

MOUNTING SUGGESTIONS:

Harley-Davidson® FXSB Breakout 2013-2017 Solo and Passenger Seats

Hardware (Included):	Solo: Fender bracket ¼"-20 hex nuts x 2	Passenger seat: Short slotted nuts x 2
Tools needed:	Phillips screwdriver SAE hex wrenches	

Removal of Stock Seat:

1. Remove the rear ¼"-20 fender screw with a Phillips screwdriver and set it aside. The stock rear fender screw will be used to attach your new Mustang seat.

2. Slide the rear seat back and out of the hand strap.

3. Loosen the two thumb screws holding the driver in place.

4. Carefully lift the back of the driver's seat up and back to disengage the front bracket and remove the seat.

5. Remove the hand strap.

Installation of Mustang seat:

Solo:

1. Install the supplied bracket onto the stud plate in the fender with supplied nuts. If you will be installing a passenger seat, use the slotted nuts supplied with the passenger seat.

2. Insert nose tab into frame mount under tank.

3. Align the seat's rear pin with the grommet on the bracket and push down to pressure-fit them together. Check to be sure the solo seat is secured to the mounting bracket before riding the motorcycle.

Passenger seat:

1. Carefully slide the front brackets of the passenger seat under the solo and engage the slots in the nuts mounting the solo bracket.
2. Align the rear bracket with the fender mount and secure with the stock rear screw.

Enjoy the comfort and custom look of your new Mustang seat!

These steps are guidelines to help you install your new Mustang product. If you need further assistance, please call us at 800-243-1392 or 413-668-1100, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to questions@mustangseats.com or visit our website at www.mustangseats.com.
