Description

Fixed yet flexible, the DARK FIX Max has a complete set of optical choices for multiple applications. Play with beam spreads, finishes, trim/trimless options, and accessories. These luminaires are typically used in environments where very low glare (UGR <10) is preferred to create an exclusive ambiance and are perfect for hospitality, restaurants, hotels, bars, high-end retail, or specific areas in workplace environments.

Electrical and Control

Voltage	120/277: 120/277 Volts
Wattage Range	6.2 to 43.4 Watts Refer to Wattage Information Table for details.
Control	NO: On/Off Control DIM: 0-10V Dimming 1% PH: Phase Dimming 1%

Environmental

Ingress Protection Rating	IP40
Environment	Damp location (interior applications only)
Operating Temperature (Ceiling Cavity Ambient Temperature)	14 °F to 104 °F

Virtual Patent Marking Notice

This website (<https://www.lmpg.com/patents-trademarks>) is provided to satisfy the virtual patent marking provisions of applicable jurisdictions. Some products listed may be covered by additional patents not referenced here.

Lumencycle™ Program

Lumencycle is a comprehensive program designed to maximize the life of Lumenpulse fixtures while preserving their performance, quality, and design intent. Built around three pillars—Repair, Restore, and Recycle—the program provides clear pathways to maintain existing installations, restore fixtures, and responsibly manage them at end of life. For full program details, visit <https://www.lumenpulse.com/lumencycle>.

Notes:

1. Phase dimming (PH) is only compatible with 120V power.

2. Available for LCWFL and LCENF optics only.

3. Available for LCENF optic only.

4. Available for LCWFL optic only.

5. Available for ENS, LCWFL and LCENF optics only.

6. Available for NS, ENS and LCWFL optics only.

7. Available for all optics, except LCENF.

8. Available for NS, S, NF, FL, WFL, EWFL and LCFL optics only.

9. Available for S optic only.

10. Available for NF, FL and WFL optics only.

11. When NS optic is combined with RM or NC installation types, only L13 and L20 lumen outputs are available. When NS optic is combined with IC installation type, only L10 and L13 lumen outputs are available.

12. Not available for EL accessory.

13. When ENS optic is combined with RM or NC installation types, only L10 and L13 lumen outputs are available. When ENS optic is combined with IC installation type, only L07 and L10 lumen outputs are available.
14. Cannot be combined with accessories.

15. When S optic is combined with RM or NC installation types, only L13, L20 and L30 lumen outputs are available. When S optic is combined with IC installation type, only L13 and L20 lumen outputs are available.

16. When NF, FL or WFL optics are combined with RM or NC installation types, only L13, L20 and L35 lumen utputs are available. When NF, FL or WFL optics are combined with IC installation type, only L13 or L20 lumen outputs are available.

17. Available for L13 and L20 lumen outputs only.

18. When LCFL optic is combined with RM and NC installation types, only L13 and L20 lumen outputs are available. When LCFL optic is combined with IC installation type, only L13 lumen output is available.

19. Not available for EL or DF accessory.

20. When LCWFL optic is combined with RM and NC installation types, only L13 lumen output is available; when LCWFL optic is combined with IC installation types, only L03, L05, L07, L10 and L13 lumen outputs are available.

21. Available for L03, L04 and L07 lumen outputs only; available in IC Installation Type only.

22. Factory installed.
