We develop the solution. You store and organize.

PT

As gamas AccessCode e LOK são as propostas da Guialmi para a criação de áreas de arquivo e armazenamento de informação, documentação e itens pessoais, através de soluções modulares e que respondam a variadíssimos tipos de necessidades, tanto do ponto de vista das dimensões como da organização desses mesmos módulos. Tanto uma gama como a outra, apesar das suas diferentes orientações, dispõe de vários tipos de opções, entre elas vários sistemas de fecho.

ES

AccessCode y LOK son las propuestas de Guialmi para la creación de áreas de archivo y de almacenamiento de la información, documentación y artículos personales, a través de soluciones modulares, que responden a variadas necesidades, desde el punto de vista de las dimensiones y de la organización de esos mismos módulos. Las dos gamas de productos, aunque tengan diferentes características, presentan varios tipos de opciones, por ejemplo, varios sistemas de cierre.

EN

The AccessCode and LOK series are Guialmi's proposals for the creation of archiving and storing areas for information, documentation and personal items. This is achieved through modular solutions that meet a wide variety of needs, both in size and in organization of the modules. The two series present several options, such as several locking systems, regardless of its different orientations.

FR

AccessCode et LOK sont les propositions de Guialmi pour la création de domaines d'archive et stockage d'informations, documentation et effets personnels, à travers un système modulaire qui répond à nombreux types de besoins: les dimensions ou l'organisation des modules. Ces gammes, malgré leurs orientations différentes, possèdent plusieurs types d'options, par exemple, divers systèmes de fermeture.

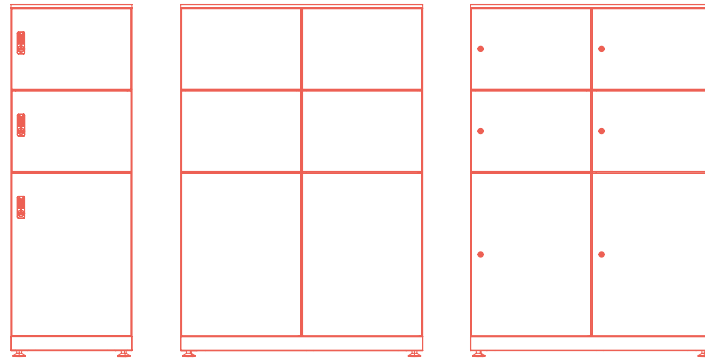

AccessCode

Lok

AccessCode

AccessCode é um novo sistema de armários desenvolvido pela GUIALMI. O sistema apresenta uma estética elegante e contemporânea, além de vários mecanismos de bloqueio que acrescentam tecnologia e eficiência operacional à equação. O sistema também possui mecanismos de bloqueio alternativos (mecanismos de código, sistemas de chaves numeradas ou até mesmo etiquetas RFID). No que diz respeito ao tipo de edifício e aos clientes que podem beneficiar com o sistema, a possibilidade de utilização do AccessCode é quase ilimitada. Espaços como empresas privadas, estabelecimentos de ensino, bibliotecas e tantos outros onde armazenar é uma exigência. Facilidade e segurança são extras oferecidos pela AccessCode.

AccessCode es el nuevo sistema de taquillas desarrollado por GUIALMI. El sistema tiene la estética sana y contemporánea y algunos mecanismos de cierre que aporta tecnología y eficiencia operativa a la ecuación. El sistema se centra en mecanismos de cierre también alternativos (mecanismos de código, sistemas clave o tarjetas RFID). Los usos de AccessCode son casi ilimitados, tanto en la construcción como para los clientes que podrían sacar provecho del sistema: empresas privadas, instalaciones educativas, bibliotecas y muchos otros donde guardar es el requisito. AccessCode proporciona seguridad y facilidad de manejo.

AccessCode is a new system of lockers developed by GUIALMI. The system has a clean and contemporary aesthetics and several locking mechanisms that bring technology and operating efficiency to the equation. The system features also alternative locking mechanisms (code mechanisms, numbered key systems or even RFID tags). The use of AccessCode is almost unlimited when it comes to the type of building and customers that could profit from the system. Spaces such as private owned companies, educational facilities, libraries and many others where to store is a requirement. Easiness and security are extras that AccessCode offer.

AccessCode est le nouveau système de casiers développés par GUIALMI. Ce système a une esthétique propre et contemporaine et plusieurs mécanismes de fermeture qui apportent la technologie et l'efficacité d'exploitation à l'équation. Le système dispose, encore, de mécanismes de verrouillage alternatifs (des mécanismes de code, des systèmes clés numérotés ou même marqueurs RFID). Les utilisations d'AccessCode sont, presque, illimitées en ce qui concerne la construction et les clients qui pourraient profiter du système : entreprises privées, installations éducatives, bibliothèques, et beaucoup d'autres où stocker est une exigence. AccessCode offre simplicité et sécurité.

Lok

LOK é a proposta da GUIALMI para cobrir as necessidades das diferentes organizações em sistemas de vestiários - vestiários normais, vestiários com separação da roupa pessoal da de trabalho, vestiários com portas em Z e vestiários com cacifos sobrepostos. Diferentes opções de cor, de sistemas de fecho e de bases, reforçam a adequação do posicionamento de LOK como um produto "good value for money".

A gama de vestiários LOK está certificada pelas normas Europeias.

A LOK conta atualmente com uma ampla gama de opções, sendo a principal os variados sistemas de fechos que aumentam a capacidade de adaptação desta gama aos mais variados tipos de espaços.

Está também disponível uma ampla coleção de bancos para vestiários.

LOK es la propuesta de GUIALMI para cubrir las diferentes necesidades de las organizaciones en el capítulo de taquillas y ropero. Taquillas convencionales, con separación de la zona de trabajo de la zona personal, puertas en Z o compartimentos superpuestos completan la gama LOK, una de las más amplias del mercado. Múltiplas posibilidades en cuanto a colores, sistemas de cierre y bases refuerzan el posicionamiento de LOK como un producto con una inmejorable relación calidad/precio.

La gama de taquillas LOK está certificada bajo las normativas Europeas.

LOK cuenta, ahora, con una gran variedad de opciones, pero su plusvalía son los sistemas de cierre, aumentando así la capacidad de adaptarse a los más distintos espacios. También se encuentra disponible una amplia gama de bancos para vestuarios.

LOK it's an offer of GUIALMI to cover the needs of different organizations, concerning to locker cabinets - normal locker, locker with separation for personal clothes from the work clothes, locker with Z doors and locker with overlapped compartment. Different options of colors, closing system as well of bases, reinforce the adaptation of LOK as a product of good value for money. The LOK range is certified according to European standards. LOK currently has a wide range of options, the main being the several locking systems that increase the ability of adaptation to the most diverse spaces. A wide collection of changing room benches is also available.

LOK est une offre de GUIALMI dans le sens de couvrir les besoins des différents organisations concernant le vestiaires - vestiaires normaux, vestiaires avec séparations du linge personnel et de travail, vestiaires avec portes en Z et vestiaires avec demi casiers.

Plusieurs possibilités de couleurs de peinture, système de serrure et socles, renforcent le positionnement de LOK comme un produit d'excellente relation qualité/prix.
