

## SUPER SUCTION TECHNOLOGY

Looking to mount your WASPcam to your helmet, but don't want to use 3M tape? WASPcam's new SST Suction Cup Mount is the perfect solution.

WASPcam's new patented SST Suction Cup mount can be mounted on almost every solid surface, flat or curved, it doesn't matter. The SST mount will stay stuck at speeds over up to 200mph (321km/h). Part #9800.

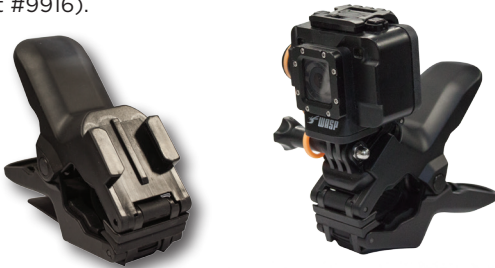

## JAWS CLAMP MOUNT

Clamp your WASPcam to a variety of different objects with part #9917 Jaws Clamp Mount.

Allows users to clamp their WASPcam to objects ranging from **0.25" to 2" (0.6cm to 5cm)** in diameter. The Jaws Clamp Mount is great for mounting your WASPcam to irregular objects, or objects that are too thin for regular bar mounts.

Want more height for your mounting system? A Flex Rod option is also available with the Jaws Clamp (Part #9916).

WASPcam has **TONS** of cool and innovative mounts and accessories to make sure you never miss a moment! For our complete line of mounts and accessories, visit: [www.waspcam.com](http://www.waspcam.com)

### #9809 Outdoor Utility Mount

The WASPcam Outdoor Utility mount has over 30 different outdoor activity uses, such as mounting your WASPcam to a gun, bow, fishing rod, or any tube with a 0.4" to 0.9" diameter. Includes: 1x Mount Clamp, 1x Single Camera Platform, 1x Dual Camera Platform, 2x Plastic Mounting Screws, 2x Straight Joint Mounts (2 different sizes).

### #9974 WASPcam Travel Case

Keep your WASPcam camera, mounts and accessories safe and sound with this padded travel case. Includes interior foam padding, cut out to fit various accessories.

### #9981 Adjustable Chest Mount

An excellent mounting system for any sport or activity, the Chest Mount captures an immersive and interesting perspective of wide-angle action. Easily adjustable, the Chest Mount fits youth and adults alike.

# WASP<sup>TM</sup> CAM 9905

**WASPcam 9905 Wi-Fi**

The WASPcam 9905 Wi-Fi is WASPcam's newest camera model, with the same great specs you expect from WASPcam, but with a few new features. The new WASPcam 9905 Wi-Fi gives users the freedom to Film, Edit and Share every moment, no matter where they are filming. The WASPcam 9905 Wi-Fi Camera allows users to go from land to water without a waterproof case.

- WATERPROOF Without a Case Down to 98 Feet (30 Meters)
- Records HD Video up to 1080p/30fps
- Up to 12MP Photo Quality
- Built-in Wi-Fi connects camera to WASPcam App
- 1.5" LCD Screen
- Two LED Safety Lights

## POWER STUBBIE

Part #9810 is a compact, handheld Power Stubbie is perfect for powering all-day adventures.

With a built-in 5200mAh high capacity power bank, it can extend your camera's battery life by up to 400%. The Power Stubbie keeps your camera powered during motorcycle racing, overnight backpacking trips, and other all-day activities where charging or swapping in a fresh battery is difficult.

WASPcam builds user-friendly, high-quality action-sport cameras that cater to pros AND amateurs alike. And we offer them at a more affordable price.

# WASP<sup>TM</sup> CAM CAMO
