Description

The Lumenfacade Remote is a high-performance, linear LED luminaire for grazing and flood-lighting facades. It has a remote power supply, which makes the fixture profile very slim and therefore easier to integrate into architecture. Featuring second generation LED technology, the luminaire is available in 12 in, 24 in, 36 in or 48 in sections, and can be configured with a wide number of options including: optics for grazing or flood lighting; a choice of outputs (ASHRAE 4.2 W/ft, RO 7.5 W/ft or HO 15 W/ft); various color temperatures or static colors; various mounting options, finishes, accessories and controls. The Lumenfacade is also available with a unique asymmetric wallwash distribution, providing exceptional uniformity and brightness for walls and signage.
