Color and Color Temperature

Description

The Lumencore Recessed Small Shower Rated is a high-performance LED downlight for ceiling applications in wet locations. Available in an array of trims and finishes, optics, color renderings, accessories, and with a Shower Rated IP55 Dead Front. The Lumencore Recessed Small Shower Rated possesses a previously unseen lifespan, is quick to install, and can be used with a number of different control options.

Physical

Cutout	R: Round
Decorative Bezel	Deep Rollover, Polycarbonate bezel for Dead Front protection
Ceiling Thickness	1: 0.04 in to 1 in Ceiling Thickness 2: 1.05 in to 2 in Ceiling Thickness
Housing Material	Aluminum
Lens Seal Material	Silicone
Gasket Material	Urethane foam
TIR Optics Material	Clear polycarbonate
Reflector Material	Aluminum
Bezel Material	Polycarbonate
Weight	3.4 lbs with RM installation type, 4.75 lbs with NC installation type, 10.8 lbs with PC, IC, IC/AT and RMR installation types (Weights are approximate based on the heaviest fixture configuration)

Please consult factory if exact fixture weight is needed

See Installation Type section for dimensional view of keep out and/or MTG mounting kit option.  
Above dimensions include any keep out requirements for proper airflow and thermal cooling.

Installation Types

RM: Remodel Non-Insulated Ceiling (Non-Plenum Rated) (NO, PH, ES and ESP Controls Only)

L30 CR90/95, L40 CR80/90 and L50 CR90 shown.

RM: Remodel Non-Insulated Ceiling (Non-Plenum Rated) (DALI8, DMX/RDM and LT Control Options Only)

L30 CR90/95, L40 CR80/90 and L50 CR90 shown.

RM: Remodel Non-Insulated Ceiling (Non-Plenum Rated) (Other Controls)

L30 CR90/95, L40 CR80/90 and L50 CR90 shown.

NC: New Construction Non-Insulated Ceiling (Non-Plenum Rated)

L30 CR90/95, L40 CR80/90 and L50 CR90 shown.

IC, PC, IC/AT: New Construction Insulated and Non-Insulated Ceiling (Enclosed Box)

L30 CR90/95, L40 CR80/90 and L50 CR90 shown.

RMR: Remote Recessed Insulated Ceiling/Plenum (Enclosed Box)

Luminaire ceiling cavity space requirements for L13 CR80/90/95 and L20 CR80/90/95 shown. Refer to remote driver box dimensions in installation instructions for space required for driver.

Remote distance is a maximum of 75 ft, consult Lumenpulse Application Engineering Team for longer remote distances.

Fixture shown for reference only. Refer to Ceiling Requirements section and installation instructions for dimensions and ceiling cutout requirements.

Ceiling Requirements

Ceiling Cutout

- A - Ceiling cutout: Ø4.5 in
- B - Ceiling cutout: 4.5 in x 4.5 in
- C - Maximum ceiling thickness: 2 in
- D - Minimum ceiling height: refer to Ceiling Cavity Space Requirements table

Ceiling Thickness Options

Ceiling Thickness 1

A - Ceiling thickness range: 0.04 in to 1 in

Ceiling Thickness 2

B - Ceiling thickness range: 1.05 in to 2 in

Ceiling springs are field changeable, consult installation instructions and factory for details.

Dimensions

L07, L10, L13, L20 (CR80/90/95)  
L30 (CR80)

Round ceiling cutout: Ø4.5 in

Beam Cutoff Angle

DR - Deep Rolled Over

Delivery - How it Works

Standard Shipping (1 delivery)

Included

- 1. MTG Mounting kit and complete fixture assembly

Advanced Shipping of Mounting kit (2 Separate Deliveries)

Included

- 1. Optional advanced delivery: MTG Mounting kit and ceiling mounting ring
- 2. Second delivery: LUM Core (heatsink, universal fixing ring, LED module, optic, optical accessory, decorative bezel)

Consult factory for Advanced Shipping details.

Ceiling Cutout Shape Options

RD - Round Ceiling Cutout

Decorative Bezel Options

RD - Compatible Round Decorative Bezels

DR - Deep rolled over  
(plastic material for "Dead Front"  
shower applications)

Standard Finishes - Decorative Bezels

SH - Shower

MWH - Matte white

MBK - Matte black

Optical Accessories

HL - Honeycomb Louver

SL - Softening Glass Lens

PD – Prismatic Diffuser

LSN - Linear Spread Lens Narrow (1° x 40°)

LSW - Linear Spread Lens Wide (1° x 60°)

BW1 - Beam Widening Lens (+10°)

Refer to Beam Widening Lens table for beam distribution based on optic installed in the fixture.

BW2 - Beam Widening Lens (+20°)

Refer to Beam Widening Lens table for beam distribution based on optic installed in the fixture.

BW3 - Beam widening lens (+30°)

Refer to Beam Widening Lens table for beam distribution based on optic installed in the fixture.

The accessory is mounted behind the silicone-sealed glass lens of the fixture. An additional accessory is factory installed and cannot be changed in the field.

Optical Accessory (Factory Installed, Not Field Changeable)

One Optical Accessory Installed

Optics

TIR Optic - Total Internal Reflection

Applicable to XN (5°), VN (10°), NS (15°) and N (25°) distributions.

Semi-Specular Reflector

Applicable to NR (25°), M (40°), W (60°) and VW (80°) distributions.

Faceted Reflector

Applicable to NFR (25°), MFR (40°), WFR (60°) and VWFR (80°) distributions.

Beam Widening Lenses

	Optic installed in fixture											
	XN 5°	VN 10°	NS 15°	N 25°	NR 25°	NFR 25°	M 40°	MFR 40°	W 60°	WFR 60°	VW 80°	VWFR 80°
BW1	11°	13°	17°	30°	30°	30°	41°	41°	61°	61°	81°	81°
BW2	21°	22°	24°	34°	34°	34°	45°	45°	63°	63°	82°	82°
BW3	30°	31°	33°	41°	41°	41°	50°	50°	67°	67°	85°	85°

The above beam angles are nominal beam angles.  
Variations in beam angles can be seen due to different LES sizes. For exact beam calculations please consult factory.  
Beam widening lenses should not be used with other accessories with the nominal results above.

Interchangeable Optics

Options

EBB - Emergency Battery Backup With Hanger Bar (Bodine BSL17C-C2)

Hardware to mount the battery backup to the hanger bar is included. A test button is included. The unit comes pre-wired with 2 ft flexible conduit in and out. Refer to installation instructions for details.

EBI - Emergency Battery Backup With Hanger Bar (Iota ILB-CP07-A TBTS)

Hardware to mount the battery backup to the hanger bar is included. A test button is included. The unit comes pre-wired with 2 ft flexible conduit in and out. Refer to installation instructions for details.

Diagnostic And Addressing Tools (Order Separately)

LID - LumenID

The updated LumenID (LID) is now your all-in-one diagnostic and addressing solution for both DMX/RDM and Lumentalk (LT) systems. Engineered for versatility, it streamlines commissioning and troubleshooting across protocols—no need for multiple tools. Consult the LID specification sheet for full details.

Control Systems (Order Separately)

PHAROS - Pharos® Designer Lighting Control Kit

The Pharos Designer Lighting Control Kit, available for 1 or 2 DMX universes, allows for complete control of large lighting installations.

EXPERT - Pharos® Expert Control Kit

The Pharos Expert Control Kit, available for 1, 2, 4 or 6 DMX universes, allows for complete control of large lighting installations.

Notes:

1. Refer to website product configurator for all exceptions.

2. Refer to website for ENERGY STAR certified product configurations.

3. IP55 rated, suitable for "Dead Front" shower rated locations.

4. Also suitable for IP54 applications. IP55 rated product can be used for interior ceiling mounted or exterior canopy-mounted applications. Consult factory and check all local codes and thermal conditions for proper specification.

5. Not available for 700 lumens. Not available for 1000 lumens when combined with 80 color rendering option.

6. Not available for XN and VN optics.

7. Not available for DTW, DTWP, DWH, DWW or DWWP color options.

8. Not available for ENERGY STAR certification.

9. Not available for CR90.

10. For ENERGY STAR certification, not available with RM or NC installation types when combined with 90 color rendering option.

11. For ENERGY STAR certification, not available with 90 color rendering option.

12. Available for NR, NFR, M, MFR, W, WFR, VW and VWFR optics only.

13. Not available with PC, IC, IC/AT or RMR installation types.

14. Available for RM and NC Installation Types only.

15. Available for CR90 only.
16. Available for CRI 80 only.

17. Compatible with all control options except for DALI8.

18. Available for 1000, 1300 and 2000 lumens when combined with 90 color rendering option and NR, NFR, M, MFR, W, WFR, VW or VWFR optics only.

19. NFR, MFR, WFR and VWFR faceted reflector optics are recommended for optimal performance.

20. Compatible with DA1, ES, SDAL1, SDAL2, DMX/RDM and LT control options only.

21. Compatible with LT, DMX/RDM and DALI8 control options only.

22. Available for 1300 lumens when combined with 80 color rendering option and NR, NFR, M, MFR, W, WFR, VW or VWFR optics only.

23. Available for 700 lumens when combined with 80 or 90 color rendering options and 27K, 30K, 35K or 40K color temperature options only.

24. Available up to 1300 lumens when combined with 80 or 90 color rendering options and 27K, 30K, 35K or 40K color temperature options only.

25. Available up to 2000 lumens when combined with 80 color rendering option. Available up to 1300 lumens when combined with 90 or 95 color rendering options.

26. Available up to 2000 lumens when combined with 80, 90 or 95 color rendering options.

How to Order

Notes:

5. Not available for 700 lumens. Not available for 1000 lumens when combined with 80 color rendering option.
6. Not available for XN and VN optics.
7. Not available for DTW, DTWP, DWH, DWW or DWWP color options.
8. Not available for ENERGY STAR certification.
27. Control options vary according to color temperature, color rendering, optics and installation type combination. Refer to website product configurator for details.
28. Manufacturer's choice driver. Order code may change to NO1.
29. Not available with 347V.
30. Manufacturer's choice driver. Order code may change to DAMC1 or DAMC2.
31. Not available for XN and VN optics.
32. Available up to 3000 lumens when combined with 80 color rendering option. Available up to 2000 lumens when combined with 90 or 95 color rendering options.
33. Driver cuts off power to the fixture when the control signal drops below 0.5V.
34. Manufacturer's choice driver. Order code may change to PH1 or PH2.
35. Available for 120V voltage option only.
36. Manufacturer's choice driver. Order code is subject to change.
37. Not available for 700 lumens.
38. Not available for N, NR, NFR, M, MFR, W, WFR, VW and VWFR optics when combined with 1000 lumens.
39. Not available for 5000 lumens when combined CR80.
40. One EcoSystem® address per fixture. Available for static white color temperature options and DTW, DTWP color options only.
41. Available for 3000 lumens and 4000 lumens only.
42. One EcoSystem® address per fixture. Lutron® EcoSystem® Enabled dimming not available for 1300 lumens combined with VN optic. Available for static white color temperatures only.
43. Not available for 3000 and 4000 lumens.
44. Consult factory for CA control option.
45. Not available for 700 and 1000 lumens.
46. Requires Caseta Wireless Dimmer PRO Wall Dimmer.
47. Available for RM, NC And RMR installation types only.
48. When used with RMR installation type, the installer is responsible for verifying the wireless distance limitations of the main controller to the remote driver installation.
49. Available for DWH, DWW and DWWP color options only. DALI-2 Type 8 controller required.
50. Not available for PC, IC or IC/AT installation types.

51. Configurable between 8 or 16-bit dimming control via RDM. DMX/RDM requires LumenID, LumenID software and onsite commissioning.
52. A Control Box (CBX-DS or CBX-ST) and LumenID (LID) must be specified.
53. Configurable to 1, 2, or 3 channel control via RDM in the field.
54. A Lumentranslator 2 (LTL2) and LumenID (LID) must be specified for Lumentalk applications. Consult Lumentranslator 2 and Lumentalk pages and specification sheets for details.
55. For ENERGY STAR certification, not available with RM or NC installation types.
56. For ENERGY STAR certification, not available with PC, IC or IC/AT installation types when combined with 90 color rendering option.
57. Available for 700 lumens when combined with XN optic and up to 1300 lumens when combined with VN. Available up to 2000 lumens when combined with NS and N optics. Available up to 4000 lumens when combined with NR, NFR, M, MFR, W, WFR, VW and VWFR optics. Refer to optic option notes for color rendering limitations.
58. Available for 700 lumens when combined with XN optic. Available up to 1300 lumens when combined with VN and NS optics. Available up to 2000 lumens when combined with N, NR, NFR, M, MFR, W, WFR, VW and VWFR optics. Refer to optic option notes for color rendering limitations.
59. Not available for 2000 lumens when combined with DTW and DTWP color options.
60. Not available for DWH, DWW or DWWP color options.
61. Remote distance is a maximum of 75 ft. For longer remote distances, please contact Lumenpulse Application Engineering Team for application validation.
62. Ceiling springs are field changeable, consult factory and installation instructions for details.
63. The silicone-sealed glass lens is always installed by the factory, not field changeable. Maximum one additional accessory per fixture.
64. Not available for DTW and DTWP color options.
65. For ENERGY STAR certification, not available with RM or NC installation types when combined with 90 color rendering option combined and 2000 lumens.
66. Recommended for XN, VN, NS, N, NR and NFR optics when combined with 2200K, 2700K, 3000K, 3500K, 4000K color temperature options. Nominal 10° x 40° distribution when used with the NS optic. Available for NFR optic when combined with DTW, DTWP, DWH, DWW or DWWP color options only.
67. Recommended for XN, VN, NS, N, NR and NFR optics when combined with 2200K, 2700K, 3000K, 3500K, 4000K color temperature options. Nominal 10° x 60° distribution when used with the NS optic. Available for NFR optic when combined with DTW, DTWP, DWH, DWW or DWWP color options only.
