

Afternoon Tea Puzzle

Having afternoon tea is a tradition in England started by the Duchess of Bedford in 1840. She was looking for a way to get through the low energy she felt between lunch and dinner. A typical afternoon tea includes finger sandwiches, scones with clotted cream and preserves, cakes and pastries and, of course, hot tea. Color the picture of the English afternoon tea setup below however you'd like, then cut along the dashed lines to make your picture into a puzzle. Share your puzzle with friends and family over a cup of tea, too!
