Description

The Lumenbeam Medium Pendant Dynamic White is an IP66-rated suspended luminaire for high-ceiling applications such as airport terminals and public atriums, with a special feature that enables the selection of any color temperature from 2200K to 3000K or from 2700K to 6500K. This dynamic feature gives designers and their clients the freedom to alter the ambience of a space in response to the time of day or the way a space is used. A number of other options are on offer: optics for flood or accent lighting as well as various stem lengths, accessories, spread lenses, and controls. The luminaire also has an anti-corrosion option for use in harsh, chemical, or coastal environments.
