MEA
'Line of light'

Designed by Peter Straka
Vienna 2007

Light in its most minimal form: the linear lamp as an aesthetic object, anchored at both ends. The optional back plate mirrors the reflection.

* On very rare occasions, these lamps may appear to have a slight buzzing or flickering. As is the case with all retro LED lamps, this is likey casued by a number of outside influences such as incorrect installation, wiring, dimming or transformers and in some instances low electrical resistance.

** Please contact sales@kaialighting.com for further information on dimmers etc. Please note KAIA Ltd cannot take any responsibility for the connection with your dimming or central control system. It is the customer's responsibility to ensure the compatibility with their systems.
