

MOUNTING SUGGESTIONS:

Indian Scout 2015 Solo and Passenger Seat

Hardware:	Solo seat: <i>none</i>	Passenger seat: 8mm x 15mm buttonhead screws x 3
Tools needed:	6mm Allen wrench	

Removal of Stock Seat:

Tug the front of the stock seat up firmly to disengage the seat from the front mounting pin, then lift the seat up and back to remove it from the motorcycle.

Installation of Mustang Seat:

1. If installing both solo and passenger seats, the passenger seat must be mounted first. Position the passenger seat on the fender so the front black bracket aligns with the two threaded holes on either side of the large stud on the front of the fender, and the chrome rear bracket aligns with the rear fender mount.
2. Secure the passenger seat to the fender using the three supplied 8mm x 15mm buttonhead screws.

3. Holding the solo seat parallel to the frame, engage the solo seat's rear bracket with the fender stud.

4. Ensure the rubber grommet aligns with and engages the frame stud behind the tank, and press firmly down at the nose of the seat. This is a pressure-fit connection. Ensure the seat is secure before riding the motorcycle.

Enjoy the comfort and custom look of your new Mustang seat!

These steps are guidelines to help you install your new Mustang product. If you need further assistance, please call us at 800-243-1392 or 413-668-1100, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to questions@mustangseats.com or visit our website at www.mustangseats.com.

For care and maintenance of our seats, please go to our website under "Support".

You are cordially invited to
— Tour the Mustang Factory —

See how our craftspeople take pride in transforming raw materials into the world's highest quality, most comfortable handcrafted seats. Please contact Mustang for more information regarding tours of our historic Three Rivers, Massachusetts, facility (only 75 miles west of Boston; 150 miles northeast of New York City). Our two hour tours are by reservation only; we can accommodate groups from 2 to 24. We promise you will ride away with an entirely new awareness of what you put between you and your bike.
