WALKIN' PETS

by HandicappedPets.com

TOGETHER WE MOVE PETS

At Walkin' Pets, our mission is to provide innovative, medical-grade products to pet care professionals who are working in the field to enable aging, injured, and disabled pets to live happy, healthy lives.

- Mark C. Robinson
President/Founder

Walkin' Pets was founded in 2001 launching a brand that empowers pet lovers to keep pets moving and extend their lives. In the years since, Walkin' Pets has expanded its products to serve pets in all stages of life, as well as disabled, senior, and injured pets. Changing the lives of over a million pets and their parents. As the culture of many countries around the world continues to evolve to include pets as family members, Walkin' Pets continues to establish itself as a presence and resource for pet products that extend life for healthy, active pets.

FULLY ADJUSTABLE DOG WHEELCHAIRS

Help give dogs the exercise they need
to live healthy, active lives!

HOW DO WALKIN' WHEELS WORK?

Walkin' Wheels Rear wheelchairs are for pets who can still use their front legs, while back legs lightly touch the ground or are safely held up in stirrups.

Walkin' Wheels Full Support (4-Wheel/Quad) wheelchairs are for dogs with weakness in their front *and* rear legs.

- 🐾 Simple snap buttons expand the universal frame in length, width, and height
- 🐾 Interchangeable and adjustable snap-in wheels and struts
- 🐾 Top quality, lightweight aluminum frame (*4 sizes*)
- 🐾 Folds flat for easy transport (*medium and large only*)
- 🐾 Wheelchair parts easily replaceable
- 🐾 Air tires available for additional upgrade
- 🐾 Easy to resell because of adjustability

Tire and strut sizes for Walkin' Wheels vary based on each dog and are easily determined here:

THE vertebraVe™

The vertebraVe is THE back-support system for pets. Combining support and comfort in a brace designed specifically for those pets suffering from arthritis or back injuries. The vertebraVe is designed to support the spine and surrounding muscles while still allowing your pet to run, sit and go the bathroom. Using breathable materials and memory foam inlays, this back-support system rivals those used for people.

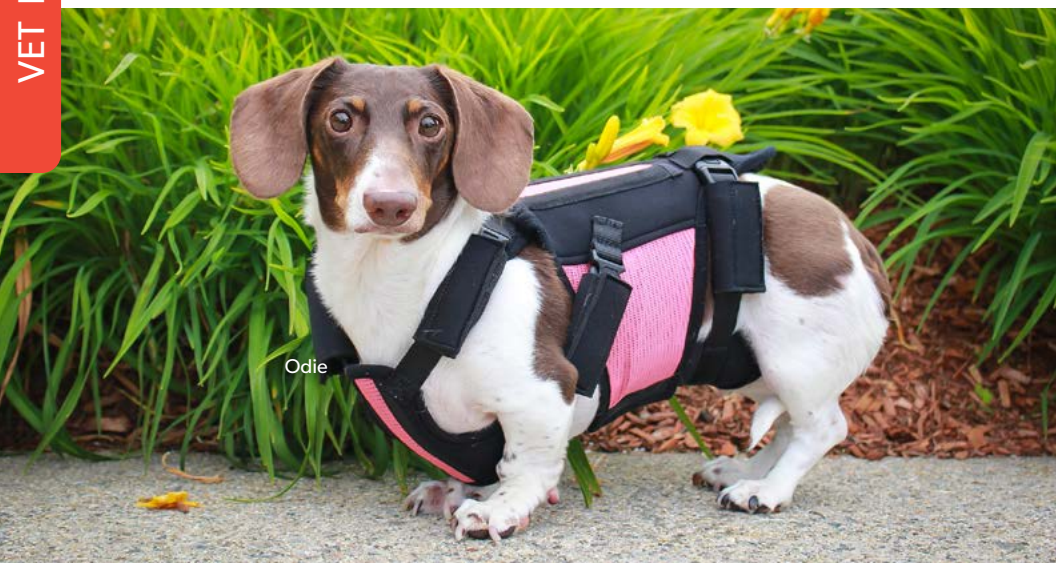

Conditions which may benefit from the vertebraVe:

- Intervertebral Disk Disease (IVDD)
- Back Pain

Available in: Black/Neon Green or Black/Pink

Sizes: XS • S • M • L • XL

WALKIN' FIT® ADJUSTABLE SPLINT

With its patented adjustable fit and unique design, the Walkin' Fit Splint provides complete lower leg stability with customized fit and support to the lower leg. Splint helps stabilize joints for arthritis or injuries and helps promote healing during physical therapy and recovery.

- Fits natural angle of hock on back legs
- Easy to Wear: Simply place paw in the splint with his nails at the edge, and then buckle in place using fastener straps.
- Splints can be used on either Front or Rear Legs.
- Adjustable splint width provides a more custom fit for your pet.
- Adjustable angle will keep pet's leg comfortable and in a normal walking position.
- Provides full, lower leg support and stabilizes hock or carpal joints and under the paw.
- Splint allows weight bearing on a broken or weak limb.
- Customizable splint fit provides convenience for daily wound therapy.
- Lightweight and adjustable design increases the pet's tolerance of splint.
