By Alona Lerman
Great book
0 of 0 people found the following review helpful. interesting, but not easy reading
By SpinneyCreek
Really to technical and wordy for me. This book is written in a dialect that was not easy for me go follow. Good information, just not easy reading.
46 of 52 people found the following review helpful. GREAT BOOK - HORRIBLE COVER
By KSM
My mother gave me this book when I was expecting my 2nd child. I loved it. It was my bible for the 9 months of pregnancy. This book helped me to decrease my labor time by over 80%. I would highly encourage any new mothers who are afraid to read this (but cover up the cover before you give it to them). This book, even though written by a man, still today is a guide to natural childbirth and helping a woman naturally through the great miracle of humanity. Once you read it, it requires commitment and dedication to the principles it teaches, but I can tell you it is very worth the effort. Working with your body, instead of fighting it, is the fundamental principle. A must read for any woman expecting. Just cover the front cover with paper, that is if you want the expectant mother to read it. ~KS

In an age where birth has often been overtaken by obstetrics, Dr Dick-Read's philosophy is still as fresh and relevant as it was when he originally wrote this book. He unpicks every possible root cause of western woman's fear and anxiety in pregnancy, childbirth and breastfeeding and does so with overwhelming heart and empathy. Essential reading for all parents-to-be, childbirth educators, midwives and obstetricians!
