02. Chairman's Letter

Dear fellow shareholders,

On behalf of the Directors, I am pleased to present the results of Plato Income Maximiser Limited (the Company) for the year ended 30 June 2020.

The Company was established to provide shareholders the opportunity to benefit from an actively managed, well-diversified portfolio of Australian equities and a monthly dividend payment once it had sufficient profit reserves. The Company's appointed investment manager, Plato Investment Management Limited (the Manager) is led by Don Hamson. The Manager comprises a team of 10 investment professionals and 5 members of the team hold PhD qualifications.

The Company's investment objectives are to:

- (1) generate annual income (including franking credits) that exceeds the gross income of the Benchmark; and
- (2) outperform (after fees) the Benchmark in total return terms including franking credits over each full investment cycle (typically 3 to 5 years).

We are very pleased that the Company has exceeded both its income objective and total return performance objective for the year ended 30 June 2020, and also since inception. The Company remains actively positioned to seek superior income and franking returns whilst also being able to allocate to companies that are expected to provide solid capital returns.

The Company's net profit after income tax for the year was \$21,451,000, compared to a profit of \$34,592,000 in the prior corresponding period, reflecting dividends received from the Company's investment portfolio returning to more regular levels after being at record highs during the 2019 financial year. The effects of the COVID-19 pandemic also impacted dividends received from the portfolio during the March and June quarters, with many companies choosing to reduce, delay, or suspend their dividend payments.

While the Company's investment process is well positioned to endure the current market volatility resulting from the COVID-19 pandemic, there will realistically be an impact on dividend revenue. It is still too soon to predict the longer-term economic impacts, but the Board is monitoring the evolution of the situation closely and will continue to manage the Company's capital appropriately to the prevailing economic conditions.

Further information regarding the impact of COVID-19 on the Company's portfolio can be found in the Manager's report which follows this letter.

Dividends

The Company continued to pay monthly dividends during the year, with monthly dividends of \$0.005 per share for the months of July 2019 to March 2020, reducing to \$0.004 from April 2020 to June 2020 in response to the COVID-19 pandemic.

The Directors are pleased that the Company has been able to continue to achieve its stated aim to declare and pay monthly dividends throughout the 2020 financial year, despite the economic volatility. The Company has also announced the payment of monthly dividends of \$0.004 per share for the months of July to September 2020. It is intended that the Company will continue to pay monthly dividends provided the Company has sufficient profit reserves, it is permitted by law and within prudent business practices to do so.

Performance

The Company's performance results are reported below. We consider that it is useful to consider performance from three different perspectives:

(a) Investment portfolio performance

The Company's investment portfolio performance shows how the Manager has performed after deducting management fees and costs¹, as compared to the Company's investment objectives.

Performance as at 30 June 2020 ²	Return	Benchmark	Excess
Total return ³			
- One Year	-5.8%	-6.6%	+0.8%
- Since Inception ⁴	+5.8%	+5.5%	+0.3%
Income ⁵			
- One Year	+7.4%	+4.7%	+2.7%
- Since Inception ⁴	+8.0%	+5.5%	+2.5%

Please note that the income measure above represents distributed income, not accrued income. For the 2020 financial year total dividends of \$0.057 per share were paid equivalent to distributed income of 7.4%⁶, exceeding the full year gross yield of the Benchmark by 2.7%.

(b) NTA performance

This measure of Company performance shows the movement in the value of the Company's pre-tax Net Tangible Assets (NTA) over the period, adjusted for dividends paid. It includes deductions for management fees, Company administration costs and tax on earnings (including tax on realised

gains and other earnings but excluding any provision for tax on unrealised gains, capitalised share issue costs and income tax losses), and excludes the value of franking credits.

The Company's NTA Performance for the year ended 30 June 2020 was -8.4%. Since inception, the NTA performance is +2.2% p.a.

(c) TSR performance

Total Shareholder Return (TSR) performance is a measure of the change in the share price adjusted for any dividends paid during the period. It does not include any impact shareholders received from owning options issued as part of the IPO. The TSR performance can be an important measure as often the share market can trade at a premium or discount to the NTA.

The Company's TSR performance for the year ended 30 June 2020 was -7.3%. Since inception, the TSR performance is +2.4% p.a.

Entitlement Offer

On 8 August 2019 the Company announced an entitlement offer (Offer) consisting of:

- a 1 for 1.6 non-renounceable entitlement offer of new fully paid ordinary shares in the Company at an offer price of \$1.10 (New Shares) for existing eligible shareholders;
- an oversubscription facility for existing eligible shareholders to apply for additional New Shares in excess of their entitlement; and
- an offer of New Shares not taken up by eligible shareholders in the entitlement offer and oversubscription facility to institutional and retail investors.

The Offer was completed during September 2019 raising \$144,377,000 via the issue of 131,251,903 New Shares, 45,228,433 of which were issued under the entitlement offer and oversubscription facility, and 86,023,470 under the broker firm shortfall offer.

Thank you for your continued support.

Yours sincerely

Jonathan Trollip, Chairman
Sydney, 28 August 2020

03. Investment Manager's Report

The Company has appointed the Manager as the investment manager of the Company's investment portfolio.

Investment strategy

The investment strategy used by the Manager is to invest (directly or indirectly) in an actively managed, well-diversified Australian equities portfolio predominately comprised of Australian listed securities, which aims to achieve the investment objectives. The Manager implements the investment strategy by investing in the Plato Fund, for which it is also the investment manager.

The Manager employs a disciplined systematic process to take advantage of market inefficiencies to seek to deliver higher levels of income (including franking credits) than the Benchmark.

Investment philosophy

The Manager's philosophy is centred on the belief that markets are complex and less than perfectly efficient. These market inefficiencies are derived from informational, behavioural and structural sources. The Manager believes a disciplined investment process can take advantage of these market inefficiencies to outperform over a market cycle. Some of these sources of return are exploited on a longer-term time horizon and others are extracted on a shorter-term basis.

The Manager believes that an actively managed well-diversified portfolio of securities that is cheaper than, of higher quality than and exhibits better business momentum than the market is likely to outperform standard market benchmarks over the longer term. The Manager considers that there are also shorter-term opportunities to outperform the market and generate additional income around dividend events for individual companies.

Investment process

The Manager's investment process involves extensive research focusing on relative market values, business momentum, the quality of the potential investee entity and the prospect for dividends.

Once an investment idea has been identified, the Manager makes an assessment of the following factors where relevant to the specific security:

- (a) **Value:** the value of each security relative to the market (using a combination of models, including models focussed on earnings, cash flow, dividends or EBITDA);
- (b) **Business Momentum:** broker earnings forecasts and share prices to determine the relative business momentum of companies on the Australian share market;
- (c) **Quality:** firm quality, having regard to a range of factors including but not limited to profitability, earnings quality and the Manager's proprietary red flags quality indicator;
- (d) **Dividend and dividend run-up:** the estimated dividend run-up return of each individual stock in the period leading up to its forecast dividend ex-date, as well as the expected size of that dividend payment (including franking credits) as forecast by the Manager. Historically, the Manager has observed a general tendency for securities to outperform the general market in the period leading up to their ex-dividend date;
- (e) **Dividend Trap Avoidance:** the likelihood of a particular entity reducing its dividend as forecast by the Manager using a number of stock specific factors.

These factors are taken into account in assessing the relative merits of entities to invest in. The Manager takes into consideration these factors, as well as investment risk and liquidity, when constructing the portfolio. The Manager aims to hold a diversified portfolio of securities that it expects will achieve total returns in excess of, and 'generate' more income than, the Benchmark without taking on excessive active portfolio risk. The Manager uses portfolio optimisation software to assist with portfolio construction.

Portfolio optimisation is a quantitative approach that constructs the most efficient combination of securities to satisfy investment objectives whilst balancing expected risk and return. For portfolio construction, individual security weightings, sector weightings and size exposure are determined by taking into account the following internal guidelines at the time of portfolio construction:

Stock weightings	The weighting of a security in the portfolio will not be 5% more or 5% less than the Benchmark weighting.
Sector weightings	Whilst there is no hard limit to relative or absolute sector weightings, the Manager aims to build a portfolio with similar sector weightings to the Benchmark.
Cash exposure	Maximum 10% exposure to cash, although it is the Manager's intention to be largely fully invested as the Manager does not attempt to time markets, rather preferring to be fully invested as much as is practicable.
Number of positions	The portfolio of the Plato Fund is typically comprised of between 50 and 120 securities that the Manager considers to be consistent with the investment strategy.

The Manager then monitors the portfolio risk, returns and implementation, rebalancing the underlying investment portfolio when necessary to satisfy the investment objectives.

Portfolio performance

As noted in the Chairman's letter, during the year ended 30 June 2020 the Company exceeded both its income objective and performance objective. The investment portfolio returned -5.8% after management fees and distributed a yield of 7.4% (including franking credits) during the twelve months to 30 June 2020. The Benchmark performance was -6.6% including a gross yield of 4.7% over the same period.

The underlying investment portfolio's five best contributions to active performance over the last financial year were overweight in Fortescue (up 71%), Wesfarmers (up 28%), Macquarie (down 2%) and Woolworths (up 15%) as well as an underweight position in Scentre (down 40%). The last six months in particular was a period where avoiding the 'dividend traps' (stocks likely to underperform and cut their dividend) was especially important as there were particular industries such as banking, retail property trusts, travel and energy stocks that underperformed significantly. In contrast, certain sectors such as the large gold and iron ore miners and well as consumer staples were largely unharmed by the economic environment.

The gross dividend yield¹ fell in the first half of 2020 as many companies cut, deferred or even cancelled previously announced dividends to preserve cash in the current environment taking the annual gross yield of the benchmark to 4.7%¹. The Company was able to distribute income of 7.4%², 2.7% above its benchmark. The Company's investments remain actively positioned to seek superior income than the benchmark, albeit, we expect dividends for both the benchmark and our strategy to

¹ Including franking credits.

² Calculated as monthly dividends paid (including franking credits) divided by average month-end share price over the financial year.

fall at least 30% from 2019 levels due to the economic impact of Covid-19. However, the distribution of this cut in dividends is not expected to be consistent across sectors. Whilst we think the dividends from financials, retail property trusts and energy stocks are challenged, we expect solid dividends from iron ore and gold miners as well as consumer staples like Woolworths and Coles.

There were two off-market buy-backs that we participated in over the financial year – McMillan Shakespeare and Qantas. These were much smaller buy-backs than the BHP Billiton and Rio Tinto buy-backs in the prior corresponding period which returned in excess of \$10 billion to investors as a result of their asset sales (U.S. shale oil assets and coal mines respectively). There were no completed off-market buybacks during the last six months however, as the one that was announced by Qantas in February was subsequently cancelled as the Covid-19 virus spread throughout the world and severely impacted airline traffic.

From an income perspective, the biggest generators of excess dividend income (including franking credits) were active positions in the big three iron ore miners (BHP, Rio Tinto and Fortescue) as well as the big four banks, Macquarie, Woolworths and Wesfarmers.

Market commentary

The Australian market fell 36% from its high on February 20 to its low on March 23. However, as governments announced historic stimulus measures and central banks lowered interest rates and initiated quantitative easing (with the U.S. Federal Reserve printing 3 trillion U.S. dollars during the next three months), the stock market rallied to be down 10%³ for the second-half or 6.6%³ for the financial year. During the financial year, the best performing sectors were Healthcare, Information Technology and Consumer Staples, sectors which have not been significantly affected by Covid-19 and in the case of some stocks have seen a strong positive effect. The worst performing sectors were Energy, Financials and Real Estate, which fell significantly during the second-half and have been all significantly impacted in particular by the lockdowns reducing the demand for oil, reducing the number of people visiting shopping centres and workplaces and also putting pressure on banks who are likely to see an uptick in bad debts as many small businesses are struggling to survive. The strong divergence in sector performance shows the benefit of holding a diversified portfolio rather than investing in stocks with the highest level of income which may lag during particular market cycles, such as the one we are currently in.

04. Directors' Report

The Directors present their report together with the financial statements of the Company for the year ended 30 June 2020.

The Company is a company limited by shares and is incorporated in Australia.

Directors

The following persons held office as directors during the year and up to the date of this report, unless otherwise stated:

Jonathan Trollip (Chairman)

Lorraine Berends

Katrina Onishi

Alex Ihlenfeldt

Donald Hamson

Principal activities

The principal activity of the Company is to provide shareholders the opportunity to benefit from an investment in an actively managed, well-diversified portfolio of Australian listed equities. There have been no significant changes in the nature of this activity during the year.

Review of operations

The Company offers investors the opportunity to benefit from an investment in an actively managed, well-diversified portfolio of Australian listed equities that aims to:

- (a) generate annual income (including franking credits) in excess of the S&P/ASX 200 Franking Credit Adjusted Daily Total Return Index (Tax Exempt); and
- (b) outperform (after fees) the Benchmark in total return terms including franking credits over each full investment cycle (which the Manager considers to be a period of typically 3 to 5 years).

Investment activities over the year ended 30 June 2020 resulted in an operating profit before tax of \$21,717,000 (2019: \$35,387,000) and an operating profit after tax of \$21,451,000 (2019: \$34,592,000). The total comprehensive loss for the period, which incorporates the net profit for the period less unrealised losses on revaluation of the Company's investments to fair value, was (\$21,054,000). This compared to total comprehensive income of \$29,839,000 in the prior corresponding period.

The Company continued to pay monthly dividends during the year, with fully-franked dividends of \$0.005 per share being paid each month from July 2019 to March 2020, and \$0.004 from April 2020 to June 2020 in response to the COVID-19 pandemic. This is in line with the Board's stated objective to pay regular monthly dividends from available profits, provided the Company has sufficient reserves and it is permitted by law and within prudent business practices to do so. A further three monthly dividends of \$0.004 per share have been declared for July, August and September 2020.

The outbreak of the COVID-19 pandemic has led to extreme volatility in equities markets, which impacts the value of the Company's assets. Governments have introduced significant fiscal stimulus, but it is still too soon to predict the longer-term economic impacts of the pandemic. The Directors are monitoring the evolution of the situation closely. The Company is actively monitoring its service providers to ensure its continued operational effectiveness, and is also closely monitoring its investment policies, strategies, investment flows, performance and liquidity during this period.

Further information regarding the Company's operations and financial performance during the year can be found in the Chairman's letter and Investment Manager's report at pages 6 to 14.

Options

As at 30 June 2020, the Company had no unissued ordinary shares under option.

Matters subsequent to the end of the financial year

The impact of the COVID-19 pandemic is ongoing and it is not practicable to estimate the potential impact, positive or negative, on the Company of the pandemic after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel and business restrictions and any economic stimulus that may be provided by Governments.

Apart from this and the items disclosed in note 18 to the financial statements at page 64, no matter or circumstance has occurred subsequent to year end that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

Likely developments and expected results of operations

The Company will continue to pursue its investment objectives for the long-term benefit of shareholders.

Environmental regulation

The Company is not affected by any significant environmental regulation in respect of its operations.

To the extent that any environmental regulations may have an incidental impact on the Company's operations, the Directors are not aware of any breach by the Company of those regulations.

Remuneration Report (Audited)

This report details the nature and amount of remuneration for each Director of Plato Income Maximiser Limited in accordance with the Corporations Act. The Company Secretary is remunerated under a service agreement with Pinnacle.

Details of remuneration

The Board from time to time determines the remuneration of Directors within the maximum amount approved by shareholders at the Annual General Meeting. Directors are not entitled to any other remuneration from the Company.

Fees and payments to Directors reflect the demands that are made on them and their responsibilities. The performance of Directors is reviewed annually. The Board determines the remuneration levels and ensures they are competitively set to attract and retain appropriately qualified and experienced Directors.

The maximum total pooled remuneration of the Directors has been set at \$250,000 per annum. Directors do not receive bonuses nor are they issued options on securities as part of their remuneration. Directors' fees cover all main Board activities.

Directors' remuneration is not directly linked to the Company's performance.

The following table outlines key elements of the Company's financial performance since incorporation:

	2020	2019	2018	2017 *
Operating profit after tax (\$'000)	21,451	34,592	19,098	863
Dividends per share (cents per share)	5.7	9.0 **	4.2	-
Pre-tax NTA (\$)	0.959	1.106	1.099	1.038
Closing Share Price (\$)	0.990	1.125	1.025	1.095

* inception of the investment portfolio occurred 28 April 2017

** includes special dividend of 3.0 cents per share

The following tables show details of the remuneration received by the Directors of the Company for the current financial year and prior period.

Director	Short-term employee benefits		Post-employment benefits		Total	
	Salary and fees		Superannuation

The Company has no employees and therefore does not have a remuneration policy for employees.

The Directors are the only people considered to be key management personnel of the Company.

Director-related entity remuneration

All transactions with related entities are made on normal commercial terms and conditions.

Don Hamson and Alex Ihlenfeldt, who are Directors, are also directors of the Manager. Alex Ihlenfeldt is a director of Pinnacle, which provides services to the Company in accordance with the Services Agreement.

The fees payable to the Manager and the Administrator are listed below:

Management fee

In its capacity as investment manager, the Manager is entitled to be paid, and the Company must pay to the Manager, a management fee payable monthly in arrears equivalent to 0.80% per annum (exclusive of GST) of the value of the Company's portfolio calculated daily.

For the year ended 30 June 2020, the Manager was paid a management fee of \$3,403,868, exclusive of GST (period ended 30 June 2019: \$2,578,261).

As at 30 June 2020, the balance payable to the Manager was \$540,146, exclusive of GST (30 June 2019: \$218,912).

Service fee

The Company has entered into the Services Agreement with Pinnacle for the provision of the following administration support services:

- Middle office portfolio administration;
- Finance, tax and reporting and administration; and
- Legal counsel and company secretarial.

For the year ended 30 June 2020, Pinnacle was paid a fee of \$84,140, exclusive of GST (period ended 30 June 2019: \$81,689). As at 30 June 2020, the balance payable was \$21,035 (30 June 2019: \$20,422).

Contracts

Other than as stated above, no Director has received or become entitled to receive, a benefit by reason of a contract made by the Company or a related company with the Director or with a firm of which they are a member or with a company in which they have substantial financial interest since the inception of the Company.

Equity instrument disclosures relating to Directors

During the financial year and as at the date of this report, the Directors and their related parties held the following interests in the Company:

Director	Opening Balance 1 July	Acquisitions	Disposals	Closing Balance 30 June	Balance at date of this report
Jonathan Trollip*	50,000	45,000	–	95,000	95,000
Lorraine Berends*	50,000	31,250	–	81,250	81,250
Katrina Onishi*	50,000	50,000	–	100,000	100,000
Alex Ihlenfeldt*	535,000	52,726	–	587,726	587,726

Total shares held*	935,001	1,178,975	–	2,113,976	2,113,976

*Held through direct and indirect interests

Directors and director-related entities acquire shares in the Company on the same terms and conditions available to other shareholders.

The Directors have not been granted options over unissued shares or interests in shares of the Company as part of their remuneration during or since the end of the financial year.

End of Remuneration Report

Insurance and indemnification of officers and auditors

During or since the end of the financial year, the Company has given an indemnity and has paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director, other than conduct involving a wilful breach of duty in relation to the Company or the improper use by the Directors of their position.

Details of the amount of the premium paid in respect of the insurance policies are not disclosed as the Company is prevented from doing so under the terms of its contract.

No indemnities have been given or insurance premiums paid during or since the end of the financial year, for any person who is or has been an auditor of the Company.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, or for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act.

Non-audit services

During the year, Pitcher Partners, the Company's auditor, performed other services in addition to their statutory duties for the Company as disclosed in note 14 to the financial statements.

The Board is satisfied that the provision of other services during the year is compatible with the general standard of independence for auditors imposed by the Corporations Act. The Directors are

satisfied that the services disclosed in note 14 did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the Board prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided do not compromise the general principles relating to the auditor independence in accordance with the APES 110 Code of Ethics for Professional Accountants (including Independence Standards) set by the Accounting Professional and Ethical Standards Board.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 29.

Rounding of amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the Directors' report and in the financial statements have been rounded to the nearest one thousand dollars, or in certain cases, to the nearest dollar (where indicated).

This report is made in accordance with a resolution of the Directors.

Notes to the Financial Statements

For the year ended 30 June 2020

Note 1

Summary of significant accounting policies

The financial statements were authorised for issue on 28 August 2020 by the Board.

Basis of preparation

These general purpose financial statements have been prepared in accordance with the Corporations Act, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board. The Company is a 'for-profit' entity for financial reporting purposes under Australian Accounting Standards.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, except for the measurement at fair value of selected financial assets and financial liabilities.

The financial statements of the Company also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the Directors' report and in the financial statements have been rounded to the nearest one thousand dollars, or in certain cases, to the nearest dollar (where indicated).

Material accounting policies adopted in the preparation of the financial statements are presented below. Other than the implementation of new accounting standards noted in 1(o) below, the accounting policies adopted are consistent with the previous year, unless stated otherwise:

(a) Investments

The category of financial assets and financial liabilities comprises:

Financial instruments designated at fair value through other comprehensive income:

These investments are recognised initially at fair value, including transaction costs and the Company has irrevocably elected to present subsequent changes in fair value of equity instruments in other comprehensive income through the asset revaluation reserve after deducting a provision for the potential deferred capital gains/(losses) and deferred tax liability/(asset) as these investments are long term holdings of equity instruments.

(b) Fair value measurement

When a financial asset is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date and assumes that the transaction will take place either in the principal market, or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset, assuming they act in their economic best interests. Valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company's managed fund investment is valued based on the redemption price of the units held. Listed investments are valued continuously at fair value, which is determined by the unadjusted last-sale price quoted on the Australian Securities Exchange at the measurement date.

Assets measured on a recurring basis at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

Further information regarding fair value measurements is provided in note 3.

(c) Income and expenditure

Distributions from managed funds are recognised on a present entitlements basis and recognised in the statement of profit or loss on the day the distributions are announced.

Interest income and expenses, including interest income and expenses from non-derivative financial assets, are recognised in the statement of profit or loss as they accrue, using the effective interest method of the instrument calculated at the acquisition date. Interest income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of an interest-bearing instrument and its amount at maturity calculated on an effective interest rate basis. Interest income is recognised on a gross basis, including any withholding tax, if any.

All other expenses, including investment management fees, are recognised in the statement of profit or loss on an accruals basis.

(d) Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on the applicable tax rate.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date.

Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

(e) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of GST, unless GST incurred is not recoverable from the Australian Taxation Office. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

(f) Cash and cash equivalents

Cash includes cash on hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(g) Trade and other receivables

Trade and other receivables relate to outstanding settlements as well as accrued income in relation to interest and dividends receivable. Trade receivables are generally due for settlement within 30 days. Details regarding the accounting policy for the impairment of receivables is provided at note 1(n).

(h) Trade and other payables

These amounts represent liabilities for outstanding settlements as well as services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature, they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(i) Share capital

Ordinary shares are classified as equity. Costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(j) Profits reserve

A profits reserve has been created representing an amount allocated from earnings that is preserved for future dividend payments.

(k) Asset revaluation reserve

Changes in fair value of investments are presented in other comprehensive income through the asset revaluation reserve as referred to in note 11. Upon disposal of investments, the cumulative net gain or loss is transferred from the asset revaluation reserve to the capital profits reserve.

(l) Earnings per share**(1) Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares;
- by the weighted average number of ordinary shares outstanding during the financial period adjusted for bonus elements in ordinary shares issued during the period and excluding treasury shares.

(2) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares (e.g. options on issue and in the money).

(m) Operating segments

The Company's investment activities are its only reportable segment. The Company operates from one geographic location, being Australia.

(n) Critical accounting estimates and judgments

The preparation of financial statements requires the use of estimates and judgments which affect the reported amounts of assets and liabilities of the Company. These estimates and judgments are constantly evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Income taxes

The Company is subject to income taxes in Australia. Significant judgement is required in determining the provision for income taxes. The Company estimates its income taxes based on the Company's understanding of tax law. Where the final tax outcome of these matters is different

from the amounts that were initially recorded, such differences will impact the current and deferred tax provisions in the period in which such determination is made. Further information regarding the Company's income tax expense / (benefit) is provided in note 4.

The Company can recognise deferred tax assets relating to carried forward tax losses and deductible timing differences to the extent that it is considered probable that there will be future taxable profits relating to the same taxation authority against which the carried forward tax losses and deductible timing differences will be utilised. Further information regarding the Company's deferred tax assets are provided at note 8.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group of receivables. These assumptions can include historical collection rates, and any forward-looking information that is available including potential impacts of the COVID-19 pandemic. The allowance for expected credit losses is calculated based on the information available at the time of preparation. The actual credit losses in future years may be higher or lower.

(o) New and revised accounting requirements applicable to the current reporting period

The Company has adopted AASB 16 Leases from 1 July 2019. Further information is detailed below. A number of other new and revised standards are effective from 1 July 2019 but they do not have a material effect on the Company's financial statements.

AASB 16 Leases

AASB 16 Leases, effective from 1 July 2019, has the impact that almost all leases be recognised on the balance sheet, as the distinction between operating and finance leases is removed. As the Company does not have any operating or finance leases, this standard does not have a material impact on the Company.

(p) New accounting standards and interpretations not yet mandatory or early adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2020 reporting periods and have not been early adopted by the Company. It is not expected that that these new standards and interpretations will have a material impact on the entity in future reporting periods.

Note 2

Financial Risk Management

The Company's activities expose it to a variety of financial risks: market risk (including price risk), credit risk and liquidity risk, which could affect the Company's future financial performance.

The Board has implemented a risk management framework to mitigate these risks. This includes consideration of compliance and risk management reporting on a quarterly basis to monitor compliance and evaluate risk, and regular reporting from the Manager to ensure ongoing compliance with the investment strategy and investment guidelines.

The Company holds the following financial instruments, all of which are measured at amortised cost except for financial assets at fair value through other comprehensive income:

Financial assets	2020 \$'000	2019 \$'000
Cash and cash equivalents	908	328
Trade and other receivables	4,144	4,309
Financial assets at fair value through other comprehensive income	406,437	324,237
	411,489	328,874
Financial liabilities		
Trade and other payables	667	316
	667	316

(a) Market risk

(1) Price risk

Price risk is the risk that changes in market prices will affect the fair value of the financial instrument. The fair value is determined by the redemption price of the managed fund investment at the measurement date.

The Company is exposed to price risk through the movement of the unit price of the managed fund, which is exposed to variation of security prices of the companies and trusts in which it is invested.

The market value of the managed fund fluctuates daily and the fair value of the portfolio changes continuously, with this change in the fair value recognised through the asset revaluation reserve.

Sensitivity

The table below summarises the impact of increases/(decreases) in equity securities prices on the Company's net assets before provision for tax on unrealised capital gains at 30 June 2020. The analysis is based on the assumption that equity securities prices had increased/(decreased) by 10% and 20% with all other variables held constant and the Company's investment moved in correlation with the index.

	Impact on net assets			
	\$'000		NTA per share	
	+/- 10%	+/- 20%	+/- 10%	+/- 20%
2020	40,644/(40,644)	82,118/(82,118)	\$0.09/(\$0.09)	\$0.19/(\$0.19)
2019	32,424/(32,424)	64,847/(64,847)	\$0.11/(\$0.11)	\$0.22/(\$0.22)

(2) Interest rate risk

The fair value of other financial instruments is unlikely to be materially affected by a movement in interest rates as they generally have short dated maturities and variable interest rates.

(b) Credit risk

The Company's credit risk exposures arise from the investment in liquid assets, such as cash and income receivable.

The risk that a financial loss will occur because of a counterparty to a financial instrument failing to discharge an obligation is known as credit risk. The credit risk on the Company's financial assets, excluding investments, is the carrying amount of those assets.

Income receivable comprises accrued interest and distributions which were brought to account on the date the units traded ex-distribution.

There are no financial instruments overdue.

The Company's cash balances are held with a counterparty that has a credit rating of AA- (as determined by Standard and Poor's (S&P)). The clearing and depository operations of the underlying managed fund's security transactions are mainly concentrated with one counterparty which has a credit rating of AA- with S&P. All financial assets and their recoverability are continuously monitored by the Administrator and reviewed by the Board on a quarterly basis.

(c) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they fall due.

The Company manages the liquidity risk by monitoring forecast and actual cash-flows.

Maturities of financial liabilities

The table below analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities at year end date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Contractual maturities of financial liabilities

Note 3

Fair value measurements

The Company measures and recognises its investments on a recurring basis.

(1) Fair value hierarchy

AASB 13: Fair Value Measurement requires the disclosure of fair value information using a fair value hierarchy reflecting the significance of the inputs in making the measurements. The fair value hierarchy consists of the following levels:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(2) Recognised fair value measurements

The following table presents the Company's assets and liabilities measured and recognised at fair value:

	Level 1	Level 2	Level 3	Total
	\$'000	\$'000	\$'000	\$'000
Assets				
At 30 June 2020				
Managed funds	-	406,437	-	406,437
Total financial liabilities	-	406,437	-	406,437
At 30 June 2019				
Managed funds	-	324,237	-	324,237
Total financial liabilities	-	324,237	-	324,237

The investment included in level 2 of the hierarchy is the amount of the investment based on the redemption price of the Plato Fund as at the end of the reporting period.

There were no transfers between levels for recurring fair value measurements during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting year.

The carrying amounts of all financial instruments other than those measured at fair value on a recurring basis are considered to represent a reasonable approximation of their fair values.

(c) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands, every holder of ordinary shares present at a general meeting in person or by proxy is entitled to one vote and upon a poll each share is entitled to one vote.

(d) Options

On 1 May 2017, as part of the initial public offering of the Company, 296,268,407 options were issued to acquire ordinary shares in the Company at an exercise price of \$1.10. The options could be exercised at any time on or before 29 April 2019.

The options gave the shareholders the right but not the obligation to subscribe for ordinary shares in the Company at \$1.10 per share. The options could be exercised in full or in part.

The options expired on 29 April 2019. During the prior year 561,500 options were exercised to acquire ordinary shares in the Company for consideration of \$618,000.

During the current year and as at 30 June 2020, the Company had no unissued ordinary shares under option.

(e) Non-renounceable entitlement offer

On 8 August 2019, the Company announced an offer of shares consisting of:

- a 1 for 1.6 non-renounceable entitlement offer of new fully paid ordinary shares in the Company at an offer price of \$1.10 ('New Shares') for existing eligible shareholders;
- an oversubscription facility for existing eligible shareholders to apply for additional New Shares in excess of their entitlement; and
- an offer of New Shares not taken up by eligible shareholders in the entitlement offer and oversubscription facility to institutional and retail investors ('broker firm shortfall offer').

The Offer was completed during September 2019 raising \$144,377,000 via the issue of 131,251,903 New Shares, 45,228,433 of which were issued under the entitlement offer and oversubscription facility, and 86,023,470 under the broker firm shortfall offer.

(f) Capital management

The Company's objective in managing its capital is to satisfy its aim to provide shareholders with dividend income and total return in excess of the Company's Benchmark. The Company considers its capital to be its issued capital, reserves and accumulated retained earnings.

The Company's capital will fluctuate with market conditions. The Company can manage its capital through the level of dividends paid to shareholders, the issue of shares or the use of share buy-backs.

The Company is an ASX listed investment Company and is subject to ASX listing rule requirements.

Note 15

Related party transactions

All transactions with related parties were made on normal commercial terms and conditions and at market rates.

(a) Investment Management Agreement

Don Hamson and Alex Ihlenfeldt, Directors of the Company, are directors of the Manager.

The Company appointed the Manager to act as investment manager of the Company's portfolio under the Investment Management Agreement.

Under the Investment Management Agreement, the Manager must:

- (1) invest money constituted in or available to the Company's portfolio, including money received as a consequence of disposal of investments or any dividend or other distribution received;
- (2) retain investments; and
- (3) realise or dispose of investments.

The initial term of the Investment Management Agreement is 10 years, which will be automatically extended for successive five year periods up to 25 years from the commencement date when it will terminate, unless terminated earlier in accordance with the Investment Management Agreement. The Company may remove the Manager and terminate the agreement after the expiration of the initial term if the shareholders resolve by ordinary resolution that the Manager should be removed as manager of the Company's portfolio, on delivery of three months' prior written notice.

The associated fees payable to the Manager are listed below:

Management fee

In its capacity as investment manager, the Manager is entitled to receive a management fee of 0.80% per annum (exclusive of GST) of the value of the Company's portfolio calculated daily and paid at the end of each month in arrears.

For the year ended 30 June 2020, the Manager was paid a management fee of \$3,403,868, exclusive of GST (year ended 30 June 2019: \$2,578,261).

As at 30 June 2020, the balance payable to the Manager was \$540,146, exclusive of GST (30 June 2019: \$218,912).

(b) Services Agreement

Alex Ihlenfeldt, a Director of the Company, is also a Director of Pinnacle, the Administrator.

The Company has entered into the Services Agreement with Pinnacle for the provision of the following administration support services:

- Middle office portfolio administration;
- Finance, tax and reporting and administration; and
- Legal counsel and company secretarial.

The Company is required to pay Pinnacle a service fee quarterly in arrears for the provision of the services calculated as follows:

- (1) in respect of the first financial year to 30 June 2017 – \$70,000 (exclusive of GST) (Base Retainer); and
- (2) in respect of each subsequent financial year – the Base Retainer calculated for the immediately preceding financial year indexed by 3%.

For the year ended 30 June 2020, Pinnacle was paid a fee of \$84,140, exclusive of GST (period ended 30 June 2019: \$81,689). As at 30 June 2020, the balance payable was \$21,035 (30 June 2019: \$20,422).

(c) Responsible Entity of Plato Fund

Alex Ihlenfeldt, a Director of the Company, is one of four directors of Pinnacle Fund Services Limited, the responsible entity of the Plato Fund.

Note 18

Subsequent events

The impact of the COVID-19 pandemic is ongoing and it is not practicable to estimate the potential impact, positive or negative, on the Company of the pandemic after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel and business restrictions and any economic stimulus that may be provided by Governments.

Apart from the above and the dividends declared subsequent to balance date as disclosed in note 12(b), no matter or circumstance has occurred subsequent to year end that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

Note 19

Contingencies and commitments

The Company has no known contingent assets or liabilities nor material commitments as at 30 June 2020.

“Truth is the beginning of every good to the gods, and of every good to man.”

08. Directors' Declaration

The Directors declare that:

- (a) the financial statements and notes as set out on pages 32 to 64 are in accordance with the Corporations Act 2001, including:
 - (1) complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - (2) giving a true and fair view of the Company's financial position as at 30 June 2020 and of its performance for the year ended on that date.
- (b) in the Directors' opinion there are reasonable grounds to believe that Plato Income Maximiser Limited will be able to pay its debts as and when they become due and payable.
- (c) note 1(a) confirms that the financial statements also comply with International Financial Reporting standards as issued by the International Accounting Standards Board; and

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Plato Income Maximiser Limited ("the Company"), which comprises the statement of financial position as at 30 June 2020, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of Plato Income Maximiser Limited is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Company's financial position as at 30 June 2020 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis of Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be on the same terms if given to the Directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the matter
<p>Existence and Valuation of Financial Assets Refer to Note 3: Fair value measurements, Note 7: Investments and Note 8: Deferred tax assets/liabilities</p>	
<p>We focused our audit effort on the valuation and existence of the Company's investment due to the size of the balance. It also represents the most significant driver of the Company's Net Tangible Assets and Profit.</p> <p>As the Company's sole investment is in an unlisted managed investment scheme, there are judgements involved in determining the fair value on investment.</p> <p>We therefore identified the existence and valuation of the investment as an area of focus.</p> <p>The revaluation of investments poses a further audit focus area in relation to the taxation adjustments.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> ▪ Obtaining an understanding of and evaluating the investment management processes and controls; ▪ Assessing the existence and valuation by agreeing the investment units held and the unit price as at 30 June 2020 to the distribution statement; ▪ Obtaining the 30 June 2020 audited accounts of the Fund and performing procedures including: <ul style="list-style-type: none"> - Recalculating Net Asset Value "NAV" and comparing to reported unit price; - Confirming the 30 June 2020 balance of units and movement in units for the class of units and movements in units for the class of units offered to the Company in the Fund; - Considering the appropriateness of the Fund's accounting policies; and - Confirming that the Fund's audit opinion is unmodified. ▪ Evaluating the appropriateness of the accounting treatment of revaluations of financial assets for current/deferred tax and unrealized gains or losses; and ▪ Assessing the adequacy of disclosures in the financial statements.

Other information

The Directors are responsible for the other information. The other information comprises the information in the Company's Annual Report for the year ended 30 June 2020, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially consistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 22 to 24 of the Directors' Report for the year ended 30 June 2020. In our opinion, the Remuneration Report of Plato Income Maximiser Limited for the year ended 30 June 2020, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The Directors of Plato Income Maximiser Limited are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
