

Krasimir Tsonev

Senior Engineer

My expertise

- ★ 15+ years of experience
- ★ Master and bachelor degree in CS
- ★ Author of 5 **books**, 50+ articles, 500+ **blog posts**
- ★ 56 **presentations** in 9 countries
- ★ 21,000 stars on **GitHub**
- ★ 13,000+ reputation on **StackOverflow**

I am a senior software developer with over 15 years of experience in web development. My current career goal is to collaborate in building complex web applications. With a solid technical background I like to switch between Back-End and Front-End. I have a passion for open-source projects, public speaking, and actively participating in the development community.

Education

Technical University Varna

Master of Computer Systems and Technologies

Technical University Varna

Bachelor of Computer Systems and Technologies

Professional technical school "Tsar Simeon Veliki"

Work Experience

Antidote.me (United Kingdom) / 2014 – Present

Senior engineer

Full-stack development using React, Node.js, TypeScript, Docker, Kubernetes, GCP, and more.

East Interactive (Finland) / 2011 – 2014

Web developer

Full-stack development using mainly the LAMP stack.

Freelaner / 2009 – 2011

Web designer and developer

Full-stack development, design, PM, sales, marketing

Knassar (Faroes Islands) / 2008 – 2009

Web developer

Full-stack development using the LAMP stack

Design.bg (Bulgaria) / 2006 – 2008

Web designer and developer

Graphic design, Front-end development using Flash and ActionScript 2/3

Advertising center Extreme (Bulgaria) / 2004 – 2006

Web designer and developer

PHP/mysql developer, Graphic design, Full-stack development using the LAMP stack

Projects

50 Tips on JavaScript (Book)

Self-publish

React in Patterns (Book)

Self-publish

Node.js blueprints (Book)

Publisher: Packt

Node.js by example (Book)

Publisher: Packt

10 lessons in FE (Book)

Self-publish

Lumina (SaaS)

A CMS as a service.

Daskalo.dev (SaaS)

A platform for video lessons on programming.

Contempas (SaaS)

Platform for scheduled social media marketing.

Duma.fun (Game)

Wordle in Bulgarian

OS projects

200+ open source projects

Technical Skills

Buzzwords:

Front-end development Back-end development HTML CSS/SASS/LESS JavaScript
TypeScript Node.js React.js Redux/redux-saga styled-components Jest/Enzyme/RTL
Playwright Google Cloud Platform Firebase MySQL/PostgreSQL MongoDB Docker
Kubernetes

My technical skills encompass a wide range of technologies due to the rapidly evolving nature of the web. Throughout my career, I have worked with various tools and frameworks. I have experience with Flash and ActionScript 2/3, LAMP projects, jQuery, Backbone, ExtJS, MooTools. I have experimented with Angular, Ember, and Knockout, but my preferred framework is React and its ecosystem. Last years I'm focusing on building everything with JavaScript/TypeScript. I feel comfortable working on the both back-end and front-end.

Over the years, I have worked on diverse projects, gaining intermediate knowledge in Unix and server administration. I have configured Apache and nginx and have worked with both SQL and NoSQL databases. Recently, I have been using Docker and Kubernetes within Google's cloud platform. I am proficient in using Git and various command-line instruments to automate workflows.

It's worth mentioning that my career started as a graphic designer using tools like Photoshop and CorelDRAW. I gradually transitioned to "web design" and then shifted towards programming roles.
