

Tiger Stadium

For the college football fan, it doesn't get any better than Tiger Stadium. Already considered one of the loudest athletic venues in the world, an additional 11,600 seats were added last season making Death Valley one of the most intimidating stadiums in all of college football.

10.	Auburn	6	491,433	81,906

Once the new East Upper Deck was completed, Tiger Stadium, with a seating capacity of 91,600, became the fourth-largest on-campus football stadium in the country. In the first year of the newly-expanded Tiger Stadium, LSU averaged school-record 87,815 fans a contest, the fifth-highest total in the nation in 2000. Three times last year, LSU drew crowds of 90,000 or more including a school-record

mark of 91,778 against Alabama.

In addition to the new east upper deck, 70 skyboxes, called "Tiger Dens" were built giving Tiger fans luxury accommodations. The addition of the 11,600 seats marked the first expansion to Tiger Stadium since 1978 when the west upper deck was completed.

But stadium size is only part of the story of this cathedral to college football.

Poll after poll have proclaimed Tiger Stadium, known throughout America as "Death Valley," as the greatest site anywhere for a college football game.

In 1998, Sport Magazine named Tiger Stadium "the most feared road playing site in America." And in 1996, ESPN named LSU's pre-game party the best in all of

America. Those surveys supported the previous polls by Gannett News Service in 1995, The Sporting News in 1989 and the College Football Association in 1987 that show Tiger Stadium to be the most difficult place for a visiting team to play.

Indeed, Tiger Stadium is legendary in college football circles for its overflowing, raucous crowds and for uncountable memories that have been spawned inside the mammoth structure.

Last year alone, the goal posts came down twice. Immediately after the Tigers upset then No. 11 ranked Tennessee 38-31 in overtime, the capacity crowd of 91,682 spilled onto the field of Tiger Stadium to celebrate the victory. Hundreds of students lined the sidelines and the back of the north end zone as the Tigers held the Vols scoreless in overtime for the victory.

The goal posts came down again in the final home game of the season as the Tigers posted a 30-28 win over Alabama, their first victory over the Crimson Tide in Tiger Stadium since 1969.

The goal posts came down for the first time in 1997 as all of America witnessed one of the most explosive nights in the history of the grand ol' stadium when the Tigers

upended No. 1-ranked Florida before a national television audience. A sea of Tiger fans swamped the floor of Tiger Stadium as both goal posts came crashing down -- a scene that was replayed countless times in college football highlight shows.

Perhaps the most famous moment in Death Valley history took place on "The Night The Tigers Moved the Earth," October 8, 1988. When Tiger quarterback Tommy Hodson threw to Eddie Fuller for a winning touchdown against Auburn, the explosion of the crowd was so thunderous that it caused an earth tremor that registered on a seismograph meter in LSU's Geology Department across campus.

Then there was the night the Tigers nearly upset No. 1-ranked Southern Cal before a sellout crowd on September 28, 1979. The Tigers came up short, but the crowd roared from kickoff to final gun in a game many ardent LSU followers rank as the loudest in stadium history.

And of course there was Halloween night, 1959, when Billy Cannon made his famous 89-yard punt return to lead No. 1 LSU past No. 3 Ole Miss. Legend has it that families living near the campus lakes came running out of their homes in fear of the noise erupting around them.

THERE'S PROOF IN THE POLLING

1998

Sport Magazine names Tiger Stadium "the most feared road playing site in America."

1996

ESPN proclaims LSU's pregame party to be the best in college football.

1995

Gannett News Service, in a poll of college football head coaches, names Tiger Stadium as the most dreaded road playing site in America.

1989

The Sporting News rates Tiger Stadium No. 1 among "The 10 best places to attend a college football game."

1987

The College Football Association, in a poll of the nation's Division I-A head coach, determines that Tiger Stadium is the most difficult place for a visiting team to play.

Those are the highlights, some of the moments which shaped the character of this great stadium. But week in and week out each fall, a new chapter unfolds in the history of Death Valley.

Tiger Stadium

LSU has averaged 70,968 spectators for each of its 277 battles in Tiger Stadium since the NCAA began compiling official attendance figures in 1957. Last year, 614,704 fans witnessed seven home games in Tiger Stadium.

Since the start of the NCAA's attendance compilations, LSU has finished in the nation's top 10 in average attendance 38 of 43 seasons. The Tigers have drawn 19,658,160 fans since 1957.

LSU's all-time record in Tiger Stadium is a sparkling 318-133-18 (.697), and since the start of football at LSU in 1893, the Tigers have posted a home record of 398-154-19 (.714).

The home of one of football's proudest traditions, this unique structure also once served as a dormitory for approximately 1,500 students, and while Broussard Hall, then LSU's athletic dormitory, was being renovat-

ed during the fall of 1986, the LSU football players lived in Tiger Stadium.

The original phase of construction was completed in 1924. This first phase included the east and west stands, which seated about 12,000. Seven years later (1931), the sides were extended upward to accommodate an additional 10,000 fans, raising the capacity to

Above: As the sun prepares to set on Tiger Stadium on a Saturday evening during the fall, the possibility always exists that more than 91,000 crazed LSU fans will be witness to another brilliant chapter in the stadium's illustrious history.

The Tigers touch the crossbar one final time for luck, then charge the field with the unbridled passion of a Tiger Stadium crowd behind them.

1939: 2-4-0	1955: 2-2-1	1971: 5-2-0	1987: 5-1-1	(.697)

22,000. In 1936, the stadium seating capacity was increased to 46,000 with the addition of 24,000 seats in the north end, making Tiger Stadium into a horseshoe configuration.

The next phase of construction took place in 1953, when the stadium's south end was closed to turn the horseshoe into a bowl, increasing the seating capacity to 67,720.

The upper deck atop the west stands was completed in 1978, and it added 8,000 seats to the stadium's capacity. Additional seating in two club level sections, which flanked the existing press box, brought the total addition to approximately 10,000 seats and raised the stadium's capacity to approximately 78,000.

Refurbishing began on the stadium in the summer of 1985, when the east and west stands were waterproofed, and 25,000 chair back seats were added to replace the older "bench" type seats. Another phase of improvements was completed in 1987, when the north and south stands were waterproofed and newer bleachers were once again installed to replace the older ones.

The playing field was moved 11 feet to the south in 1986, to provide more room between the back line of the North End Zone and the curvature of the stadium fence which surrounds the field. It also put the playing area in the exact center of the arena's grassy surface.

The Tiger Stadium press box was redecorated prior to the 1987 season, and a few more seats were installed at the upper portion of the west lower stands. Also, the stadium's seating arrangement was renumbered prior to the 1987 season, to make all seats a uniform size. The addition of bleacher seating in 1988 brought the capacity to 80,150 and the elimination of some bleacher seating after the 1994 season to accommodate renovated visiting team dressing facilities, and other ensuing seating adjustments, brought the capacity to 80,000, its size until the expansion for the 2000 football season.
