SUMMARY OF RESULTS

- Fund gross performance of -3.3%, outperforming All Ordinaries Accumulation Index by 4.1%
- Past two years fund gross performance of +17.7% p.a. outperforming index by 7.9% p.a.
- 4.0c fully franked final dividend
- 60% increase on last year's ordinary dividends
- Annualised yield of 9.0% fully franked (12.9% gross including franking)
- Statutory loss after tax of \$4.5m

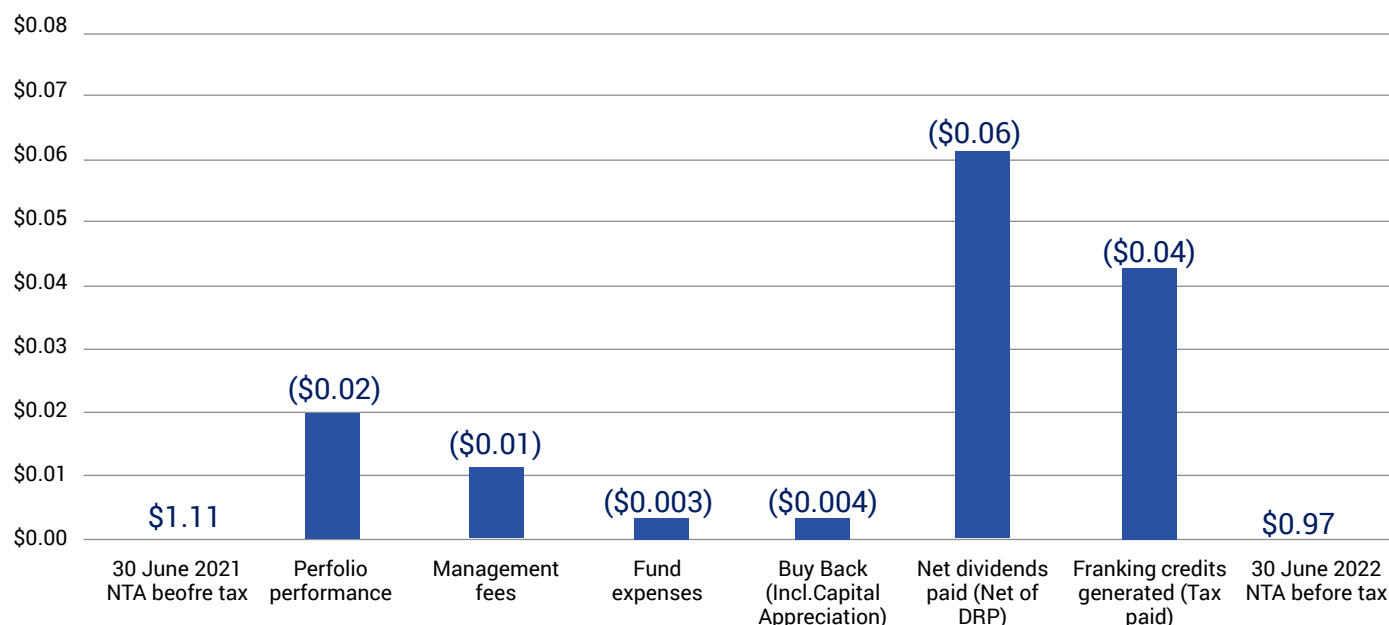

COMPANY PERFORMANCE

Cadence Capital Limited (ASX: CDM) ended the financial year with the fund down 3.3%, outperforming the All Ordinaries Accumulation Index by 4.1%. Over the past two years the fund is up 17.7% per annum, outperforming the Index by 7.9% per annum. The top contributors to performance during the financial year were Whitehaven Coal, TMC The Metals Company, New Hope, Upstart Holdings, DigitalOcean Holdings and Asana. The largest detractors from performance were Resimac Group, Bed Bath and Beyond, Nitro Software, Peabody Energy and Betmakers Technology.

The last year has seen significant trend changes across stock markets, interest rates, inflation, energy prices and commodity prices. This has led to very different types of stocks performing well in 2022 compared to 2021. The fund's portfolio composition has changed significantly over the past 2 years and entering the 2023 financial year. Sectors with strong pricing power in an inflationary period are performing very well.

We are pleased that the CDM share price is trading closer to the underlying Net Tangible Asset (NTA) backing of the Company, with buying interest returning from new, existing and past CDM shareholders.

The graph below details the movement of Pre-Tax NTA from 30 June 2021 to 30 June 2022.

DIVIDENDS

The Company announced a 4.0 cents per share fully franked year-end dividend bringing the full year dividend to 8.0 cents per share fully franked. This is a 60% increase on the previous year's dividends of 5.0 cents per share reflecting the strong performance of the company over the past few years and the build-up of profit reserves.

DIVIDENDS (Continued)

This full year dividend of 8.0 cents per share fully franked equates to an 9.0% fully franked yield or a 12.9% gross yield (grossed up for franking credits) based on the share price of \$0.885 per share on the date of the dividend announcement. Importantly this equates to an 8.1% dividend yield based on the pre-tax NTA of \$0.982 on the date of the dividend announcement, as the Company shares are trading at a discount to NTA despite recent strong performance and a 16-year track record of significant outperformance against the All Ordinaries Accumulation Index. After paying this dividend the Company still has 25 cents per share of profits reserves to pay future dividends.

The Ex-Date for the dividend is the 17th October 2022. The payment date for the dividend is the 28th October 2022. The dividend re-investment plan (DRP) will not be in operation for this final dividend as the Company's shares are trading at a discount to the underlying NTA.

OUTLOOK

The fund has navigated a volatile environment over the year as we saw significant falls in many equity markets in the second half of the year. Following our scaling process, we have seen exposure reduce and cash levels build as we preserve our capital for future opportunities.

Importantly, future interest rate expectations have changed dramatically. One year ago, the Reserve Bank of Australia forecast 0% cash rates until 2024. Now the market expects cash rates over 3% by the end of 2022. This will be one of the most important trends to monitor in determining the direction of future asset prices.

The fund has started 2023 in a strong position with high cash and liquidity levels and a market which has started to offer more investment opportunities. We continue to focus on implementing the Cadence process that has served us well through market cycles.

As Managers of your Company, we aim to provide shareholders with clear and transparent communication. We do this through monthly investment updates, quarterly webcasts, investor presentations, market insights, as well as annual and half yearly profit announcements. We would encourage you to register to receive regular updates at www.cadencecapital.com.au/newsletter.

Please feel free to contact us at info@cadencecapital.com.au with any feedback to improve our communication and engagement with you.

I would like to take this opportunity to thank our investors for their continued support.

As at 30 June 2022, the management fee payable to the manager was \$113,739 (inclusive of GST) (2021: \$173,913).

The duties of the Manager are to manage the portfolio and to manage and supervise all investments, maintain the corporate and statutory records of the Company, liaise with the ASX with respect to compliance with the ASX listing rules, liaise with ASIC with respect to compliance with the Corporations Act and liaise with the share registrar of the Company.

In addition, Cadence Asset Management Pty Limited is to be paid, annually in arrears, a performance fee, being 20% of:

- where the level of the All Ordinaries Accumulation Index has increased over that period, the amount by which the level of the portfolio exceeds this increase, or
- where the All Ordinaries Accumulation Index has decreased over that period, the amount of the increase in the value of the portfolio.

No performance fee is payable in respect of any performance period, where the portfolio has decreased in value over that period. For the year ended 30 June 2022 no performance fee was earned by Cadence Asset Management Pty Limited (2021: \$9,965,697). As at 30 June 2022, no performance fee was payable to the manager (2021: \$9,965,697).

Cadence Asset Management Pty Limited employs accounting personnel to provide accounting services to Cadence Capital Limited. These services are provided on commercial terms and include a standard charge of \$6,820 (inclusive of GST) per month and an additional charge of \$9,900 (inclusive of GST) is charged for preparing the half year and full year financial statements. As at 30 June 2022, the balance payable to the manager for these services was \$9,900 (2021: \$3,500)

(c) Compensation Practices

The Board from time to time determines remuneration of Non-Executive Directors within the maximum amount approved by the shareholders. Non-Executive Directors are not entitled to any other remuneration.

Fees and payments to Non-Executive Directors reflect the demands that are made on and the responsibilities of, the Directors and are reviewed annually by the Board. The Company determines the remuneration levels and ensures they are competitively set to attract and retain appropriately qualified and experienced Directors.

Directors' base fees are presently limited to a maximum of \$80,000 per annum between the directors. Non-Executive Directors do not receive bonuses nor are they issued options on securities. Directors' fees cover all mainboard activities and membership of committees. Directors' fees are not linked to the performance of the Company.

REMUNERATION REPORT (AUDITED) (Continued)

End of Remuneration Report.

EVENTS AFTER THE REPORTING PERIOD

The Board have declared a 4.0 cent per share fully franked final dividend payable on 28 October 2022. The Ex-Date for the dividend is 17 October 2022.

Other than the above there has not arisen in the interval between the end of the financial year and the date of this report any other item, transaction or event of material and unusual nature likely, in the opinion of the Company, to significantly affect the operations of the entity, the results of those operations, or the state of affairs of the entity, in future financial years.

FUTURE DEVELOPMENTS

The Company will continue to pursue its policy of investment during the next financial year.

ENVIRONMENTAL ISSUES

The Company's operations are not regulated by any environmental regulation under a law of the Commonwealth or of a State or Territory.

INDEMNIFICATION AND INSURANCE OF OFFICERS OR AUDITORS

During the year the Company paid a premium in respect of a contract insuring the Directors of the Company, the Company Secretary and any related body corporate against liability incurred as such by a Director or Secretary to the extent permitted by the *Corporations Act 2001*.

No indemnities have been given or insurance premiums paid during or since the end of the financial period, for any person who is or has been an auditor of the Company. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

PROCEEDINGS ON BEHALF OF COMPANY

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

The Company was not a party to any such proceedings during the year.

NON-AUDIT SERVICES

During the year Pitcher Partners Sydney, the Company's auditor, did not perform any other services in addition to their statutory duties for the Company. Related entities of Pitcher Partners, performed taxation services for the Company. Details of the amounts paid to the auditors and their related parties are disclosed in Note 2 to the financial statements.

The Board of Directors, in accordance with advice from the Audit Committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the services disclosed in Note 2 did not compromise the external auditor's independence for the following reasons:

- all non-audit services do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided do not compromise the general principles relating to auditor independence in accordance with the APES 110: *Code of Ethics for Professional Accountants sets (including Independence Standards)*.

ROUNDING OF AMOUNTS

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the directors' report and in the financial report have been rounded to the nearest dollar unless otherwise stated.

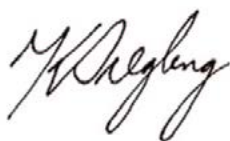

CORPORATE GOVERNANCE STATEMENT

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Cadence Capital Limited (“the Company”) is a listed public company, incorporated and domiciled in Australia.

BASIS OF PREPARATION

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations, issued by the Australian Accounting Standards Board (‘AASB’) and the *Corporations Act 2001*, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board (‘IASB’).

Australian Accounting Standards set out accounting policies that the Australian Accounting Standards Board has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the IASB. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

The financial statements have been prepared under the historical cost convention, except for, where applicable, cash flow information, “held-for-trading” financial assets and certain other financial assets and liabilities, which have been measured at fair value.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. The Company manages financial assets and financial liabilities at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements.

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 1(k).

The financial statements are presented in Australian dollars, which is the Company’s functional and presentation currency.

The financial report was authorised for issue on 26th September 2022 by the Board of Directors.

ACCOUNTING POLICIES

(a) Investments

i) Classification

Investments consist of shares in publicly listed and unlisted companies.

Financial assets are classified ‘at fair value through profit or loss’ when they are held for trading for the purpose of short-term profit taking. Realised and unrealised gains and losses arising from changes in fair value are included in the Statement of Profit or Loss and Other Comprehensive Income in the period in which they arise.

The Company makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are classified as financial liabilities at fair value through the profit or loss.

ii) Recognition and Initial Measurement

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the entity becomes a party to the contractual provisions of the instrument. Trade date accounting is adopted for financial assets that are delivered within timeframes established by marketplace convention. Trade date is the date on which the Company commits to purchase or sell the assets.

Financial instruments are initially measured at fair value plus transactions costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to the profit or loss immediately.

Financial assets are classified and measured at fair value with changes in value being recognised in the profit or loss.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)(a) Investments (Continued)*iii) Derecognition*

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in the profit or loss.

iv) Valuation

All investments are classified and measured at fair value, being market value, including the potential tax charges that may arise from the future sale of the investments. These fair value adjustments are recognised in the profit or loss. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions and reference to similar instruments.

v) Investment income

Dividend income is recognised in the profit or loss on the day on which the relevant investment is first quoted on an "ex-dividend" basis.

Interest revenue is recognised as it accrues, taking into account the effective yield on the financial asset.

vi) Derivative Instruments

Derivative instruments are measured at fair value. Gains and losses arising from changes in fair value are taken to the profit or loss.

vii) Financial Liabilities

Borrowed stock is classified as financial liabilities at fair value through the profit or loss. Realised and unrealised gains and losses arising from changes in fair value are included in the profit or loss in the year in which they arise.

viii) Investment Entity

The Company owns 100% of the shares on issue in Cadence Global Fund Pty Limited. The Directors have assessed the requirements of AASB 10 Consolidated Financial Statements and have applied the criteria set out in the standards to the operations of the Company. Cadence Capital Limited is therefore considered to be an investment entity and as a result, the wholly owned entity of the Company are not consolidated into the financial statements, but rather are accounted for as financial assets at fair value through profit or loss.

(b) Income Tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Income Tax (Continued)

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable entity or different taxable entity's which intend to settle simultaneously.

(c) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the statement of cash flows presentation purposes, cash and cash equivalents also includes bank overdrafts, which are shown within the current liabilities on the statement of financial position.

(d) Trade and Other Receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for expected credit loss. Trade and other receivables are generally due for settlement within 30 days. They are presented as current assets unless collection is expected for more than 12 months after the reporting date.

(e) Trade and Other Payables

These amounts represent liabilities for outstanding settlements as well as services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at nominal amounts and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition. The carrying amount of trade and other payables represent their fair value.

(f) Impairment

At each reporting date, the Company shall measure the loss allowance on financial assets at amortised cost (cash, due from broker and receivables) at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Company shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counter party, probability that the counter party will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(g) Rounding of Amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the financial report has been rounded to the nearest dollar unless otherwise stated.

(h) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), unless GST incurred is not recoverable from the Australian Taxation Office (ATO). In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Segment Reporting

The Company has only one segment. The Company operates predominately in Australia and in one industry being the securities industry, deriving revenue from dividend income, interest income and from the sale of its financial assets at fair value through profit or loss, however the Company has foreign exposures as it invests in securities which are listed Internationally.

(j) Comparative Figures

Where required by accounting standards, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

(k) Critical Accounting Estimates and Judgements

The Directors evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Income tax

The entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognises liabilities for anticipated tax audit issues based on the Company's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the Company considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Future taxable amounts are determined based on the historical performance of the Company. Deferred tax assets are reviewed at each reporting period.

There are no estimates or judgements that have a material impact on the Company's financial results for the year ended 30 June 2022 (2021: none). All material financial assets are valued by reference to quoted prices and therefore no significant estimates or judgements are required in respect of their valuation.

(l) Issued Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(m) Profits Reserve

The profits reserve is made up of amounts transferred from current and retained earnings that are preserved for future dividend payments.

(n) Dividends

Dividends are recognised when declared during the financial year and no longer at the discretion of the Company.

(o) Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

(p) New and amended standards adopted by the Company

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning on or after 1 July 2020 that has had a material impact on the accounts in the current or future periods.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations have been issued but are not yet effective at 30 June 2022. These have not been early adopted in preparing these financial statements and are not expected to have a material impact when adopted.

Holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at shareholder meetings. In the event of the winding up of the Company, ordinary shareholders rank after creditors and share in any proceeds on winding up in proportion to the number of shares held.

9. ISSUED CAPITAL (Continued)(b) Capital Management

Management controls the capital of the Company in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the Company can fund its operations and continue as a going concern. The Company's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets.

Management effectively manages the Company's capital by assessing the Company's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues. There has been no change in the strategy adopted by the Board to control the capital of the Company since the prior year. The Company is not subject to any externally imposed capital requirements.

On 20 May 2020, the Company announced the approval of an on-market share buy-back of up to 30.7 million of its ordinary shares. The share buy-back commenced on 5 June 2020 and finished on 4 June 2021. On 24 May 2021 the Company announced the approval of a further on-market share buy-back of up to 29.7 million of its ordinary shares. The share buy-back period commenced on 9 June 2021 and finished on 8 June 2022.

13. FINANCIAL RISK MANAGEMENT

Financial Risk Management Policies

The Company's financial instruments consist of money market instruments, short and long term investments, accounts receivable and payable.

Financial Risk Exposures and Management

The main risks the Company is exposed to through its financial instruments are interest rate risk, liquidity risk, credit risk, foreign currency risk and market price risk.

(a) Terms, Conditions and Accounting Policies

The Company's accounting policies are included in Note 1, while the terms and conditions including interest rate risk of each class of financial asset, financial liability and equity instrument, both recognised and unrecognised at balance date are included under the appropriate note for that instrument.

(b) Credit Risk

The Company takes on exposure to credit risk, which is the risk that a counterparty (prime broker, custodian, subcustodian and broker) will be unable to pay amounts in full when due. The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period excluding the value of any collateral or other security held, is equivalent to the carrying amount and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

All transactions in listed securities are settled /paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet their obligation.

There are risks involved in dealing with custodians or prime brokers who settle trades. Under certain circumstances, including certain transactions where the Company's assets are pledged as collateral for leverage from a prime broker/custodian, or where the Company's assets are held at a prime broker, custodian or sub-custodian, the securities and assets deposited with the prime broker/custodian may be exposed to a credit risk with regards to such parties. In addition, there may be practical or timing problems associated with enforcing the Company's rights to its assets in case of an insolvency of any such party.

The Company maintains Prime Brokerage facilities, including lending, and Custody facilities with its prime broker and custodian BNP Paribas and Custody facilities with Bank of New York Mellon. There is no guarantee that these or any sub-custodian that BNP Paribas may use or any other prime broker or custodian that the Company may use from time to time, will not become insolvent. In the event of an insolvency or liquidation of a prime broker or custodian that is being used by the Company, there is no certainty that the Company would not incur losses due to its assets being unavailable for a period of time or ultimately less than full recovery of its assets, or both. As substantially all of the Company's assets may be held by a prime broker, custodian or sub-custodian and in some cases a major Australian bank, such losses could be significant and materially impair the ability of the Company to achieve its investment objective.

Any cash held by BNP Paribas is not treated as client money, but rather held as collateral and is not subject to the client monies protections conferred by the Financial Conduct Authority rules relating to client money. As a consequence, the Company's money is held by the Prime Broker as banker and not as a trustee or agent and the Prime Broker will not be required to place the Fund's money in a segregated client account, and the Company will therefore rank equally with BNP Paribas's other account holders in relation thereto.

13. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity Risk

Liquidity risk represents the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's major cash outflows are the purchase of securities and dividends paid to shareholders, the levels of which are managed by the Board and the management company. The Company's inward cash flows depend upon the level of sales of securities, dividends, interest received and any exercise of options that may be on issue.

The Company monitors its cashflow requirements daily by reference to known transactions to be paid or received. The Company may hold a portion of its portfolio in cash and short-term fixed interest securities sufficient to ensure that it has cash available to meet all payments. Alternatively, the Company can increase its level of sales of the readily tradeable securities it holds to increase cash inflows or it can use its lending facility with its Prime Broker.

(d) Market Risk

Market risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. By its nature, as an investment company that invests in tradeable securities, the Company will always be subject to market price risk as it invests its capital in securities which are not risk free as the market price of these securities can fluctuate.

The Company can seek to reduce market risk by not being overly exposed to one company or one particular sector of the market. The Company does not have set parameters as to a minimum or maximum amount of the portfolio that can be invested in a single company or sector. The Company monitors its gross and net exposures to the market on a daily basis.

(e) Foreign Currency Risk

The Company undertakes certain transactions and holds assets and liabilities denominated in currencies other than Australian Dollar (AUD), the reporting currency of the Company. The Company is therefore exposed to currency risk, as the value of the assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates. The Company monitors its foreign currency risks.

The following table summarises the net amount of assets and liabilities which are denominated in currencies that the Company is significantly exposed to:

	2022	2021
United States Dollar: (USD1 =AUD1.44885)		
Investments	USD (11,377,579)	USD 69,802,157

13. FINANCIAL RISK MANAGEMENT (Continued)

(f) Interest Rate Risk

Any excess cash and cash equivalents of the Company are invested at short-term market interest rates. Floating rate instruments expose the Company to cash flow risk, whereas short term fixed rate instruments expose the Company to interest rate risk. Excess cash and cash equivalent balances are monitored closely and can be moved into short term bank bills or fixed term deposits.

(g) Financial instrument composition and maturity analysis

The tables below reflect the undiscounted contractual settlement terms for financial instruments of a fixed period of maturity, as well as the Company's expectations of the settlement period for all other financial instruments. (h) Financial Instruments Measured at Fair Value

AASB 13: Fair Value Measurement requires the disclosure of fair value information using a fair value hierarchy reflecting the significance of the inputs in making the measurements. The fair value hierarchy consists of the following levels:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices).

Level 3: Inputs for the asset or liability are not based on observable market data (unobservable inputs).

Included within Level 1 of the hierarchy are listed investments. The fair values of these financial assets and liabilities have been based on the closing quoted last prices at the end of the reporting period, excluding transaction costs.

13. FINANCIAL RISK MANAGEMENT (Continued)

(h) Financial Instruments Measured at Fair Value (Continued)

Investments included in Level 2 of the hierarchy include amounts in relation to Contracts for Difference, Financial Liabilities, Initial Public Offerings and Placements in which the Company has subscribed to during the year. The fair value of Contracts for Difference and Financial Liabilities have been determined using market inputs of the underlying investments. Initial Public Offerings and Placements are investments that have not listed on the Australian Stock Exchange as at 30 June 2022 and therefore represent investments in an inactive market. In valuing unlisted investments, included in Level 2 of the hierarchy, the fair value has been determined using the valuation technique of the quoted subscription price and the amount of securities subscribed for by the Company under the relevant offers.

Last financial year the level 3 asset class was composed of two pre-IPO investments. DeepGreen Metals Inc was valued at the weighted average cost of the most recent purchases at \$9,191,777. Both of these investments were sold in the financial year 2022.

Independent Auditor's Report To the Members of Cadence Capital Limited ABN 17 112 870 096

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Cadence Capital Limited ("the Company"), which comprises the statement of financial position as at 30 June 2022, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of Cadence Capital Limited is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Company's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be on the same terms if given to the Directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the matter
Existence and Valuation of Financial Assets and Completeness of Financial Liabilities Refer to Note 6: Financial Assets and Note 8: Financial Liabilities	
<p>We focused our audit effort on the existence and valuation of the Company's financial assets and the completeness of the Company's financial liabilities as they represent the most significant driver of the Company's Net Tangible Assets and Profit.</p> <p>The Company's investments are considered to be non-complex in nature with fair value based on readily observable data from the ASX or other observable markets. Consequently, these investments are classified under Australian Accounting Standards as "Level 1" (i.e. where the valuation is based on quoted prices in active markets) or "Level 2" (i.e. where key inputs to valuation are based on other observable inputs).</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ▪ Obtaining an understanding of and evaluating the design of the investment management processes and controls; ▪ Reviewing and evaluating the independent auditors' reports on the design and operating effectiveness of internal controls (ASAE 3402 Assurance Reports on Controls at a Service Organisation) for the Custodians; ▪ Making enquiries as to whether there have been any changes to these controls or their effectiveness from the periods to which the auditors' reports relate to and where necessary obtaining bridging letters; ▪ Obtaining confirmations of the investment holdings directly from the Custodians; ▪ Assessing and recalculating the Company's valuation of individual investment holdings using independent pricing sources and inputs; ▪ Evaluating the accounting treatment of revaluations of financial assets and financial liabilities for current/deferred tax and unrealised gains or losses; and ▪ Assessing the adequacy of disclosures in the financial statements.

<i>Key audit matter</i>	<i>How our audit addressed the matter</i>
<p>Accuracy and Existence of Management and Performance Fees Refer to Note 7: Trade and other payables and Note 15: Related party transactions</p>	
<p>We focused our audit effort on the accuracy and existence of management and performance fees as they are significant expenses of the Company and their calculation requires adjustments and key inputs.</p> <p>Adjustments include company dividends, tax payments, capital raisings, capital reductions and other relevant expenses.</p> <p>The calculation of management and performance fees includes key inputs such as the value of the portfolio, the performance of the relevant comparable benchmark and application of the correct fee percentages in accordance with the Investment Management Agreement between the Company and the Investment Manager.</p> <p>In addition, to their quantum, as these transactions are made with related parties, there are additional inherent risks associated with these transactions, including the potential for these transactions to be made on terms and conditions more favourable than if they had been with an independent third-party (e.g. fees charged in excess of those mandated under the Investment Management Agreement).</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ▪ Obtaining an understanding of and evaluating the design of the processes and controls for calculating the management and performance fees; ▪ Making enquiries with the Investment Manager and those charged with governance with respect to any significant events during the period and associated adjustments made as a result, in addition to reviewing ASX announcements and Board meeting minutes; ▪ Testing of adjustments such as company dividends, tax payments, capital raisings, capital reductions as well as any other relevant expenses used in the calculation of management and performance fees; ▪ Testing of key inputs including the value of the portfolio, the performance of the relevant comparable benchmark and application of the correct fee percentage in accordance with our understanding of the Investment Management Agreement; and ▪ Assessing the adequacy of disclosures made in the financial statements.

Other Information

The Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report for the year ended 30 June 2022 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

Auditor's Responsibilities for the Audit of the Financial Report (Continued)

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
