows you to manage and deploy marketing tags (snippets of code or tracking pixels) on your website (or mobile app) without having to modify a single line of code.

Open Graph SEO Protocol

Open Graph Installed
Worth implementing the
Open Graph protocol

10 Attributes

Congratulations! We've detected the Open Graph SEO Protocol installed on your business website. Your website has 10 identified and active.

Open Graph protocol is a protocol (i.e. a set of rules) that is used to integrate any web page into the social graph. This protocol tells Facebook which title, URL, image, and description of your blog post/page should be used when your content is shared on Facebook.

Your Website is SSL Secured!

Congratulations! Your Website is secured with a VALID SSL Certificate. This will drastically increase customer trust and gives your business better ranking results in Google.

SSL Certificate

Security & Privacy
Encrypt the data that's transmitted.

Credibility and trust for your customers: A significant benefit of SSL certificates is the fact that they help you gain visitors' trust. Your website will be displayed with a security padlock in the address bar of the browser.

Wordpress Website

Website built with Wordpress.

YES

Great! This is a Wordpress website. It means it can be easily customised and optimized.

Google will show both your website's title as well as the meta-description within the search results. Together, they make up the first points of contact that anyone searching will have with your content. This is the reason why you should put some effort into encouraging searchers to click on your result by optimising not only the title but also the meta-description.
