ADJUSTABLE SERRATED FOOT PEGS

PART# DESCRIPTION

08-56-1 LONG, BLACK

08-56-2 LONG, ALUMINUM

08-57-1 SHORT, BLACK

08-57-2 SHORT, ALUMINUM

NOTE: USE BLUE OR RED LOCTITE ON ALL HARDWARE

DISCLAIMER: Joker Machine denies any responsibility for any issues that may be caused from failure to use liquid thread locker on all hardware listed below.

- 1. Adjust footpeg to desired position and install 5/16-18 SOCKET CAP SCREW using blue or red Loctite.
- Tighten the 5/16-18 SOCKET CAP SCREW firmly, but be careful not to strip the screw.
- 3. Once the peg is securely in place firmly tighten the 1/4-20 POINTED SET SCREW using blue or red Loctite.
- 4. Use our exclusive 10-24 PITCH ADJUSTMENT SCREW that enables you to change the angle of the peg in order to adjust it to a "level" riding position (if necessary) so the pegs don't appear to "lay down" with time, vibration, etc.
