STEP 1 Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn IGN OFF.

STEP 2 Remove the existing mirrors.

Refer to PIC 1. It may be necessary to loosen or remove the lever mount and rotate it rear ward to gain enough clearance to un-thread the existing mirrors.

Use a piece of masking tape and a marker to mark the location of the lever mount.

NOTICE AVOID DAMAGE TO THE MOTORCYCLE. PROTECT PAINTED SURFACES WITH A SOFT CLOTH OR BLANKET.

STEP 3 Refer to PIC 2 and 3. Thread one of the included Raised Mirror Adapters into the mirror mount hole.

Ensure that the jam nut has been threaded all the way to the top of the threads; this will allow for the most thread engagement in the lever mount.

Leave the Adapter and jam nut loose for now to allow for adjustment.
