Victor Carrasco

Born in Valencia (Spain) in 1974, Victor Carrasco began his professional career after graduating Cum Laude in Industrial Design Engineering at the Polytechnic University of Valencia.

Shying away from trends and fads, he has developed and positioned international brands with remarkable added value, thanks to his passion for synthesis, sustainable growth and his pragmatic vision of the future.

Since 2007, he has been combining his position as strategic director of Viccarbe with that of Director Business Development for the prestigious American multinational Coalesse (Steelcase Inc.). Likewise, as an industrial designer, he has collaborated with numerous international companies.

He was the recipient of the Prince Felipe Award for Business Excellence and he has also won the German Design Award.

Maarten
Table

2014 — Maarten is a design that allows us to have infinite uses, as well as apply as many different finishes and measures as we need for our spaces. Its synthesis and minimalist character contrast with the ease of connection with the user. This family of tables knows how to put values such as closeness into practice.. It does not conform to usual shapes like a circle or a rectangle.Its surfaces range from large diameters to reduced widths, always with perfectly imperfect shapes, which are capable of going beyond the norm and approaching the most human facet of design.

On this page, a picture of Maarten table stained in matt oak with Maarten chairs, swivel wooden base. On the right, a picture of Maarten table with rectangular table top in white finish. Maarten Plastic chairs, sled base full white

MAARTEN TABLE, NOW WITH CASTERS

Focusing on the needs of our users, today we welcome the family to the new Maarten with casters, designed for agile and, in short, multipurpose spaces.

It is designed for homes that become offices for half a day, for offices that momentarily become spaces dedicated to the practice of the sport with which one can free the mind. It is also intended for schools where students either organize themselves into large groups or work on individual assignments, for cafés that, during the week, function as co-working spaces and as spaces dedicated to recreation and distraction during the weekend. The combinations will be as varied as ingenuity suggests. However, the common denominator will always be ease of movement and space transformation.

Up to 8
160 cm | 62.99"

**Seats calculated using Aleta chair, might differ when choosing other models*

LEG OPTIONS

Stained solid wood / metal legs - In heights of 30 or 74 cm, made from calibrated steel, powder coated in thermoreinforced polyester. Available in white, black, fluorescent orange or a stained oak veneer with the finishes of our collection.

Wire management - The Maarten table allows the possibility to manage the wiring so that it is hidden and integrated into the table. For this purpose, the cable management leg (MAAPMER) is available as an option. The leg allows up to 4 cables to be routed inside the table down to the floor.

Casters with brakes - Only for table height 74 cm

TABLETOPS MATERIALS

MDF - STAINED & LACQUERED

The 30 mm thick cover or work surface is made with microtextured MDF. It is lacquered with one of our collection's finishes. It also comes with a solid oak veneer, stained in mate, cognac or ash.
