AWARD MESSAGE

Half way through an already successful FY24 for the Dell Design System (specifically about F&C, DataVis, and Tooling teams) this amazing group of leaders have been doing a terrific job allowing all different parts of the Product Line to work smoothly and consistently making progress towards our goals. Pedro, Leo, Luis, and Victor are leading the Foundations & Components (F&C) team through complex subjects such as Design Tokens, V3 discoveries, DS.Next Gap Analysis, and much more. Pedro, Dan, and Daniel are leading the Data Visualization (DDV) team through the creation of new Chart types (Area and Stacked Gauge), promising new Dashboard Patterns, and much more. Marcelo, Daiana, and Laura are leading the Tooling & Enablement (a.k.a. Platform) team through amazing initiatives including the Decap (separating Content from the Website code), Gated Content feature, Videos gallery page, VS Code plugin, and many Discovery initiatives that will lead to more innovation (including better Support mechanisms for our customers). DDS is only as successful as it is because of your continued commitment to enabling every team member's full potential on all those teams, leading them to success on every task, every day. THANK YOU! YOU ROCK!
