Louisiana State University and Agricultural & Mechanical College has, throughout its 144-year history, served the

people of Louisiana, the region, the nation, and the world. LSU is creating a revolution, one of pervasive change and advancement. For the past five years, the focus of the LSU community has been an increased commitment to excellence.

Our progress has been dramatic and shows no sign of stopping.

Having witnessed many of yesterday's possibilities become today's tangible realities, the LSU community set forth to capitalize on its success. The goal was to improve our standing as a nationally competitive flagship university. Paramount to the success of the “student” half of the term student-athlete is providing LSU athletes with the best possible resources to excel in the classroom. For more than 20 years, the LSU Academic Center for Student-Athletes has helped to build well-rounded student-athletes. But as times change and technology advances, the need for further improvements still exists. As a result, the Cox Communications Academic Center for Student-Athletes opened its doors in November of 2002. A \$15 million renovation to the Gym Armory not only made it among the nation’s premier centers, but put it at the forefront. Improvements to the existing center give LSU student-athletes the best opportunity for success by providing access to the latest technology, as well as an array of expanded services.

Computer Stations

Throughout the Academic Center are 75 computer stations, providing student-athletes with a quiet working environment for research, writing and studying.

Bo Campbell Auditorium

The 1,000-seat auditorium is used through the year as a classroom and lecture hall. Each seat in the auditorium has space for a laptop and a modem hookup, providing each student unlimited learning opportunities. The auditorium also contains a movie theatre-size screen to aid professors with lectures and classroom activities.

The Library

The library provides a perfect setting for individual study, or with a tutor as a group.

Study Area

Included in the 54,000 square feet of the Academic Center are individual study areas as well as 14 private computer rooms for student-athletes to work one-on-one with tutors or by themselves.

COMMUNICATIONS LAB

Along with the success of the LSU Football team, comes a great deal of media attention and Dr. Tommy Karam, the Director of the Communications Lab, uses his lab, located on the fourth floor of the Cox Communications Academic Center for Student-Athletes, to work with LSU student-athletes on their interactions with the media and interview skills. Karam's lab is a mock press conference setting to get the student-athletes used to handling themselves in front of both print and electronic media. He video tapes the mock interview session and reviews it with the student-athlete to help them become more comfortable in an interview setting. Karam also helps the LSU Football players get prepared for the NFL Combine by working closely with those players on the interview process.

Lights, Camera, Answer

Dr. Karam uses his studio to prepare LSU's student-athletes to interact with all phases of local and national media by working one-on-one in a press conference setting. The Communications Lab includes a working camera for Karam to review the session with the student-athletes.
