Lumencool™ Technology

Lumencentro's innovative design uses Lumencool technology to regulate temperature and increase outputs. Lumencentro's allows air to flow between the driver and the LED board, maximising the surface area, increasing output and lifetime.

Water Management

Designed to run the rain off, keeping the interior bone dry, while simultaneously letting the heat out.

Heat Management

Lumencentro raises the bar on heat management to achieve higher lumen outputs, a longer life, and a better quality of light and efficiency.
