Inhalation Move to fresh air. Oxygen or artificial respiration if needed. Medical examination necessary even only on suspicion of intoxication. Persons who have inhaled the gas or fumes produced in a fire or who have come into contact with the substance may not show immediate symptoms. They should be taken to a doctor with this card. Patient must be kept under medical supervision for at least 24 hours.

Skin contact May cause frostbite. Wash off immediately with plenty of water. Remove contaminated clothing and shoes. Consult a physician for severe cases.

Eye contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Call a physician immediately.

Ingestion Rinse mouth. Drink 1 or 2 glasses of water. Do not induce vomiting. Medical examination necessary even only on suspicion of intoxication.
