GWT504969

Written statement

1. The relevant verification service has verified that the panel serial numbers provided in the signed data package correspond to models on the approved modules list based on information stored in the verification service provider's database.
2. The issuance of a signed data package to a user by the installer application does not give the user or registered person a right to obtain STCs or to have an application to register STCs processed outside of the CER's usual processing times.
3. A panel corresponding to a panel serial number verified by the relevant verification service through the use of the installer application has not been specifically approved, authorised, tested, inspected or checked in any way, including without limitation in relation to safety or quality, other than having its panel serial number checked against the database maintained by the relevant verification service provider.
