Message from Executive Management

Towards Sustainable Hospitality

Protecting Nature and Preserving the Values of Phuket

At La Green Hotel & Residence, we believe that true hospitality goes beyond providing comfort and memorable experiences. It also means taking responsibility for protecting our beautiful natural environment, preserving cultural heritage, and growing together with our local community.

We are committed to minimizing our environmental impact, supporting the local economy, preserving Phuket's rich cultural heritage — especially the unique Baba-Nyonya traditions — and conducting our business with responsibility and integrity. This sustainability policy encompasses all areas of our operations, from guestrooms, restaurants and bars, spa, Kids Club, public spaces, gardens and landscaping, to all administrative and operational departments.

To elevate our standards to the international level, La Green Hotel & Residence Our sustainability approach is structured around 4 key pillars:

1

SUSTAINABLE MANAGEMENT

Establishing a Green Team to plan, implement, and monitor our sustainability performance continuously. We promote a culture of sustainability through training for all employees and ensure full compliance with all applicable laws and regulations.

2

SOCIAL & ECONOMIC BENEFITS

Prioritizing local employment and responsible procurement that supports the local economy. We are committed to sourcing fresh ingredients, agricultural products, OTOP goods, and seafood from local fishers in Phuket. We uphold a strict policy against exploitation, harassment, and child labor.

3

CULTURAL HERITAGE

Celebrating and sharing the unique cultural identity of Phuket, local cuisine (Phuket Gastronomy), and educating our guests to visit cultural sites and engage with communities respectfully and responsibly.

4

ENVIRONMENTAL BENEFITS

Managing energy efficiently, operating 100% wastewater treatment for water reuse, eliminating single-use plastics, practicing waste segregation and circular economy principles, and protecting Phuket's marine and coastal ecosystems for the future.

The management and all team members of La Green Hotel & Residence are committed to continuously improving and driving our organization in line with Green standards. Our goal is to be a place that creates meaningful value and smiles for our guests, community, and planet.

CARE FOR NATURE
PROTECT FOR TOMORROW

RESPECT CULTURE

SUSTAINABILITY PERFORMANCE HIGHLIGHTS

Measurable change, for the sustainability
of environment, community, and society.

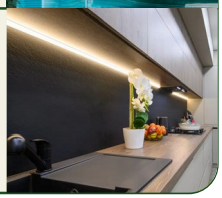

01 SUSTAINABLE

100%
SINGLE-USE PLASTIC REDUCTION
Single-use plastic-free and eco-friendly amenities in progress

100%
WASTEWATER TREATED
All wastewater treated and reused 100% for gardening.

-18%
ENERGY INTENSITY
Reduced energy consumption per room compared to the baseline year.

02 SOCIAL & COMMUNITY

>70%
LOCAL EMPLOYMENT
Over 70% of employees are from Phuket province and neighboring communities.

100%
FAIR LABOR & SAFETY
Zero lost-time injury rate and adhering to human rights principles.

>16 HOURS
TRAINING / PERSON / YEAR
All employees receive an average of 16 hours of training per person per year.

03 CULTURAL HERITAGE

100%
LOCAL CULINARY MENU
Sourcing directly from nearby farms for maximum freshness.

100%
RESPECTFUL TOURISM GUIDE
Providing guides on proper etiquette and community-friendly tourism, respecting local culture for all guests.

100%
LOCAL PRODUCTS & CRAFTS
Offering locally made products, crafts, and souvenirs to support community artisans and regional economy.

04 ENVIRONMENTAL

>25%
LOCAL PROCUREMENT
Proportion of purchasing local raw materials and agricultural products from the community.

100%
SUPPLIER ESG ASSESSMENT
Evaluated suppliers for environmental and labor compliance.

GREEN TEAM ACTIVE
Established and operated a formal, concrete Green Team to drive sustainability.

PATH TO SUSTAINABILITY

GREEN MANAGEMENT
Established a comprehensive sustainability management system for all departments.

CARBON NEUTRAL TARGET
Progressing towards measuring and reducing greenhouse gas emissions across Scopes 1, 2, 3 systematically.

COMMUNITY SYNERGY
Committed to growing together with the Choeng Thale community and Phuket province sustainably.

SUSTAINABLE GOVERNANCE & STRATEGY

Towards a Sustainable Future

"Building a Strong Foundation for Sustainable Management & Operational Excellence"

La Green Hotel & Residence Executive Committee has established dedicated working teams and specialized committees to drive sustainability policies and ensure the safety and well-being of our organization in a tangible and effective way.

SECTION 1: SUSTAINABILITY GOVERNANCE STRUCTURE

GREEN COMMITTEE

Responsible for: environmental management and driving sustainability initiatives across the hotel.

The committee plans, implements, and monitors activities with a focus on reducing environmental impact and improving operational performance.

- Energy conservation and energy efficiency
- Water conservation and responsible water use
- Waste management and waste reduction
- Environmentally responsible for procurement
- Promoting sustainable practices across all departments

OSHE COMMITTEE

Responsible for: occupational health, safety, and workplace environment management.

The committee ensures the health, safety, and well-being of employees and guests, and manages workplace risks to provide a safe, healthy, and supportive environment that meets international standards.

- Workplace safety management and risk prevention
- Health promotion and well-being of employees and guests
- Risk Assessment and Incident Management Planning and Procedures
- Creating a safe, inclusive, and high-quality work environment

OUR COMMITMENT

"Sustainability begins with strong governance."

We are committed to building a responsible, transparent, and accountable management system to lay a strong foundation for long-term sustainable hospitality.

LaGreen
Hotel & Residence

SOCIAL & ECONOMIC BENEFITS

Towards a Sustainable Future

01 COMMUNITY & LOCAL ECONOMY

STRENGTHENING COMMUNITIES & LOCAL ECONOMY

Local Employment Priority
Over 70% of our team are hired locally from Thalang District and Phuket Province.

Community Support
We actively support local community activities and collaborate on the development of public spaces in Cherngtalay area

Local Economic Value
We generate economic value for the community through supporting local products, agricultural goods, and services.

02 FAIR LABOR & EMPLOYEE

PROTECTING WORKERS' RIGHTS & PROMOTING WELLBEING

Human Rights Compliance:
We maintain a strict zero-tolerance policy on child labor, forced labor, and all forms of harassment and abuse.

Occupational Safety :
We implement strict occupational health and safety standards supervised by the Safety Committee

Equal Opportunity & DEI:
We maintain a strict zero-tolerance policy on child labor, forced labor, and all forms of harassment and abuse.

03 SUSTAINABLE SOURCING

RESPONSIBLE PROCUREMENT FOR A BETTER FUTURE

Local Procurement Target:
We aim to continuously source fresh ingredients and agricultural products from local producers in Phuket

Sustainable Seafood:
We support purchasing fresh seafood from local artisanal fisheries to sustain ocean resources and local livelihoods

Supplier Code of Conduct:
We assess and select suppliers based on environmental standards, labor rights,and ethical business practices

LaGreen
Hotel & Residence

GOVERNANCE & MANAGEMENT SYSTEM

Management Structure & Governance for Sustainability

SUSTAINABILITY GOVERNANCE

La Green Hotel & Residence drives sustainability through its Green Team Committee, representing all operational departments to plan and monitor key initiatives. In parallel, the Safety Committee oversees employee and guest health, safety, and well-being.

LEGAL & REGULATORY COMPLIANCE

We are committed to 100% compliance with all environmental laws, labor standards, and local Phuket regulations. Our operations strictly adhere to statutory requirements for land use, water rights, and property permits.

LAND & WATER RIGHTS COMPLIANCE

La Green Hotel & Residence holds valid titles and permits for all its land and properties and operates in full compliance with local and national laws. Our water sourcing and reuse practices meet all environmental regulations and respect the community's water rights.

SUSTAINABILITY TRAINING & AWARENESS

All new employees receive sustainability orientation during on-boarding. Annual refresher training is conducted for all staff to ensure understanding practical application of sustainability policies in daily operations.

POLICY COMMITMENT

Sustainability policy approved by management and communicated to all stakeholders.

STRATEGIC PLANNING

Set clear sustainability objectives, action plans and measurable targets and the hotel's long-term sustainability goals.

DAILY IMPLEMENTATION

Integrate sustainability principles into daily operations, work practices and decision-making across.

PERFORMANCE REVIEW

Regularly track performance, conduct audits, review results, and identify areas for improvement.

STAKEHOLDER COMMUNICATION

Transparent, consistent, clear and open communication with employees, guests, partners and community.

CONTINUOUS IMPROVEMENT

Identify opportunities and innovate for better social, environmental and economic performance.

ETHICAL BUSINESS
Conduct business with integrity, transparency and fairness.

PEOPLE WELLBEING
Promote diversity, equal opportunity and employee well-being.

ENVIRONMENTAL STEWARDSHIP
Protect natural for our resources, biodiversity and reduce impact.

COMMUNITY ENGAGEMENT
Create positive impact and shared value for local community.

SUSTAINABLE GROWTH
Drive long-term value through responsible practices.

LaGreen
Hotel & Residence

MATERIALITY ASSESSMENT & STAKEHOLDER ENGAGEMENT

Assessment of ESG Material Topics and Stakeholder Engagement

MATERIALITY ASSESSMENT

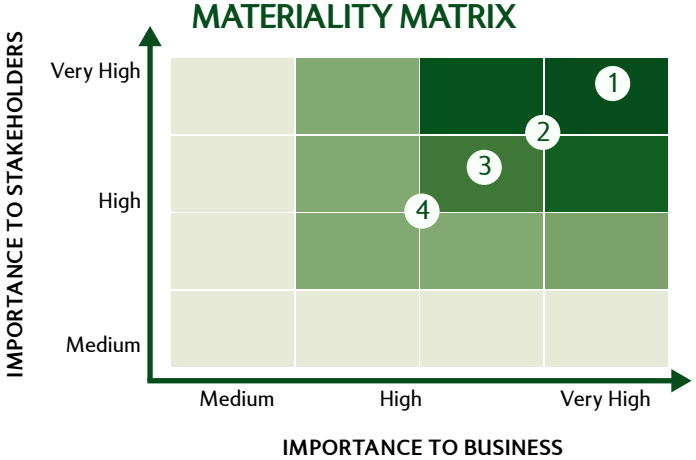

The objective of the materiality assessment is to identify ESG topics that are relevant to the business operations, have the potential to impact the business and the environment, and may affect key stakeholders.

The assessment considers both the significance of ESG issues to the business and their actual or potential impacts on stakeholders and the surrounding environment.

HIGHEST-RANKED MATERIAL TOPICS

1. ENERGY & WATER MANAGEMENT
2. WASTE & PLASTIC MANAGEMENT
3. HUMAN RIGHTS & WORKER SAFETY
4. LOCAL ECONOMIC PROMOTION

MATERIALITY MATRIX

Results of the assessment will be used to establish strategies, targets, & sustainability plans for the hotel continuously.

STAKEHOLDER ENGAGEMENT

The hotel has established multi-dimensional communication channels to actively listen to opinions, address feedback, and continuously engage with all 5 key stakeholder groups, aiming to cultivate strong, long-term relationships and jointly drive sustainable business growth and development.

KEY STAKEHOLDER ENGAGEMENT CHANNELS

GUESTS	Via Digital Assessment System Platform
EMPLOYEES	Via OSHE Meetings & Worker Surveys
PARTNERS	Via Material ESG Criteria Assessment
LOCAL COMMUNITY	Via Direct Meetings & Joint Activities
GOVERNMENT AGENCIES	Via Regular Legal Compliance Reporting

SOCIAL:
FAIR LABOR & HUMAN RIGHTS

Employee Welfare, Human Rights & Worker Safety

ZERO TOLERANCE

La Green Hotel & Residence is deeply committed to upholding the highest standards of human rights by maintaining a strict zero-tolerance policy against child labor, forced labor, human trafficking, and all forms of physical, verbal, or psychological harassment.

We foster a safe, inclusive, and equitable workplace culture where all employees are treated with dignity and respect. The hotel ensures equal opportunities in recruitment, compensation, and career development, strictly prohibiting any discrimination based on gender, age, race, religion, national origin, physical ability, or institutional affiliation.

- NO CHILD LABOR
- NO FORCED LABOR
- HUMAN RIGHTS PROTECTION
- INCLUSIVE WORKPLACE

OCCUPATIONAL HEALTH & SAFETY

In terms of occupational health, safety, and hygiene, the hotel actively maintains a high-standard Occupational Safety, Health, and Working Environment (OSHE) Committee that regularly conducts comprehensive workplace risk assessments to identify, mitigate, and control potential operational hazards.

To reinforce emergency preparedness, the hotel consistently organizes certified fire safety training and emergency evacuation drills at least once a year, alongside continuous safety awareness programs. As a result, every employee has the knowledge, skills and confidence to respond quickly and effectively in an emergency.

- RISK ASSESSMENT & SAFETY INSPECTIONS
- EMERGENCY & FIRE DRILLS
- PPE PROVIDED
- 0 ZERO LTIR

EMPLOYEE WELFARE & GROWTH

In addition, La Green Hotel & Residence is deeply dedicated to prioritizing workforce well-being by offering competitive compensation structures, fair labor practices, and comprehensive employee welfare packages designed to enhance quality of life and job satisfaction.

To foster internal growth, the hotel invests heavily in continuous training, skill development, and structured career progression frameworks. These initiatives empower employees to unlock their full potential and build rewarding, long-term, and sustainable careers within the organization.

SOCIAL:
LOCAL COMMUNITY & PROCUREMENT

Supporting Local Communities and Distributing Income to the Area

LOCAL EMPLOYMENT & CAPACITY BUILDING

To foster sustainable growth within the local community, La Green Hotel & Residence prioritizes hiring local talent from Phuket and nearby areas, with **over 70% of our total workforce** originating from the local community. Furthermore, we actively support continuous training and skill development to enhance employee capabilities, promote career advancement, and elevate the overall quality of life in the surrounding area.

"Developing People, Creating Long-Term Value"

LOCAL PROCUREMENT & COMMUNITY SUPPORT

The hotel promotes local sourcing by supporting agricultural produce, fresh fruits, and vegetables from local producers in Choeng Thale Subdistrict and Phuket Province—accounting for **at least 25% of total procurement.**

We also sustainably source fresh eggs directly from local Phuket farms to support community farmers and ensure high food quality. In addition, La Green actively engages in community activities, supporting local schools, temples, and the Bangtao Beach area to cultivate strong relationships and grow together with the community in a sustainable way.

LaGreen
Hotel & Residence

ENVIRONMENT:
CLIMATE & ENERGY

Energy Management and Greenhouse Gas Emission Reduction

The hotel's architecture is engineered to EDGE Advanced Certification standards, integrating high-performance building design to drastically minimize operational energy consumption.

Key infrastructure features include Low-E glass paneling to reject solar heat gain, 100% high-efficiency LED illumination throughout the property, and advanced variable-refrigerant inverter air conditioning systems.

Excellence In Design For Greater Efficiencies
Edge

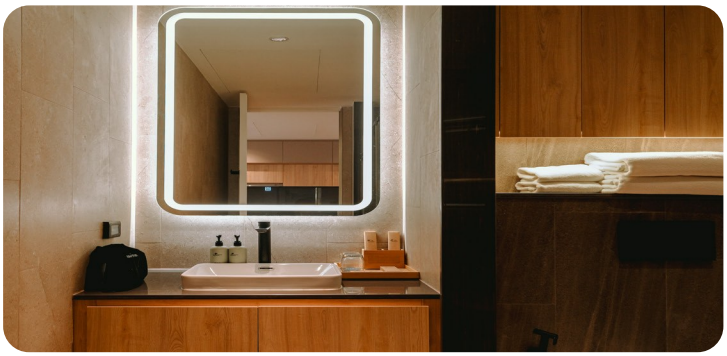

Energy-Efficient Building Design

LOW-E GLASS:
Blocks solar heat and keeps interiors cooler.

LED LIGHTING
100% LED lighting throughout the property

INVERTER AC
Energy-saving inverter system for all areas.

Smart Room Energy Management System

All 350 guest units are equipped with Smart Room Energy Management Systems that automatically turn off air conditioning and lighting when rooms are unoccupied, significantly reducing unnecessary energy consumption.

DETECTS OCCUPANCY | AUTOMATIC SHUT-OFF | SAVES ENERGY | IMPROVES EFFICIENCY

Monitoring & Carbon Footprint

Monthly consumption of electricity and fuel is rigorously recorded and monitored to calculate Scope 1 and Scope 2 greenhouse gas emissions, establishing solid baseline metrics to guide concrete, data-driven targets for future carbon reduction.

224 tCO2 (SCOPE 1) + 2,216 tCO2 (SCOPE 2) = 2,440 tCO2 (GHG EMISSIONS) → GOAL -5% NEXT YEAR (CARBON REDUCTION)

Annual Energy 2025	HOTEL	RESIDENCES	COMBINED
ELECTRICITY (kWh)	1,363,244	2,082,650	3,445,894
SOLAR GENERATED On - Site(kWh)	69,225 4.8%	238,881 10.3%	308,106 8.2%
TOTAL ELECTRICITY (kWh)	1,432,469	2,321,531	3,754,000

TARGET TO REDUCE FOR 2% NEXT YEAR

Renewable Energy & Energy Reduction Targets

To reduce our reliance on fossil fuels, La Green Hotel & Residence is committed to expanding our renewable energy footprint. The property is evaluating the installation of an on-site Solar Rooftop Photovoltaic (PV) system to supply clean electricity for common areas.

LESS ENERGY | LOWER EMISSIONS | A BRIGHTER FUTURE

LaGreen
Hotel & Residence

ENVIRONMENT:
WATER & WASTEWATER

Conservation of Water Resources and 100% Wastewater Management

OUR WATER STEWARDSHIP

Water is a critical resource for Phuket's island ecosystem. La Green Hotel & Residence operates an advanced central Wastewater Treatment Plant that processes 100% of wastewater generated from guest rooms, dining venues, and operational areas.

Through a closed-loop recycling strategy, all treated water is reused exclusively for landscape irrigation across the property. This zero-discharge policy prevents contamination of natural waterways and local communities while significantly reducing freshwater consumption.

Landscape, garden, and green space

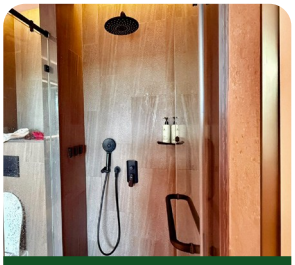

WATER CONSERVATION & EFFICIENCY

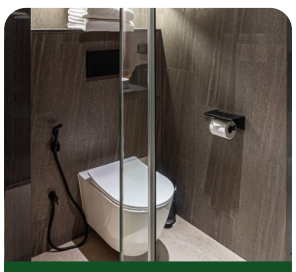

The property integrates certified high-efficiency fixtures property-wide alongside continuous leak-detection and proactive preventative maintenance protocols to optimize conservation and minimize overall resource consumption. Furthermore, comprehensive water quality assurance is maintained through routine sampling and monthly third-party analysis conducted by accredited laboratories, consistently ensuring full compliance with strict environmental regulations and national water standards.

ENVIRONMENT: WASTE & CIRCULAR ECONOMY

Waste Management, Elimination of Single-use Plastics and Circular Economy

Single-Use Plastic Reduction

La Green Hotel & Residence is dedicated to phasing out single-use plastics across all operations. Single-use plastic water bottles and straws are now 100% eliminated and replaced with refillable glass bottles and biodegradable alternatives. Guest amenities are progressively transitioning toward eco-friendly options, supported by active supplier engagement to achieve fully plastic-free solutions.

Waste Segregation

The hotel segregates waste at source into four streams: organic, recyclable, general, and hazardous waste. This systematic approach helps improve recycling efficiency, reduce waste sent to landfill, and support the hotel's ongoing ESG and zero-waste goals.

Solid Waste Generated

Solid waste was measured and recorded monthly across hotel operations and segregated into four categories: Recyclable, General, Food, and Hazardous Waste. The data supports ongoing monitoring and improvement of the hotel's waste management performance.

RECYCLABLE WASTE
1,172.5 kg
0.143 kg/guest night
Mainly from used oil, aluminium cans and cardboard

GENERAL WASTE
836.2 kg
0.102 kg/guest night
Non-recyclable waste from hotel operations and general activities.

FOOD WASTE
662.1 kg
0.081 kg/guest night
Food and organic waste generated from kitchen and dining operations

HAZARDOUS WASTE
12 kg
0.0015 kg/guest night
Long fluorescent tubes, short fluorescent tubes, and aerosol spray cans.

Total Solid Waste Generated*
2,682.8 kg

Normalized Waste Generation
0.328 kg/guest night

Total Guest Nights
8,188 night

*Monthly average based on September 2026 waste data.

Less Waste More Value

CIRCULAR JOURNEY

FROM WASTE TO A MORE SUSTAINABLE FUTURE

COLLECTION
Gathering waste for proper processing.

SORTING
Separating materials for recycling.

RECYCLING
Turning waste into new resources.

REUSE
Giving materials a longer life.

LESS LANDFILL
A cleaner planet for future generations.

LaGreen
Hotel & Residence

ENVIRONMENT:
ECOSYSTEM & COASTAL PROTECTION

Conservation of Ecosystems, Biodiversity and Layan Beach

GREEN SPACES & BIODIVERSITY

The hotel prioritizes the conservation and expansion of green spaces using native flora adapted to the tropical coastal climate to actively foster local biodiversity. For garden maintenance, we utilize our own organic compost while avoiding harmful chemical pesticides to effectively prevent soil and groundwater contamination.

NATIVE PLANTS
Thrive in coastal climate and support biodiversity

NO HARMFUL CHEMICAL PESTICIDES
Protects soil and groundwater

THE SPACE PROVIDES HABITAT FOR:

BEACH CLEAN-UP AT LAYAN BEACH

Given the hotel's prime location near Layan Beach, we take a proactive leadership role in coastal ecosystem management by organizing structured monthly beach clean-up initiatives. Executed through a collaborative framework involving both staff members and guest representatives, these operations target the systematic removal of plastic waste, microplastics, and marine debris along the shoreline. Beyond direct remediation, the property advances environmental awareness by delivering comprehensive guest education on responsible coastal tourism—emphasizing actionable measures to eliminate coral reef degradation, minimize ecosystem disturbance, and ensure the long-term protection of local marine biodiversity.

OUR RESPONSIBLE BEACH TOURISM TIPS:

- Take Your Trash with You
- Reduce Single-use Plastics
- Do Not Touch Coral Reefs
- Respect Marine Life
- Keep the Beach Beautiful

CONSERVATION
Protecting ecosystems today for a greener tomorrow.

BIODIVERSITY
More green spaces. More life.

CLEAN OCEAN
Healthy seas. Stronger communities.

SUSTAINABLE TOURISM:
Small actions make a big difference.
