# Why are there wars?

## KS1 Activity Pack

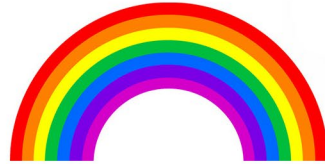

IN PARTNERSHIP WITH

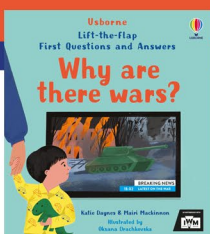

Peace happens when we find every possible way to solve problems without violence.

Here are some of the different symbols for peace.

Can you design your own peace symbol?

# Words of peace

These languages are written from right to left instead of left to right. Copy the words letter by letter. Start from the right, from the top of each letter.

Arabic ("salaam") .....

سلام

Urdu ("umm") .....

امن

Farsi ("solh") .....

صلح

Hebrew ("shalom") .....

שלום

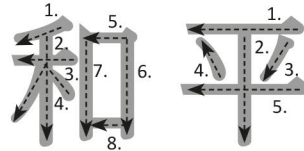

Start from the top left of the *shin* (it looks like a w), draw the outside curve and then add the middle stroke.

These languages are a little trickier.

Here you can see how to write the words, stroke by stroke.

Chinese ("heu-tin") .....

和平

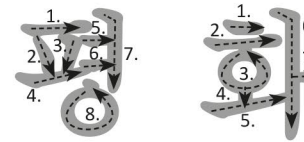

Japanese ("hei-wa") .....

平和

Form the Japanese characters in the same way as the Chinese ones.

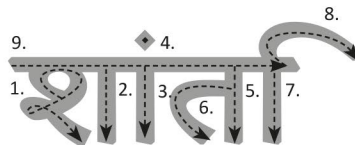

Korean ("pyong-hwa") .....

평화

Hindi ("shaanti") .....

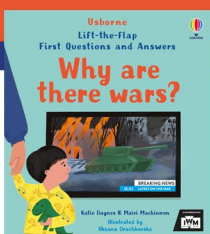

शांति

Bengali ("shanti") .....

শান্তি

Form the Bengali characters in a similar way to the Hindi ones.

# Origami peace dove

Around the world, doves are a symbol of peace, freedom and love.

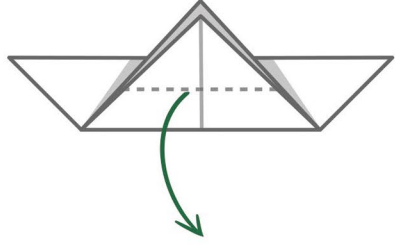

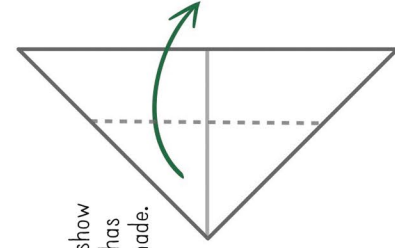

To make your own dove, take a square of white paper and follow these steps.

The dotted lines show where to make the folds.

The solid lines show where a fold has already been made.

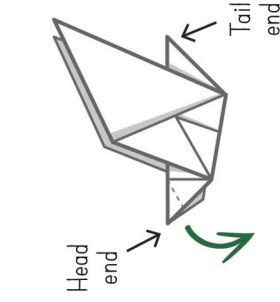

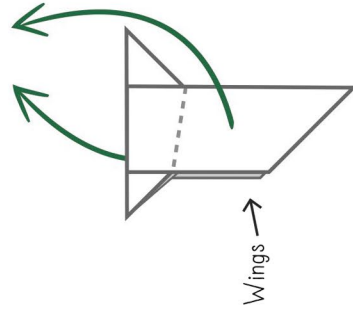

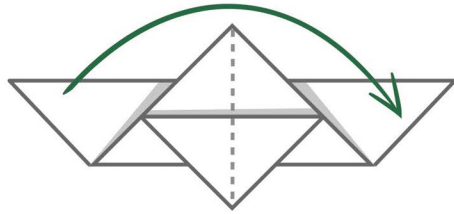

1. Fold and unfold the paper square.

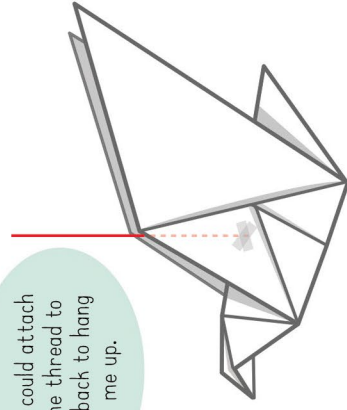

2. Fold it in half the other way, to make a triangle.

3. Fold over the point of the triangle.

4. Then fold back part of the top layer so it looks like step 5.

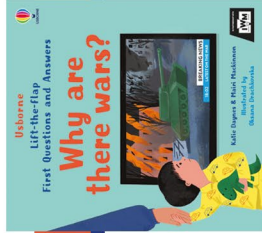

You could attach some thread to my back to hang me up.

5. Now fold in half lengthways.

6. Fold back each length to make two angled wings.

7. Lastly, tuck in the point at the head end and create it to make a beak.
