

**Heehee!
Haha!**

What did the volcano say
after the earthquake?

It wasn't my *fault!*

What did the volcano bring
to the dinner party?

The *plates!*

What did one volcano say
to the other volcano?

I *lava* you!

FUN STUFF Volcanoes

Tongue Twisters!

Say it three times — fast!

Layered lava
lay atop
the leveled land
like liquid lanterns.

Rory watched
the rugged rocks
rumble, which wrecked
the ridge's right rim.

The magma marched
and marred the marsh where
Mary made her mark.

Rhyming Riddles

I am shaped like something
you'd find in your bed.
My rocks form from lava
that's oozy and red.
What am I?

Answer: pillow rock

Deep in the earth,
I'm molten rock, fiery and hot.
You may want to touch me,
but you definitely should not.
What am I?

Answer: magma

I'm shaped like a horseshoe
and frame the sea.
Venture to me and
volcanoes you'll see.
What am I?

Answer: The Ring of Fire

ACTIVITY TIME Explore Outdoors!

Ring of Fire Hopscotch

Many of Earth's volcanoes can be found in the Ring of Fire, a horseshoe-shaped area of the Pacific. Today, play Ring of Fire hopscotch. Use chalk, sidewalk paint, sticks, or whatever you can find to make a hopscotch court in the shape of the Ring of Fire. Invent volcano-inspired pitfalls to avoid. Be the first to make it around the horseshoe without getting "burned"!
